All Our Stories Are Here - Brady Harrison 2009

This wide-ranging collection of essays addresses a diverse and expanded vision of Montana literature, offering new readings of both canonical and overlooked texts. Although a handful of Montana writers such as Richard Hugo, A. B. Guthrie Jr., D'Arcy McNickle, and James Welch have received considerable critical attention, sizable gaps remain in the analysis of the state's ever-growing and ever-evolving canon. The twelve essays in "All Our Stories Are Here" not only build on the exemplary, foundational work of other writers but also open further interpretative and critical conversations. Expanding on the critical paradigms of the past and bringing to bear some of the latest developments in literary and cultural studies, the contributors engage issues such as queer ambivalence in Montana writing, representations of the state in popular romances, and the importance of the University of Montana's creative writing program in fostering the state's literary corpus. The contributors also explore the work of writers who have not yet received their critical due, take new looks at old friends, and offer some of the first explorations of recent works by well-established artists. "All Our Stories Are Here" conveys a sense of continuity in the field of Western literary criticism, while at the same time challenging conventional approaches to regional literature.

The Sound of Music Story - Tom Santopietro 2015-02-17

On March 2, 1965, "The Sound of Music" was released in the United States and the love affair between moviegoers and the classic Rodgers and Hammerstein musical was on. Rarely has a film captured the love and imagination of the moviegoing public in the way that "The Sound of Music" did as it blended history, music, Austrian location filming, heartfelt emotion and the yodeling of Julie Andrews into a monster hit. Now, Tom Santopietro has written the ultimate

"Sound of Music" fan book with all the inside dope from behind the scenes stories of the filming in Austria and Hollywood to new interviews with Johannes von Trapp and others. Santopietro looks back at the real life story of Maria von Trapp, goes on to chronicle the sensational success of the Broadway musical, and recounts the story of the near cancellation of the film when the "Cleopatra" bankrupted 20th Century Fox. We all know that Julie Andrews and Christopher Plummer played Maria and Captain Von Trapp, but who else had been considered? Tom Santopietro knows and will tell all while providing a historian's critical analysis of the careers of director Robert Wise and screenwriter Ernest Lehman, a look at the critical controversy which greeted the movie, the film's relationship to the turbulent 1960s and the super stardom which engulfed Julie Andrews. Tom Santopietro's "The Story of 'The Sound of Music'" is book for everyone who cherishes this American classic.
