**Oblivion's Grasp** - Eric Knight 2016-03-02  
The final battle has begun. Melekath's Children are at the gates of Qarath. But the city's two chief defenders, Wulf Rome and Quayloc, are gone, trapped in the Pente Akka by the fell creature that rules the shadow world. Will they be able to escape before their life energy is drained and used to shred the veil that protects the world from the abyss? Netra is a prisoner of Reyna, most powerful of the Children. Her only hope is a rescue by Shorn, her loyal companion. But when Reyna learns that Netra is a follower of Xochitl, the god who was most instrumental in creating the prison where she spent the last 3,000 years, she may just kill Netra outright. Shakre and the Takare have made it to Wreckers Gate, the doorway to their ancestral home, only to find one of the Guardians now rules there. The spirit-kin have taken control of the Takare. Their plan to defeat the Guardian depends on the aid of ancient allies, allies who have been betrayed by the Takare before in the events that led to the tragedy of Wreckers Gate. But their plan may result in the death of everyone.

**A Space Girl from Earth** - Christina McMullen 2017-05-02

Ellie Whitmore is no ordinary girl. Even if her parents weren't internationally famous celebrities, her six foot four inch height and oddly spotted complexion would make her stand out in any crowd. But never would she have guessed she was an alien from far across the galaxy. Or that hidden within her genetic

makeup lies the Kyroibi: an ancient and powerful relic housing the forbidden knowledge of her people. Knowledge some would sacrifice everything to possess. Worse, it isn't just the malevolent Emperor who wants the Kyroibi. Her own mother can't resist the draw of ultimate power and the one person Ellie might be able to trust is an unrepentant assassin who may be responsible for her life's upheaval. Now, she must travel to a distant planet and unlock the secrets to restoring peace and ending tyranny. But how can anyone expect her to save the galaxy when she can't even pass organic chemistry?

**All that is Solid Melts Into Air** - Marshall Berman 1983

The experience of modernization -- the dizzying social changes that swept millions of people into the capitalist world -- and modernism in art, literature and architecture are brilliantly integrated in this account.

Machine of Death - Ryan North 2010

Presents fantasy stories written by Internet authors that explore how people, cultures, and societies are affected by the predictions of the Machine, an object that provides short yet vague phrases about how a person will die.

*Tangerine* - Edward Bloor 2006

Twelve-year-old Paul, who lives in the shadow of his football hero brother Erik, fights for the right to play soccer despite his near blindness and slowly begins to remember the incident that damaged his eyesight. An ALA Best Book for

Young Adults. Reprint. Jr Lib Guild.

**A Lover's Discourse** - Roland Barthes 1978

"Barthes's most popular and unusual performance as a writer is "A Lover's Discourse," a writing out of the discourse of love. This language primarily the complaints and reflections of the lover when alone, not exchanges of a lover with his or her partner is unfashionable. Thought it is spoken by millions of people, diffused in our popular romances and television programs as well as in serious literature, there is no institution that explores, maintains, modifies, judges, repeats, and otherwise assumes responsibility for this discourse . . . Writing out the figures of a neglected discourse, Barthes surprises us in "A Lover's Discourse" by making love, in its most absurd and sentimental forms, an object of interest." Jonathan Culler

**Psychic Self-Defense** - Dion Fortune  
2020-12-12

A new edition of an occult classic, which includes a new introduction by Mary K. Greer, author of *Women of the Golden Dawn*, and a new afterword with excerpts from rarely seen documents by Fortune herself describing how the book came about. After finding herself the subject of a powerful psychic attack in the 1930s, famed British occultist Dion Fortune wrote this detailed instruction manual on protecting oneself from paranormal attack. This classic psychic self-defense guide explains how to understand the signs of a psychic attack, vampirism, hauntings, and methods of defense. Everything you need to know about the methods, motives, and physical aspects of a psychic attack and how to overcome it is here, along with a look at the role psychic elements play in mental illness and how to recognize them. This is one of the best guides to detection and defense against psychic attack from one of the leading occult writers of the twentieth century. This Weiser Classics edition of Dion Fortune's *Psychic Self-Defense* includes a new forward by Mary K. Greer, author of numerous books including *Tarot for Your Self*, and a new afterword by Christian Gilson that chronicles the original context surrounding Dion Fortune's writing of the book. Mr. Gibson is the editor of *The Inner Light*, the journal published by the Society of Inner Light.

**The New Machiavelli** - Herbert George Wells

1911

**The Precipice** - Toby Ord 2020-03-24

This urgent and eye-opening book makes the case that protecting humanity's future is the central challenge of our time. If all goes well, human history is just beginning. Our species could survive for billions of years - enough time to end disease, poverty, and injustice, and to flourish in ways unimaginable today. But this vast future is at risk. With the advent of nuclear weapons, humanity entered a new age, where we face existential catastrophes - those from which we could never come back. Since then, these dangers have only multiplied, from climate change to engineered pathogens and artificial intelligence. If we do not act fast to reach a place of safety, it will soon be too late. Drawing on over a decade of research, *The Precipice* explores the cutting-edge science behind the risks we face. It puts them in the context of the greater story of humanity: showing how ending these risks is among the most pressing moral issues of our time. And it points the way forward, to the actions and strategies that can safeguard humanity. An Oxford philosopher committed to putting ideas into action, Toby Ord has advised the US National Intelligence Council, the UK Prime Minister's Office, and the World Bank on the biggest questions facing humanity. In *The Precipice*, he offers a startling reassessment of human history, the future we are failing to protect, and the steps we must take to ensure that our generation is not the last. "A book that seems made for the present moment."  
—New Yorker

**War God's Will** - Matthew P. Gilbert  
2019-08-20

Doomsday approaches. Unite or die. The Nihlosians and Xanthians have united to thwart the Dead God's prophecy, but as tempers flare or pride prickles, the alliance hangs by a thread. Meanwhile, the political situation in Nihlos grows worse every day. Two Council members have been assassinated, some are in open rebellion, and many blame the Empress herself for all of it. Amidst this chaos, Ilaweh commands Ahmed to enter Nihlos alone and place himself at the mercy of the Meite sorcerers. But they too are torn apart by civil war and have fled their city. For now, they can't help. Ahmed is on his

own, leaving the Dead God's agents to move unopposed toward the festering city of evil, Torium, to carry out their master's dark purpose. Has the end truly come, or will mankind endure? Find out in the breathtaking finale of the Sins of the Father Trilogy. Also Available on Audible, performed by Ralph Lister.

The Ascent of Humanity - Charles Eisenstein  
2013-02-05

Charles Eisenstein explores the history and potential future of civilization, tracing the converging crises of our age to the illusion of the separate self. In this limited hardcover edition of Eisenstein's landmark book, he argues that our disconnection from one another and the natural world has mislaid the foundations of science, religion, money, technology, economics, medicine, and education as we know them. It has fired our near-pathological pursuit of technological Utopias even as we push ourselves and our planet to the brink of collapse.

Fortunately, an Age of Reunion is emerging out of the birth pangs of an earth in crisis. Our journey of separation hasn't been a terrible mistake but an evolutionary process and an adventure in self-discovery. Even in our darkest hour, Eisenstein sees the possibility of a more beautiful world--not through the extension of millennia-old methods of management and control but by fundamentally reimagining ourselves and our systems. We must shift away from our Babelian efforts to build ever-higher towers to heaven and instead turn our attention to creating a new kind of civilization--one designed for beauty rather than height.

Breathtaking in its scope and intelligence, *The Ascent of Humanity* is a landmark book showing what it truly means to be human. "A tour-de-force filled with astounding insight, wit, wisdom and heart." --Christopher Uhl, author of *Developing Ecological Consciousness: Paths to a Sustainable Future* "Quite marvelous, a hugely important work. This book is truly needed in this time of deepening crisis." --John Zerzan, author of *Future Primitive and Elements of Refusal*  
*Cloud Cuckoo Land (Large Print Edition)* - Anthony Doerr 2021-09-28

Follows four young dreamers and outcasts through time and space, from 1453 Constantinople to the future, as they discover resourcefulness and hope amidst peril.

Microbe Hunters - Paul De Kruif 1926

Paul de Kruif's *Microbe Hunters* is a timeless dramatization of the scientists, bacteriologists, doctors, and medical technicians who discovered microbes and invented the vaccines to counter them. De Kruif reveals the now seemingly simple but really fundamental discoveries of science - for instance, how a microbe was first viewed in a clear drop of rain water, and when, for the first time ever, Louis Pasteur discovered that a simple vaccine could save a man from the ravages of rabies by attacking the microbes that cause it.

Dystopia - Gregory Claeys 2016-11-17

*Dystopia: A Natural History* is the first monograph devoted to the concept of dystopia. Taking the term to encompass both a literary tradition of satirical works, mostly on totalitarianism, as well as real despotisms and societies in a state of disastrous collapse, this volume redefines the central concepts and the chronology of the genre and offers a paradigm-shifting understanding of the subject. Part One assesses the theory and prehistory of 'dystopia'. By contrast to utopia, conceived as promoting an ideal of friendship defined as 'enhanced sociability', dystopia is defined by estrangement, fear, and the proliferation of 'enemy' categories. A 'natural history' of dystopia thus concentrates upon the centrality of the passion or emotion of fear and hatred in modern despotisms. The work of Le Bon, Freud, and others is used to show how dystopian groups use such emotions. Utopia and dystopia are portrayed not as opposites, but as extremes on a spectrum of sociability, defined by a heightened form of group identity. The prehistory of the process whereby 'enemies' are demonised is explored from early conceptions of monstrosity through Christian conceptions of the devil and witchcraft, and the persecution of heresy. Part Two surveys the major dystopian moments in twentieth century despotisms, focussing in particular upon Nazi Germany, Stalinism, the Chinese Cultural Revolution, and Cambodia under Pol Pot. The concentration here is upon the political religion hypothesis as a key explanation for the chief excesses of communism in particular. Part Three examines literary dystopias. It commences well before the usual starting-point in the secondary literature, in anti-Jacobin writings of the 1790s. Two chapters

address the main twentieth-century texts usually studied as representative of the genre, Aldous Huxley's *Brave New World* and George Orwell's *Nineteen Eighty-Four*. The remainder of the section examines the evolution of the genre in the second half of the twentieth century down to the present.

*The Psychosocial Implications of Disney Movies* - Lauren Dundes 2019-07-11

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

**Virgil, Aeneid, 4.1-299** - Ingo Gildenhard 2012  
Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences.

This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

[The Secret of Our Success](#) - Joseph Henrich 2017-10-17

How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary

trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

*5 Worlds Book 5: The Emerald Gate* - Mark Siegel 2022-01-18

Oona and her friends face their ultimate challenge in the final installment of the graphic sci-fi fantasy series that's Star Wars meets Avatar: The Last Airbender! In the epic conclusion to the 5 Worlds series, the final battle looms as Oona, Jax, and An Tzu travel to the treacherous world of Grimbo (E)! There, Oona must light the last beacon to save the 5 Worlds, but first she has to find it! When Jax saves an old friend, Oona is given a clue to the green beacon's location. Unfortunately, the journey to lighting it on this strange, watery planet is the most dangerous yet. Meanwhile, Stan Moon has one more trick up his sleeve as his frightening powers and mysterious connection to An Tzu continue to grow. How can Oona ever hope to beat him? Can she count on her friends or will a terrible betrayal mean the 5 Worlds will be lost to evil forever? The 5 Worlds series: #1: The Sand Warrior, #2: The Cobalt Prince, #3: The Red Maze, #4: The Amber Anthem, #5: The Emerald Gate

**Living Mindfully Across the Lifespan** - J. Kim Penberthy 2020-11-23

*Living Mindfully Across the Lifespan: An Intergenerational Guide* provides user-friendly, empirically supported information about and answers to some of the most frequently encountered questions and dilemmas of human living, interactions, and emotions. With a mix of empirical data, humor, and personal insight, each chapter introduces the reader to a significant topic or question, including self-worth, anxiety, depression, relationships, personal development, loss, and death. Along with exercises that clients and therapists can use in daily practice, chapters feature personal stories and case studies, interwoven throughout with the authors' unique intergenerational perspectives. Compassionate, engaging writing is balanced with a straightforward presentation of research data and practical strategies to help

address issues via psychological, behavioral, contemplative, and movement-oriented exercises. Readers will learn how to look deeply at themselves and society, and to apply what has been learned over decades of research and clinical experience to enrich their lives and the lives of others.

**Sons of God** - Jason Cross 2019-07-27

Evil has a home. Earth. The Sons of God entered this realm for its pleasures. They offer power and wealth to humans then seize control of the fleshly bodies. But there's a problem. Rumors swirl that if their human host dies these fallen angels face damnation sooner than ever expected. So they pose as gods, toying with empires, making others fight and bleed for entertainment in the struggle to survive. And their Nephilim offspring haven't a clue of any of this-especially Talon and Ja-el, who want each other dead. As the lives of these two enemies become entangled, what they learn upends all they believe and threatens to expose the secrets of the Sons of God. God only knows if Talon and Ja-el can survive the coming deluge and live to find redemption before the end of the age.

*Crystal Doors #1* - Kevin J. Anderson 2009-10-31  
This first novel in a new trilogy finds 14-year-old cousins Gwen and Vic accidentally transported through a magical crystal door to the island Elantya. They are soon caught in a tempest of ancient magic and fierce battles all connected to ancient feuds and the cousins' own mysterious roots.

*The Napoleon of Notting Hill* - Gilbert Keith Chesterton 1904

Chesterton's first novel is set in London in 1984, eighty years in the future, where political indifference has swept over the land, and a new King jokingly decrees a revival of medieval heraldry throughout London. The ruse is taken seriously by the title character, Adam Wayne, who aims to fight to the finish to defend Notting Hill. At once humorous and absorbing, it is a fine example of Chesterton's first-rate storytelling.

**The Spinster Book** - Myrtle Reed 1901

*Dark Rise* - C. S. Pacat 2021-09-28

\* Instant New York Times Bestseller \* Indie Bestseller \* In this stunning new fantasy novel from international bestselling author C. S. Pacat, heroes and villains of a long-forgotten war are

reborn and begin to draw new battle lines. This epic fantasy with high-stakes romance will sit perfectly on shelves next to beloved fantasy novels like the *Infernal Devices* series, the *Shadow and Bone* trilogy, and the *Red Queen* series. Sixteen-year-old dock boy Will is on the run, pursued by the men who killed his mother. Then an old servant tells him of his destiny to fight beside the Stewards, who have sworn to protect humanity if the Dark King ever returns. Will is thrust into a world of magic, where he starts training for a vital role in the oncoming battle against the Dark. As London is threatened and old enmities are awakened, Will must stand with the last heroes of the Light to prevent the fate that destroyed their world from returning to destroy his own. Like V.E. Schwab's *A Darker Shade of Magic* and Shelby Mahurin's *Serpent & Dove*, *Dark Rise* is more than just high intrigue fantasy—it's fast-paced, action-packed, and completely surprising. Readers will love exploring the rich setting of nineteenth-century London. This thrilling story of friendship, deception, loyalty, and betrayal is sure to find a passionate audience of readers.

**How to Change Your Mind** - Michael Pollan  
2018-05-15

"Pollan keeps you turning the pages . . . cleareyed and assured." —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs--and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain

science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's "mental travelogue" is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives.

[A Fire Upon The Deep](#) - Vernor Vinge  
2010-04-01

Now with a new introduction for the Tor Essentials line, *A Fire Upon the Deep* is sure to bring a new generation of SF fans to Vinge's award-winning works. A Hugo Award-winning Novel! "Vinge is one of the best visionary writers of SF today."-David Brin Thousands of years in the future, humanity is no longer alone in a universe where a mind's potential is determined by its location in space, from superintelligent entities in the *Transcend*, to the limited minds of the *Unthinking Depths*, where only simple creatures, and technology, can function. Nobody knows what strange force partitioned space into these "regions of thought," but when the warring *Straumli* realm use an ancient *Transcendent* artifact as a weapon, they unwittingly unleash an awesome power that destroys thousands of worlds and enslaves all natural and artificial intelligence. Fleeing this galactic threat, *Ravna* crash lands on a strange world with a ship-hold full of cryogenically frozen children, the only survivors from a destroyed space-lab. They are taken captive by the *Tines*, an alien race with a harsh medieval culture, and used as pawns in a ruthless power struggle. Tor books by Vernor Vinge *Zones of Thought* Series *A Fire Upon The Deep* *A Deepness In The Sky* *The Children of The Sky* *Realtime*/*Bobble* Series *The Peace War*

**What Technology Wants** - Kevin Kelly

2011-09-27

From the author of the New York Times  
bestseller *The Inevitable*— a sweeping vision of  
technology as a living force that can expand our  
individual potential In this provocative book, one  
of today's most respected thinkers turns the  
conversation about technology on its head by  
viewing technology as a natural system, an  
extension of biological evolution. By mapping the  
behavior of life, we paradoxically get a glimpse  
at where technology is headed-or "what it  
wants." Kevin Kelly offers a dozen trajectories in  
the coming decades for this near-living system.  
And as we align ourselves with technology's  
agenda, we can capture its colossal potential.  
This visionary and optimistic book explores how  
technology gives our lives greater meaning and  
is a must-read for anyone curious about the  
future.

**Wreckers Gate** - Eric Knight 2018-01-28

A forgotten prison. A powerful artifact. An epic  
tale begins. When Wulf Rome discovers a  
mysterious, ancient axe hidden in a deep cavern,  
the powerful artifact wins him a throne - and  
unlocks a prison. Melekath and his followers  
have languished beyond memory for eons, but  
now the feared Guardians again roam the land,  
sowing disease and destruction. The enigmatic  
stranger Lowellin claims to be immortal. He also  
claims to bear the world's only hope: sorely  
needed weapons to be employed in the war  
against Melekath. When those weapons prove to  
be dangerous and unpredictable, Rome soon  
begins to doubt his true motives. But with  
apocalypse looming, Melekath must be stopped,  
no matter the cost... for where immortality goes,  
chaos follows.

**The Shape Of Things To Come** - H.G. Wells

2017-06-08

When Dr Philip Raven, a diplomat working for  
the League of Nations, dies in the 1930s, he  
leaves behind a book of dreams outlining the  
visions he has been experiencing for many years.  
These visions seem to be glimpses into the

future, detailing events that will occur on Earth  
for the next two hundred years. This fictional  
'history of the future' proved prescient in many  
ways, as Wells predicted events such as the  
Second World War, the rise of chemical warfare,  
climate change and the growing instability of the  
Middle East.

*Man and His Symbols* - Carl G. Jung 1968-08-15

The landmark text about the inner workings of  
the unconscious mind—from the symbolism that  
unlocks the meaning of our dreams to their  
effect on our waking lives and artistic  
impulses—featuring more than a hundred  
images that break down Carl Jung's  
revolutionary ideas "What emerges with great  
clarity from the book is that Jung has done  
immense service both to psychology as a science  
and to our general understanding of man in  
society."—The Guardian "Our psyche is part of  
nature, and its enigma is limitless." Since our  
inception, humanity has looked to dreams for  
guidance. But what are they? How can we  
understand them? And how can we use them to  
shape our lives? There is perhaps no one more  
equipped to answer these questions than the  
legendary psychologist Carl G. Jung. It is in his  
life's work that the unconscious mind comes to  
be understood as an expansive, rich world just  
as vital and true a part of the mind as the  
conscious, and it is in our dreams—those  
personal, integral expressions of our deepest  
selves—that it communicates itself to us. A  
seminal text written explicitly for the general  
reader, *Man and His Symbols* is a guide to  
understanding the symbols in our dreams and  
using that knowledge to build fuller, more  
receptive lives. Full of fascinating case studies  
and examples pulled from philosophy, history,  
myth, fairy tales, and more, this groundbreaking  
work—profusely illustrated with hundreds of  
visual examples—offers invaluable insight into  
the symbols we dream that demand  
understanding, why we seek meaning at all, and  
how these very symbols affect our lives. By  
illuminating the means to examine our  
prejudices, interpret psychological meanings,  
break free of our influences, and recenter our  
individuality, *Man and His Symbols* proves to  
be—decades after its conception—a revelatory,  
absorbing, and relevant experience.

**Digital Fortress** - Dan Brown 2007-04-01

Before the multi-million, runaway bestseller *The Da Vinci Code*, Dan Brown set his razor-sharp research and storytelling skills on the most powerful intelligence organization on earth--the National Security Agency (NSA)--in this thrilling novel, *Digital Fortress*. When the NSA's invincible code-breaking machine encounters a mysterious code it cannot break, the agency calls its head cryptographer, Susan Fletcher, a brilliant and beautiful mathematician. What she uncovers sends shock waves through the corridors of power. The NSA is being held hostage...not by guns or bombs, but by a code so ingeniously complex that if released it would cripple U.S. intelligence. Caught in an accelerating tempest of secrecy and lies, Susan Fletcher battles to save the agency she believes in. Betrayed on all sides, she finds herself fighting not only for her country but for her life, and in the end, for the life of the man she loves. From the underground hallways of power to the skyscrapers of Tokyo to the towering cathedrals of Spain, a desperate race unfolds. It is a battle for survival--a crucial bid to destroy a creation of inconceivable genius...an impregnable code-writing formula that threatens to obliterate the post-cold war balance of power. Forever.

*The Emerald Gate* - Matt Heppie 2020-04-19

*The Emerald Gate* is the fifth, and final, novel of *The Orb*. General Nidon, Lord Commander of the Army of Salador, leads his knights on a campaign to rid the East Teren of the remnants of Cragor's shattered army. Soon, the Saladorans will assault Rigaria itself and by defeating them bring a lasting peace. When news arrives that Ayja has disappeared and a Summoner army threatens to conquer Belen, Nidon turns his attention south. He will fight his way across the world to save both an empire and a daughter he loves more than life. Trapped in the world of Dromost, a world where one either consumes or is consumed, Ayja is caught in a never-ending battle to survive. Even bearing the Shield of Forsvar and the Hammer of Dromost, she isn't safe. The very items that make her a Power make her a target. When a demon offers her a bargain, she must weigh the terrible price he demands. How big a risk does she take... how many lives does she put in peril... for the sake of her own freedom?

*Tiamat's Wrath* - James S. A. Corey 2019-03-26

The eighth book in the NYT bestselling *Expanse* series, *Tiamat's Wrath* finds the crew of the *Rocinante* fighting an underground war against a nearly invulnerable authoritarian empire, with James Holden a prisoner of the enemy. Now a Prime Original series. Thirteen hundred gates have opened to solar systems around the galaxy. But as humanity builds its interstellar empire in the alien ruins, the mysteries and threats grow deeper. In the dead systems where gates lead to stranger things than alien planets, Elvi Okoye begins a desperate search to discover the nature of a genocide that happened before the first human beings existed, and to find weapons to fight a war against forces at the edge of the imaginable. But the price of that knowledge may be higher than she can pay. At the heart of the empire, Teresa Duarte prepares to take on the burden of her father's godlike ambition. The sociopathic scientist Paolo Cortázar and the Mephistophelian prisoner James Holden are only two of the dangers in a palace thick with intrigue, but Teresa has a mind of her own and secrets even her father the emperor doesn't guess. And throughout the wide human empire, the scattered crew of the *Rocinante* fights a brave rear-guard action against Duarte's authoritarian regime. Memory of the old order falls away, and a future under Laconia's eternal rule -- and with it, a battle that humanity can only lose -- seems more and more certain.

Because against the terrors that lie between worlds, courage and ambition will not be enough... *The Expanse* *Leviathan Wakes* *Caliban's War* *Abaddon's Gate* *Cibola Burn* *Nemesis* *Games* *Babylon's Ashes* *Persepolis Rising* *Tiamat's Wrath* *The Expanse Short Fiction* *The Butcher of Anderson Station* *Gods of Risk* *The Churn* *The Vital Abyss* *Strange Dogs*

*Stone Bound* - Eric Knight 2017-06-13

Three children with the powers of Stone, Sea and Sky... Are all that stands between the world and the chaotic power of the Abyss. Fen is only a boy when his city is sacked by enemy invaders. His mother is cut down before his eyes. Yet somehow when the blade is turned on him, he survives without a scratch. But the attack seems to have awakened something inside him, something that killed his father years ago. Aislin came from the sea, her origins a mystery. Within her is an innate power over water, as natural as

breathing. But she lives in a world of her own, emotionally isolated from everyone else, including the woman who is raising her. Bullied by the other children, one day she turns her power on them. Karliss was touched by the wind at birth, destined to be the greatest wind shaman his people have ever seen. But he is careless with his power and he ignores the warnings about the madness that afflicts those who don't protect themselves against the spirits in the wind. When the powerful, inhuman denizens of the Abyss reach out to take the world, only these three have a chance of stopping them, but only if they can learn to master their powers in time...

*Star Maker* - Olaf Stapledon 2008-01-01

This 1937 successor to *Last and First Men* offers another entrancing speculative history of the future. Cited as a key influence by science-fiction masters such as Doris Lessing, its bold exploration of the cosmos ventures into intelligent star clusters and mingles among alien races for a memorable vision of infinity.

**Grendel** - John Gardner 2010-06-02

The first and most terrifying monster in English literature, from the great early epic *Beowulf*, tells his own side of the story in this frequently banned book. This classic and much lauded retelling of *Beowulf* follows the monster Grendel as he learns about humans and fights the war at the center of the Anglo Saxon classic epic. This is the book William Gass called "one of the finest of our contemporary fictions."

*Witness to Hope* - George Weigel 2009-10-13

"Fascinating...sheds light on the history of the twentieth century for everyone."—New York Times Book Review Now, with an updated preface, the latest edition of the definitive biography of Pope John Paul II that explores how influential he was on the world stage and in some of the most historic events of the twentieth century that can still be felt today. *Witness to Hope* is the authoritative biography of one of the singular figures—some might argue the singular figure—of our time. With unprecedented cooperation from John Paul II and the people who knew and worked with him throughout his life, George Weigel offers a groundbreaking portrait of the Pope as a man, a thinker, and a leader whose religious convictions defined a new approach to world politics—and changed the

course of history. As even his critics concede, John Paul II occupied a unique place on the world stage and put down intellectual markers that no one could ignore or avoid as humanity entered a new millennium fraught with possibility and danger. The Pope was a man of prodigious energy who played a crucial, yet insufficiently explored, role in some of the most momentous events of our time, including the collapse of European communism, the quest for peace in the Middle East, and the democratic transformation of Latin America. With an updated preface, this edition of *Witness to Hope* explains how this "man from a far country" did all of that, and much more—and what both his accomplishments and the unfinished business of his pontificate mean for the future of the Church and the world.

**Miss Peregrine's Home for Peculiar**

**Children** - Ransom Riggs 2011-06-07

Read the #1 New York Times best-selling series before it continues in *A Map of Days*. Bonus features • Q&A with author Ransom Riggs • Eight pages of color stills from the film • Sneak preview of *Hollow City*, the next novel in the series *A Mysterious Island*. An abandoned orphanage. A strange collection of very curious photographs. It all waits to be discovered in *Miss Peregrine's Home for Peculiar Children*, an unforgettable novel that mixes fiction and photography in a thrilling reading experience. As our story opens, a horrific family tragedy sets sixteen-year-old Jacob journeying to a remote island off the coast of Wales, where he discovers the crumbling ruins of *Miss Peregrine's Home for Peculiar Children*. As Jacob explores its abandoned bedrooms and hallways, it becomes clear that the children were more than just peculiar. They may have been dangerous. They may have been quarantined on a deserted island for good reason. And somehow—impossible though it seems—they may still be alive. A spine-tingling fantasy illustrated with haunting vintage photography, *Miss Peregrine's Home for Peculiar Children* will delight adults, teens, and anyone who relishes an adventure in the shadows. "A tense, moving, and wondrously strange first novel. The photographs and text work together brilliantly to create an unforgettable story."—John Green, New York Times best-selling author of *The Fault in Our*

Stars "With its X-Men: First Class-meets-time-travel story line, David Lynchian imagery, and rich, eerie detail, it's no wonder Miss Peregrine's Home for Peculiar Children has been snapped up by Twentieth Century Fox.

B+—Entertainment Weekly "'Peculiar' doesn't even begin to cover it. Riggs' chilling, wondrous novel is already headed to the movies."—People "You'll love it if you want a good thriller for the summer. It's a mystery, and you'll race to solve it before Jacob figures it out for himself."—Seventeen

**The Book of Life** - Upton Sinclair 2008-08

Upton Sinclair, one of America's foremost and most prolific authors, addresses the cultivation of the mind and the body in this 1922 volume. Sinclair's goal was to attempt to tell the reader how to live, how to find health, happiness and success, and how to develop fully both the mind and the body. Part One: The Book of the Mind covers such subjects as faith, reason, morality, and the subconscious. Part Two: The Book of the Body develops such subjects as errors in diet, the fasting cure, food and poisons, work and play, and diseases and their cures .

Blindsight - Peter Watts 2006-10-03

Blindsight is the Hugo Award-nominated novel by Peter Watts, "a hard science fiction writer through and through and one of the very best alive" (The Globe and Mail). Two months have past since a myriad of alien objects clenched about the Earth, screaming as they burned. The heavens have been silent since—until a derelict space probe hears whispers from a distant comet. Something talks out there: but not to us. Who should we send to meet the alien, when the alien doesn't want to meet? Send a linguist with multiple-personality disorder and a biologist so spliced with machinery that he can't feel his own flesh. Send a pacifist warrior and a vampire recalled from the grave by the voodoo of paleogenetics. Send a man with half his mind gone since childhood. Send them to the edge of the solar system, praying you can trust such freaks and monsters with the fate of a world. You fear they may be more alien than the thing they've been sent to find—but you'd give anything for that to be true, if you knew what was waiting for them. . . . At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
