For years, the king and queen have tried desperately to have a baby. Their wish was granted twice, when an engineer and a witch gave them a little wooden robot and an enchanted log princess. But there's just one catch: every night when the log princess sleeps, she transforms back into an ordinary log, and can only be woken up with magic words. The princess and her robot brother are inseparable, until the sleeping princess, mistaken for lumber, is accidentally carted off to parts unknown. Now it's up to her devoted brother to find her, and get them safely back home. They need to take turns to get each other home, and on the way, they face a host of adventures involving the Queen of Mushrooms, a magic pudding, a baby in a rosebush, and an old lady in a bottle. This is acclaimed graphic novelist Tom Gauld's first picture book for children, inspired by a bedtime story he made up for his daughters. In his words, "I was trying to make a book inspired by three different sets of books: The books that I remember enjoying as a child, the books that I watched my daughters enjoying, and the books I enjoy now as an adult. I wanted the book to have its own quirky feeling but also to function like a classic bedtime story." Living Life Inside the Lines - Martha Sigall 2005

Martha Sigall worked with all the classic cartoon characters-Bugs Bunny, Daffy Duck, Tom & Jerry, Droopy Dawg, Beany & Cecil, Tweety, and Porky Pig-and the madcap artists who created them-Chuck Jones, Tex Avery, Bob Clampett, Frank Tashlin, Friz Freleng, William Hanna and Joseph Barbera, Bill Melendez, and Ben (Bugs) Hardaway. As a teenager Sigall became an apprentice painter working in the Golden Age of Hollywood at the Leon Schlesinger studio, making \$12.75 per week coloring animation cels that would introduce Bugs Bunny and Elmer Fudd to the world. She recounts her wild and wonderful experiences with the Warner Bros. cartoon crew, working and laughing all day with the animators, partying all night with the Looney Tunes gang on the bowling and baseball teams, and participating in weekend scavenger hunts. She was president of the in-house "Looney Tunes Club," co-wrote the company gossip column, and performed in the company's theatrical troupe. After World War II, Martha joined MGM Animation (Tom & Jerry, Tex Avery) in Culver City as an assistant in the camera room and later freelanced her ink and paint services, creating art for many classic features, shorts, commercials, and TV series-including Garfield, Peanuts, and The Pink Panther. Written with warmth, humor, and a touch of nostalgia, this is a rarely told story of what it was like to be a part of a team of artists who were creating masterpieces of animation. Martha recalls her lifelong friendships with writer Michael Maltese, animators Ben Washam, Ken Harris, Herman Cohen, Paul Smith, Bob Matz, and many others. She writes of her experiences of being a woman in a male-dominated industry, particularly during the war years when she was one of the first women camera operators in the industry. Recipient of numerous awards for her artistry, Martha Sigall, Culver City, California, worked in animation production from 1936 to 1989.

Homosexuality and Italian Cinema - Mauro Giori 2017-11-18

This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war Italy. It explores

cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema, and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and complicities. Through archival research and a survey of more than 600 films, the author enriches our understanding of thirty years of Italian film and cultural history.

PS Magazine - Will Eisner 2012-12-01

Will Eisner—best known for his influential comic book series *The Spirit* and his groundbreaking graphic novel *A Contract with God*—believed in the teaching power of comics, and from 1951 to 1971 he produced *PS* magazine for the U.S. Army. This *Preventive Maintenance Monthly* (called *PS* because it was a postscript to the standard technical manuals) was aimed at teaching American soldiers everything about weapons safety for vehicles, aircraft, firearms, and electronics. Eisner illustrated these vital lessons in drawings, pinups, step-by-step guides, and comic strips. This collection contains the best of Eisner's 227 issues of *PS*, reproduced in a portable digest format. This relatively unknown work by Eisner is finally explored—the missing link between his comic books and his later, more mature graphic novel style. Praise for *PS Magazine*: "For the first time, Will Eisner's superlative work for the U.S. Army has been assembled into a single collection. The result shows the artist's keen understanding of the educative power of graphic storytelling. From 1951 to 1971, between *The Spirit* and *A Contract with God*, Eisner produced *PS Magazine* for the army in order to teach the common soldier how best to use, maintain, repair, and requisition their equipment. From explaining how to load a truck correctly to why it won't start, Eisner used a combination of humor, sound technical writing, and graphic storytelling to educate the soldiers. His magazines could be found at the front lines, in the officer's mess, and in the quarters of senior military officials. It featured a cast of recurring characters like the loveable Joe Dope and the voluptuous Connie Rodd, who headlined featured segments like "Joe's Dope Sheet" and the provocatively named "Connie Rodd's Briefs." With Eisner's wonderful artwork and clarity of style making sometimes difficult concepts easy to understand, it's no wonder *PS Magazine* was so popular with military personnel. A fascinating document for both fans of Eisner and military history buffs." - Publishers Weekly starred review "These amusing yet pragmatic sketches provide a 'missing-link' comics document for fans and demonstrate the same mastery of his craft that marked Eisner's better-known works."

—Booklist "An instructional model for today's producers of nonfiction comics, which too often lack such visual traction, this also has appeal for military buffs, vehicle junkies, and Eisner fans." —Library Journal "The enthusiast who's been nurturing a curiosity about Eisner's lost years will find all he needs to know from this beautifully produced little volume."

—The Comics Journal "Eisner understood comics' potential for education decades before his peers, and *PS* magazine was his first laboratory. This thoughtful new collection is an essential addition to the Eisner library." - Scott McCloud, author of *Understanding Comics*

The Art of Daniel Clowes - Alvin Buenaventura 2012-04-08

Throughout his 25-year career, alternative cartoonist/screenwriter Daniel Clowes has always been ahead of artistic and cultural movements. In the late 1980s his groundbreaking comic book series *Eightball* defined indie culture with wit, venom, and even a little sympathy. With each successive graphic novel (*Ghost World*, *David Boring*, *Ice Haven*, *Wilson*, *Mister Wonderful*), Clowes has been praised for his emotionally compelling narratives that reimagine the ways that stories can be told in comics. *The Art of Daniel Clowes: Modern Cartoonist* is the first monograph on this award-winning, New York Times–bestselling creator, compiled with his complete cooperation. It includes all of Clowes's best-known illustrations as well as rare and previously unpublished work, all reproduced from the original art, and also includes essays by noted contributors such as designer Chip Kidd and cartoonist Chris Ware. Graphic Medicine Manifesto - MK Czerwiec 2020-05-18

This inaugural volume in the *Graphic Medicine* series establishes the principles of graphic medicine and begins to map the field. The volume combines scholarly essays by members of the editorial team with previously unpublished visual narratives by Ian Williams and MK Czerwiec, and it includes arresting visual work from a wide range of graphic medicine practitioners. The book's first section, featuring essays by Scott Smith and Susan Squier, argues that as a new area of scholarship, research on graphic medicine has the potential to challenge the conventional boundaries of academic disciplines, raise questions about their foundations, and reinvigorate literary scholarship—and the notion of the literary text—for a broader audience. The second section, incorporating essays by Michael Green and Kimberly Myers, demonstrates that graphic medicine narratives can engage members of the health professions with literary and visual representations and symbolic practices that offer patients, family members, physicians, and other caregivers new ways to experience and work with the complex challenges of the medical experience. The final section, by Ian Williams and MK Czerwiec, focuses on the practice of creating graphic narratives, iconography, drawing as a social practice, and the nature of comics as visual rhetoric. A conclusion (in comics form) testifies to the diverse and growing graphic medicine community. Two valuable bibliographies guide readers to comics and scholarly works relevant to the field.
