**Blood Brotherhoods** - John Dickie 2014-04-22  
MAFIA. CAMORRA. 'NDRANGHETA. The Sicilian mafia, known as Cosa Nostra, is far from being Italy's only dangerous criminal fraternity. The country hosts two other major mafias: the camorra from Naples; and, from the poor and isolated region of Calabria, the mysterious 'ndrangheta, which has now risen to become the most powerful mob group active today. Since they emerged, the mafias have all corrupted Italy's institutions, drastically curtailed the life-chances of its citizens, evaded justice, and set up their own self-interested meddling as an alternative to the courts. Yet each of these brotherhoods has its own methods, its own dark rituals, its own style of ferocity. Each is uniquely adapted to corrupt and exploit its own specific environment, as it collaborates with, learns from, and goes to war with the other mafias. Today, the shadow of organized crime hangs over a country racked by debt, political paralysis, and widespread corruption. The 'ndrangheta controls much of Europe's

wholesale cocaine trade and, by some estimates, 3 percent of Italy's total GDP. Blood

Brotherhoods traces the origins of this national malaise back to Italy's roots as a united country in the nineteenth century, and shows how political violence incubated underworld sects among the lemon groves of Palermo, the fetid slums of Naples, and the harsh mountain villages of Calabria. Blood Brotherhoods is a book of breathtaking ambition, tracing for the first time the interlocking story of all three mafias from their origins to the present day. John Dickie is recognized in Italy as one of the foremost historians of organized crime. In these pages, he blends archival detective work, passionate narrative, and shrewd analysis to bring a unique criminal ecosystem—and the three terrifying criminal brotherhoods that have evolved within it—to life on the page.

## **Indigenous Diplomacy and the Rights of Peoples** - James Youngblood Henderson 2008

Despite centuries of sustained attacks against their collective existence, Indigenous peoples represent over 5,000 languages and cultures in more than 70 nations on six continents. Most have retained social, cultural, economic, and political characteristics distinct from other segments of national populations. Yet recognition of their humanity and rights has been a struggle to achieve. Based on personal experience, James (Sa'ke'j) Youngblood Henderson documents the generation-long struggle that led ultimately to the adoption of the Declaration of the Rights of Indigenous Peoples by the United Nations General Assembly. Henderson puts the Declaration and the struggles of Indigenous peoples in a wider context, outlining the rise of international law and how it was shaped by European ideas, the rise of the United Nations, and post-World War II agreements focusing on human rights. Henderson analyzes the provisions of the Declaration and comments on the impact of other international agreements on Indigenous peoples. He concludes with his view of what must be done to give the Declaration its full force for Indigenous peoples around the world, and what it means for Canada. The full text of the Declaration and selected excerpts of other key international agreements are included.

**Nino Rota's The Godfather Trilogy** - Franco Sciannameo 2010

This volumes reintroduces critics, film musicologists, cinemagoers, and fans of Francis Ford Coppola's cinema and Nino Rota's music to the events that led to the realization of the three films that make up The Godfather Trilogy, commenting on their significance both musically and culturally. Released in 1972, 1974, and 1990 respectively, Coppola's three-part saga is one of the greatest artistic accomplishments (and financial successes) in the history of Hollywood cinema.

**What levels of explanation in the behavioural sciences?** - Giuseppe Boccignone 2015-07-03

Complex systems are to be seen as typically having multiple levels of organization. For instance, in the behavioural and cognitive sciences, there has been a long lasting trend, promoted by the seminal work of David Marr, putting focus on three distinct levels of analysis: the computational level, accounting for the What and Why issues, the algorithmic and the implementational levels specifying the How problem. However, the tremendous developments in neuroscience knowledge about processes at different scales of organization together with the complexity of today cognitive

theories suggest that there will hardly be only three levels of explanation. Instead, there will be many different degrees of commitments corresponding to the different granularities - from high-level (behavioural) models to low-level (neural and molecular) models of the cognitive research program. For instance, Bayesian approaches, that are usually advocated for formalizing Marr's computational level and rational behaviour, have even been adopted to model synaptic plasticity and axon guidance by molecular gradients. As a result, we can consider the behavioural scientist as dealing with models at a multiplicity of levels. The purpose of this Research Topic in Frontiers in Theoretical and Philosophical Psychology is to promote an approach to the role of the levels and explanation and models which is of interest for cognitive scientists, neuroscientists, psychologists, behavioural scientists, and philosophers of science.

**Terre lucane** - Mario Cancro 2017-01-13

Il saggio è composto da due parti, di cui la prima è più storico-rievocativa e tratteggia le fasi più rilevanti di un angolo di terra meridionale in correlazione parallela con gli avvenimenti fondamentali e più significativi del Mezzogiorno e dell'Italia. Questa parte è, perciò, più basata sulla vera e propria tradizione storica e sui fatti antichi, quindi è più didattica. La seconda parte è incentrata sui grandi temi, come la Terra, la Scomparsa delle grandi famiglie feudali e principesche e l'avvicinarsi ad esse della Borghesia, la Riforma Agraria del 1950 e la successiva Traslazione della proprietà fondiaria. Questi sono contenuti più attuali per vicende e personaggi più vicini e, quindi, più emotivi e capaci di stimolare la riflessione, la sensibilità e il giudizio del lettore. Il testo si presenta, perciò, vario e va dal descrittivo al narrativo, all'espositivo, all'argomentativo e regolativo; le funzioni linguistiche ci sono tutte, da quella referenziale a quella emotiva, da quella faticata a quella poetica. L'obiettivo dell'autore è quello di far conoscere le Terre Lucane, le loro bellezze naturali e paesaggistiche e i loro tesori archeologico-artistici, spesso nascosti e trascurati, ma anche le Genti Lucane, nelle loro virtù, nei loro sentimenti e nelle loro molteplici passioni e speranze.

[Marx's Concept of the Alternative to Capitalism](#) -

Peter Hudis 2012-07-25

This is the first book-length study of Marx's concept of the alternative to capitalism. It shows that his critique of capital flowed from a commitment to a specific vision of the kind of human relations that define a new society.

[The New Dialectic and Marx's Capital](#) - Chris Arthur 2021-08-04

This book argues that the dialectic of Marx's Capital has a systematic, rather than historical, character. It sheds new light on Marx's great work, while going beyond it in many respects.

**Italy the Least of the Great Powers** - R. J. B. Bosworth 2005-12-15

In the heart of Rome beside the Capitol, confronting the Piazza Venezia, stands the Victor Emmanuel monument. In Rome, which until 1945 was so often accorded the adjectives 'eternal' or 'imperial', the monumentissimo (as sardonic socialists labelled it) is the most public, most theatrical and most excessive architectural celebration of post-Risorgimento Italian patriotism, nationalism and perhaps imperialism. This book asks why the Victor Emmanuel monument, planned after 1878 and opened in 1911, was a structure raised by Liberal and not Fascist Italy. Through a detailed study of diplomacy, of policy-making, of policy-makers, and of the distribution of real power in pre-First World War Italy, it demonstrates how important foreign policy, and a foreign policy of greatness, was to Liberal Italy. Weakened by economic backwardness, regional diversity, and the gulf between the legal-political world and 'real' society, Liberal Italy was nonetheless ambitious to be a Great Power. This monograph contributes to a number of major historiographical debates. It produces evidence which casts doubts on the thesis that fascism was a parenthesis in Italian history.

*Spinoza, the Epicurean* - Vardoulakis Dimitris Vardoulakis 2020-05-28

Through a radical new reading of the 'Theological Political Treatise', Dimitris Vardoulakis argues that the major source of Spinoza's materialism is the Epicurean tradition that re-emerges in modernity when manuscripts by Epicurus and Lucretius are rediscovered. This reconsideration of Spinoza's political project, set

within a historical context, lays the ground for an alternative genealogy of materialism. Central to this new reading of Spinoza are the theory of practical judgment (understood as the calculation of utility) and its implications for a theory of democracy that is resolutely positioned against authority.

**Kant & Political Philosophy** - Ronald Beiner 1993-01-01

In recent years there has been a major revival of interest in the political philosophy of Immanuel Kant. Thinkers have looked to Kant's theories about knowledge, history, the moral self and autonomy, and nature and aesthetics to seek the foundations of their own political philosophy. This volume, written by established authorities on Kant as well as by new scholars in the field, illuminates the ways in which contemporary thinkers differ regarding Kantian philosophy and Kant's legacy to political and ethical theory. The book contains essays by Patrick Riley, Lewis White Beck, Mary Gregor, and Richard L. Velkley that place Kant in the tradition of political philosophy; chapters by Dieter Henrich, Susan Shell, Michael W. Doyle, and Joseph M. Knippenberg that examine Kantian perspectives on history and politics; contributions by William A. Galston, Bernard Yack, William James Booth, and Ronald Beiner that judge the Kantian legacy; and classic discussions by John Rawls, Jürgen Habermas, Charles Taylor, and Hans-Georg Gadamer that present different perspectives on contemporary debates about Kant.

*A Crack in the Wall* - Claudia Piñeiro 2013-07-15  
Pablo Borla's marriage is reduced to confrontations with his wife over their daughter's rebellious ways and his firm builds only repellent office blocks destroying the fabric of old Buenos Aires. It all changes with the arrival of a young woman who brings to light a murder committed decades ago by those in his office. A murder everyone assumed was forgotten. Claudia Piñeiro, after working as a professional accountant, became a journalist, playwright and television scriptwriter and in 1992 won the prestigious Pléyade journalism award. She has more recently turned to fiction; *All Yours* (finalist for the 2003 Planeta Prize) and *Thursday Night Widows*.

**Il lavoro delle donne nell'Italia contemporanea** - Alessandra Pescarolo 2020-03-24T00:00:00+01:00

Come sono cambiate, nella storia, le leggi e le obbligazioni morali che regolano il lavoro femminile? E come hanno influito sulle pratiche concrete? I mariti "normalmente" mantenevano le mogli, considerando incompatibile con il proprio onore la loro presenza negli spazi pubblici? Oppure le donne hanno sempre lavorato, in casa e fuori? Il lavoro era fonte di autostima e diritti o era solo una penosa incombenza cui ci si doveva rassegnare? Le domande sono molte e il dibattito è intenso, ma per la prima volta questa sintesi vuole offrire una risposta. Possiamo così ripercorrere una nuova storia delle italiane dall'Ottocento a oggi, seguendo per le varie figure professionali le tensioni fra rappresentazioni ed esperienze. Il racconto parte però da un breve flashback sul mondo antico, essenziale per impostare una storia del lavoro che sia anche culturale. Mestieri e soggetti ripopolano una scena dominata fino a oggi dal mito della fabbrica fordista: contadine e domestiche, setaiole e trecciaiole, sarte e ricamatrici. E poi telefoniste, commesse, dattilografe, maestre e infermiere,

avvocatesse, donne medico e magistrato. Ma anche lavoratrici della casa, con il loro lavoro di cura, produttivo di beni e di valori, indispensabile alla vita e alla società. Fino alle giovani di oggi, esposte nuovamente alla precarietà e al disincanto di una rivoluzione incompiuta.

**Cosima** - Grazia Deledda 1991

"Cosima" tells the story of an aspiring writer growing up in Nuoro, Sardinia during the last decades of the nineteenth century when formal education for women was rare and literary careers unheard-of. Based on Deledda's own life, the work describes a young woman's struggle against the dismay and disapproval of her family and friends at her creative ambitions. Yet it also reads like a charming fable with details of family life, rural traditions and wild bandits, and it is as much a novel of memory as of character or action. Deledda's characters are poor country folk driven by some predetermined force. Their loves are tragic, their lives as hard and as rigidly controlled as nature itself in the hills of Sardinia. Deledda creates memorable figures who play out their lives against this backdrop of mountains and bare plains, sheepfolds and vineyards. Shimmering in the distance is the sea and escape - for a few - to the Continent or America. In 1926 Grazia Deledda became the second

woman and the second Italian to receive the Nobel Prize for Literature. She wrote thirty-three novels, including "Reeds in the Wind," and many books of short stories, almost all set on Sardinia. Her work has become well known to English-speaking readers through Martha King's translations for Italica Press.

**El Paseo de Gracia** - Mario Soldati 2010-10-07

un romanzo di invenzione rigogliosa in cui i classici temi soldatiani sono proiettati nel mondo che cambia dell'economia e della comunicazione; un libro doloroso e irriverente in cui Soldati ha il coraggio di farsi beffe di tutto, del cinema, della finanza, delle donne, persino di se stesso.

**Italian Fascism** - R.J.B. Bosworth 2016-07-27

Bringing together scholars from the Italian and English-speaking worlds, Bosworth and Dogliani's edited book reviews the history of the memory and representation of Fascism after 1945. Ranging in their study from patriotic monuments to sado-masochistic films, the essays here collected ask how and why and when Mussolini's dictatorship mattered after the event, and so provide a fascinating study of the relationship between a traumatic past and the changing present and future.
