The Hulk - James Schamus 2003-07-14

The only official book on the making of the new film from the director of *Crouching Tiger, Hidden Dragon* full-color, behind-the-scenes companion to the eagerly awaited blockbuster from Universal Pictures, featuring an all-star cast: Eric Bana, Jennifer Connelly, Sam Elliott, Josh Lucas, and Nick Nolte. Acclaimed filmmaker Ang Lee's concept for his film adaptation of the classic Marvel Comics series *The Hulk* combines all the elements of a blockbuster visual effects-intensive superhero movie with the brooding romance and tragedy of Universal's classic horror films. In depicting *The Hulk* as both a superhero and a monster, a wish fulfillment and a nightmare, Lee and his team have stayed true to the

early subversive spirit of the character created by Stan Lee and Jack Kirby, while completely updating *The Hulk* and projecting it into the dangers and aspirations of contemporary times. Eric Bana (*Black Hawk Down*) stars as scientist Bruce Banner, whose inner demons transform him in the aftermath of a catastrophic experiment. Academy Award-winner Jennifer Connelly (*A Beautiful Mind*) portrays Betty Ross, whose scientific genius unwittingly helps unleash *The Hulk*; Nick Nolte (*The Thin Red Line*) plays Banner's brilliant father, who passes on a tragic legacy to his son; and Sam Elliott (*The Contender*) portrays the commander of a top-secret military research center. With more than 120 color images, the Newmarket Pictorial Moviebook includes the motion picture screenplay written by James Schamus, behind-the-scenes photos in bringing the big green superhero to life through visual effects, creature design concept art, and many fascinating articles about the cast and filmmakers.

Roth Time - Dirk Dobke 2003

Sculptor, poet, diarist, graphic designer, pioneer artist's book maker, performer, publisher, musician, and, most of all, provocateur, Dieter Roth has long been beloved as an artist's artist. Known for his mistrust of

all art institutions and commercial galleries--he once referred to museums as funeral homes--he was also known for his generosity to friends, his collaborative spirit, and for including his family in his art making. Much to the frustration of any gallery that tried to exhibit his work (supposedly none more than once), Roth thumbed his nose at those who valued high purpose and permanence in art. Constantly trying to undo his art education, he would set up systems that discouraged the conventional and the consistent: he drew with both hands at once, preserved the discarded, and reveled in the transitory. Grease stains, mold formations, insect borings, and rotting foodstuffs were just some of the materials used, both out of a fascination with their painterly, textural aspects and for their innate ability to make time visible and play to chance. "More is better," he once said, and more there always was. Roth never stopped working, and he believed that everything could be art, from his sketch pad to the table he sat at, the telephone he talked on, or his friend's kitchen (the kitchen was later sold to a museum). Roth Time: A Dieter Roth Retrospective is published to mark the first major survey exhibition of the artist's work since his death in 1998. Five decades of drawings, graphics, books, paintings, objects, installations, films and video works are represented. The publication offers a window into Roth's creative world, reflecting him and his era. The exhibition is organized by the Schaulager with The Museum of Modern Art, New York and the Museum Ludwig, Cologne.

Art of X-Men The Last Stand - Bruce Ratner 2006-05-26

This lavishly illustrated filmbook boasts more than 360 illustrations, including striking movie stills and unique set designs, concept drawings, costume sketches, and storyboards, appearing exclusively in this edition. Beginning with an introduction by director Brett Ratner, text includes commentary about the production of the movie, along with an original history of the X-Men by Peter Sanderson, the comics historian and author of X-Men: The Ultimate Guide, illustrated with archival Marvel comic-book art. In X-Men: The Last Stand, a "cure" for mutancy threatens to alter the course of history. For the first time, mutants have a choice: retain their uniqueness, though it isolates and alienates them, or give up their powers and become human. The opposing viewpoints of mutant leaders Charles Xavier (Patrick Stewart), who preaches tolerance, and Magneto (Ian McKellen), who believes in the survival of the fittest, are put to the ultimate test -- triggering the war to end all wars. The old cast returns, including Hugh Jackman as Wolverine and Halle Berry as Storm, along with newcomers Kelsey Grammer as Beast, Vinnie Jones as Juggernaut, and Ben Foster as Angel.

Gods and Monsters - Bill Condon 2005-03-04

In 1957, a handsome gardener named Clayton Boone is hired by James Whale, the director of *Frankenstein*, *Bride of Frankenstein*, and *The Invisible Man*. Boone is fascinated by his retired employer's tales of Old Hollywood, but also wary of his overt homosexuality. Whale slowly exposes Boone to a world he's never before seen, while staging a plot with the young man at its center—not a plot of seduction, but something darker. *Gods and Monsters*, the Academy Award®-winning screenplay by Bill Condon, is adapted from the novel *Father of Frankenstein* by Christopher Bram. The film, directed by Condon, stars Ian McKellen as Whale, Brendan Fraser as Boone, and Lynn Redgrave as Hanna, Whale's protective housekeeper. *Gods and Monsters*, produced by Regent Entertainment, was named Best Picture by the National Board of Review, was chosen by more than 100 newspapers and magazines as one of the Ten Best Films of 1998, and was nominated for three Academy® Awards. "Gods and Monsters is a picture that seems so very simple in its outline, yet it elicits from its audiences immensely complex feelings. That's a rare balance and extraordinarily difficult to achieve," writes Clive Barker in his foreword. And Ian McKellen writes in his introduction, "This is one of those rare screenplays that the actors felt no need to tamper with. The dialogue is full of invention but never straining for effect." This volume in the acclaimed *Newmarket Shooting Script®* series features Condon's screenplay, McKellen's introduction, Barker's foreword, a portfolio of stills by Anne Fishbein, and complete credits for the film.

The Biopolitics of Disability - David T. Mitchell 2015-07-21

In the neoliberal era, when human worth is measured by its relative

utility within global consumer culture, selected disabled people have been able to gain entrance into late capitalist culture. The Biopolitics of Disability terms this phenomenon “ablenationalism” and asserts that “inclusion” becomes meaningful only if disability is recognized as providing modes of living that are alternatives to governing norms of productivity and independence. Thus, the book pushes beyond questions of impairment to explore how disability subjectivities create new forms of embodied knowledge and collective consciousness. The focus is on the emergence of new crip/queer subjectivities at work in disability arts, disability studies pedagogy, independent and mainstream disability cinema (e.g., *Midnight Cowboy*), internet-based medical user groups, anti-normative novels of embodiment (e.g., Richard Powers’s *The Echo-Maker*) and, finally, the labor of living in “non-productive” bodies within late capitalism.
