Phantom Self - David Icke 2016-02-01

The vast majority of us unknowingly suffer from a slave mentality. We constantly experience the psychological phenomena of cognitive dissonance, where our beliefs and behaviour are in conflict, and Stockholm syndrome - the traumatic bonding with a captor. Our ability to decode reality is linked to what we are able to perceive. Icke believes our reality has been hijacked by an invisible force the Gnostics used to call Archons. He maintains that we are headed towards a cashless world and human settlements which are projected as local community initiatives but are actually centralized systems of control. Our health is being systematically weakened: if you are sick, you are easier to control. Icke's dystopian view of the future assumes that the masses will stay glued to their TVs, locked forever into the hive mind of the Matrix, which says "I have no power". Can humanity break free? Through truth and love we can become who and what we really are.

Life After Death - Deepak Chopra, M.D. 2008-09-16

What happens to the spirit after the body dies? In Life After Death, Deepak Chopra draws on cutting-edge scientific discoveries and the great wisdom traditions to provide a map of the afterlife. He tells us there is abundant evidence that "the world beyond" is not separated from this world by an impassable wall; in fact, a single reality embraces all worlds, all times and places. "A must-read for everyone who will die."

—Candace B. Pert, Ph.D., author of *Molecules of Emotion* "A penetrating and insightful investigation into the greatest mystery of existence. This is an important book because only by facing death will we come to a deeper realization of who we are." —Eckhart Tolle, author of *A New Earth* and *The Power of Now* "If I had any doubts about the afterlife, I don't have them anymore. Deepak Chopra has cast his inimitable light on the darkened corners of death. I think this is his greatest contribution yet." —Marianne Williamson, author of *The Age of Miracles* and *The Gift of Change*

mBraining Coloring Book - Grant Soosalu

2018-12-26

mBraining Wisdom Coloring Book - Bring Calmness and Wisdom to your Mind and Life...

The growing new field of mBIT (multiple Brain Integration Techniques), also known as 'mBraining', shows that we have complex, functional and adaptive neural systems or 'brains' in our heart and gut regions. Research shows these brains are used in embodied cognition, decision-making and intuitive wisdom. Each of our multiple brains also has a 'highest expression' - the most integrative, adaptive and generative way of being, which when aligned together allows for an emergence of deep intuitive wisdom. For the heart the highest expression is Compassion, for the head it is Creativity and for the gut it is Courage. This adult coloring book provides drawings that represent all of these aspects of the multiple brains and their highest expressions. Allowing you to immerse yourself in the creative endeavor of mindfully coloring in imagery that speaks to autonomic coherence and calmness, and to the heart, head and gut brains and their integrative emergent wisdom. We hope you enjoy many hours of mindful mBraining coloring and that this process evokes deep in your heart, mind and soul the desire to truly, really and deeply make a difference in the world. - Provides hours and hours of calming stress relief, mindful wisdom, flow and joyful, creative expression. - Images inspired by the new field of mBRAINING (multiple braining - head, heart, gut). - Designed to evoke the Highest Expressions of Compassion, Creativity and Courage. - Ancient spiritual wisdom meets modern neuroscience in practical application. - 20 beautiful drawings to color in along with 20 mindmaps to color, enhance and explore.

Modern-Day Miracles - Louise Hay 2010-06-01

In this truly inspirational book, people all over the world express their appreciation for the writings and teachings of Louise L. Hay . . . and for the miracles she has brought to their lives. Through uniquely heartfelt and awe-inspiring true stories, men and women of all ages and backgrounds reveal how one individual whose

life has been devoted to spreading good can touch so many in a positive and miraculous way .

. . . and then those people spread the good to others . . . and on and on it goes, in a tremendous spiral of joyous energy. As you read the accounts within these pages, you will laugh, cry, and nod with empathy and understanding. The subject matter is diverse (relationships, work, finance, health, and more); and the outpouring of emotion is genuine and very personal. Included at the end of each chapter are affirmations and exercises by Louise that will help you create miracles in your own life!

Tantric Pulsation - Aneesha L Dillon 2005

This book celebrates Aneesha's thirty years of experience working with neo-Reichian methods of energy release, combined with meditation. It contains both theoretical and descriptive information about her work with people, which she calls Pulsation, and also traces the development of a new branch of her work, Tantric Pulsation. Aneesha's book, "Tantric Pulsation," is rooted in the insights of two of the most controversial figures of the twentieth century, Wilhelm Reich and Osho Rajneesh. Reich was a disciple of Sigmund Freud, the founder of modern psychology. Reich agreed with Freud that sexual repression lies at the root of psychological neurosis, and went on to state that even ordinary, normal human beings are incapable enjoying their lives because of widespread sexual and emotional repression practiced by all civilized societies. Reich found that the physical body stores these repressed energies as tension in the muscles, which he called "muscular armoring." He developed a system which uses breathing and body movement to release this tension, including strong emotional expression. This, in turn, allows energy to flow freely and naturally throughout the whole body, inducing a physical state of tremendous aliveness, together with feelings of relaxation and well-being. Osho Rajneesh, an Indian mystic considered by many a modern Tantra master, also works with life energy through his extraordinary and transforming Active meditations. His Tantra vision, wholly life affirmative, is rooted in acceptance, let-go, meditation, and celebration of life. This is a vision which embraces all human experience, from sex to superconsciousness.

Aneesha's methods have grown from these two streams of understanding, one western, one eastern. The result is a unique process of self experience and transformation, both delightful and profound.

The Parables of Kryon - Lee Carroll 2000-07-01

The Parables of Kryon, by Lee Carroll, is a book of parables, filled with penetrating insights. As soon as you read one of these wonderful stories, you will be hooked as you recognize yourself, and your own situations in the parable.

The Genome War - James Shreeve 2007-12-18

The long-awaited story of the science, the business, the politics, the intrigue behind the scenes of the most ferocious competition in the history of modern science—the race to map the human genome. On May 10, 1998, biologist Craig Venter, director of the Institute for Genomic Research, announced that he was forming a private company that within three years would unravel the complete genetic code of human life—seven years before the projected finish of the U.S. government's Human Genome Project. Venter hoped that by decoding the genome ahead of schedule, he would speed up the pace of biomedical research and save the lives of thousands of people. He also hoped to become very famous and very rich. Calling his company Celera (from the Latin for "speed"), he assembled a small group of scientists in an empty building in Rockville, Maryland, and set to work. At the same time, the leaders of the government program, under the direction of Francis Collins, head of the National Human Genome Research Institute at the National Institutes of Health, began to mobilize an unexpectedly unified effort to beat Venter to the prize—knowledge that had the potential to revolutionize medicine and society. The stage was set for one of the most thrilling—and important—dramas in the history of science. The Genome War is the definitive account of that drama—the race for the greatest prize biology has had to offer, told by a writer with exclusive access to Venter's operation from start to finish. It is also the story of how one man's ambition created a scientific Camelot where, for a moment, it seemed that the competing interests of pure science and commercial profit might be gloriously reconciled—and the national repercussions that resulted when that dream

went awry.

Life and Teaching of the Masters of the Far East - Baird Thomas Spalding 1964

2010 Reprint of 1924 Edition. In 1924 Spalding published this first and most important volume of Life and Teaching of the Masters of the Far East. It describes the travels to India and Tibet of a research party of eleven scientists in 1894. During their trip they claim to have made contact with "the Great Masters of the Himalayas," immortal beings with whom they lived and studied, gaining a fascinating insight into their lives and spiritual message. This close contact enabled them to witness many of the spiritual principles evinced by these Great Masters translated into their everyday lives, which could be described as 'miracles'. Such examples are walking on water, or manifesting bread to feed the hungry party. These books have remained consistently popular with spiritual seekers, those interested in the philosophy of the East and those who enjoy a good story because of their accessible nature and easy-to-follow format. However, despite most of the action taking place in India, the Great Masters make it clear that the greatest embodiment of the Enlightened state is that of the Christ (as personified by Jesus): "The Masters accept that Buddha represents the Way to Enlightenment, but they clearly set forth that Christ IS Enlightenment, or a state of consciousness for which we are all seeking - the Christ light of every individual; therefore, the light of every child born into the world."

Affirmations for Self-Healing - J. Donald Walters 2005

This book contains 52 affirmations and prayers devoted to strengthening positive qualities such as will power, good health, forgiveness, security and happiness.

Morphic Resonance - Rupert Sheldrake

2009-09-09

New updated and expanded edition of the groundbreaking book that ignited a firestorm in the scientific world with its radical approach to evolution • Explains how past forms and behaviors of organisms determine those of similar organisms in the present through morphic resonance • Reveals the nonmaterial connections that allow direct communication across time and space When *A New Science of Life* was first published the British journal *Nature* called it "the best candidate for burning there has been for many years." The book called into question the prevailing mechanistic theory of life when its author, Rupert Sheldrake, a former research fellow of the Royal Society, proposed that morphogenetic fields are responsible for the characteristic form and organization of systems in biology, chemistry, and physics--and that they have measurable physical effects. Using his theory of morphic resonance, Sheldrake was able to reinterpret the regularities of nature as being more like habits than immutable laws, offering a new understanding of life and consciousness. In the years since its first publication, Sheldrake has continued his research to demonstrate that the past forms and behavior of organisms influence present organisms through direct immaterial connections across time and space. This can explain why new chemicals become easier to crystallize all over the world the more often their crystals have already formed, and why when laboratory rats have learned how to navigate a maze in one place, rats elsewhere appear to learn it more easily. With more than two decades of new research and data, Rupert Sheldrake makes an even stronger case for the validity of the theory of formative causation that can radically transform how we see our world and our future.

Eros and Pathos - Aldo Carotenuto 1989

Why do we fear love? How do we invite betrayal? What can we learn about ourselves from eroticism, abandonment, solitude? What unconscious drives are at work and seduction and jealousy? Are love, suffering and creativity connected? This book brings to light a treasure in the darkness.

2012-2021 - The Dawn of the Sixth Sun - Sergio Magana "Ocelocoyotl" 2012-09-01

What happens on and after December 21, 2012? There has been much confusion and many predictions based on the Mayan calendar. Some people think time on Earth will end, but what if there was an intact and complete resource from the ancestors that will give us the wisdom we need for the shift and an understanding of the coming era? In "2012-2021: The Dawn of the Sixth Sun," Sergio Magana (Ocelocoyotl), mystic and teacher of the ancient Toltec/Aztec lineage of Mesoamerica, discloses an in-depth understanding from a rich and uninterrupted oral tradition, the meaning of the shift from the Fifth to the Sixth Sun, the possibilities presented to humanity at this time, and ancient teachings and practices designed to support this shift. The Toltecs knew how to interpret the mathematical or universal order that governs all of existence by measuring and observing cycles of time, and the impact they had on the Earth, human consciousness, and perception.

Spontaneous Evolution - Bruce H. Lipton
2010-08-01

We've all heard stories of people who've experienced seemingly miraculous recoveries from illness, but can the same thing happen for our world? According to pioneering biologist Bruce H. Lipton, it's not only possible, it's already occurring. In *Spontaneous Evolution*, this world-renowned expert in the emerging science of epigenetics reveals how our changing understanding of biology will help us navigate this turbulent period in our planet's history and how each of us can participate in this global shift. In collaboration with political philosopher Steve Bhaerman, Dr. Lipton invites readers to reconsider: •the "unquestionable" pillars of biology, including random evolution, survival of the fittest, and the role of DNA; •the relationship between mind and matter; •how our beliefs about nature and human nature shape our politics, culture, and individual lives; and •how each of us can become planetary "stem cells" supporting the health and growth of our world. By questioning the old beliefs that got us to where we are today and keep us stuck in the status quo, we can trigger the spontaneous evolution of our species that will usher in a brighter future. .

The Mastery of Love: a Practical Guide to the Art of Relationship: a Toltec Wisdom

Book by Don Miguel Ruiz - Don Ruiz 2018-07
In *The Mastery of Love*, don Miguel Ruiz illuminates the fear-based beliefs and assumptions that undermine love and lead to suffering and drama in our relationships. Using insightful stories to bring his message to life, Ruiz shows us how to heal our emotional wounds, recover the freedom and joy that are our birthright, and restore the spirit of playfulness that is vital to loving relationships. *The Mastery of Love* includes: * Why "domestication" and the "image of perfection" lead to self-rejection * The war of control that slowly destroys most relationships * Why we hunt for love in others, and how to capture the love inside us * How to finally accept and forgive ourselves and others "Happiness can only come from inside of you and is the result of your love. When you are aware that no one else can make you happy, and that happiness is the result of your love, this becomes the greatest mastery of the Toltec: the Mastery of Love." - don Miguel Ruiz

Medicine Upside Down - Giorgio Mambretti 2013-03-01

Dr Hamer is a highly controversial figure: his patients love him, yet other doctors want to block him, and meanwhile he gathers acknowledgements, but at the same time he is put on trial as well. Many believe that most of the opposition against him is because his theories -- and above all his long list of patients who have been healed -- go completely against established medicine... How can it be that diseases like cancer can simply be an attempt of the brain to fix (which means to heal) some emotional traumas? And that identifying such traumas and solving them can equate to healing the body? This is the only book available in Italy which is really up-to-date and comprehensive, very clear and supported by some brilliant cartoons: all these qualities have turned it into a real best seller. At long last a book on Dr Hamer's new Germanic Medicine that is both really easy-to-read and comprehensive. Approach these controversial, yet fascinating theories with objectivity and open-mindedness.

Courage to Stand Alone - U. G. Krishnamurti 2020-12-08

The author U.G. Krishnamurti was a speaker and philosopher. This collection of talks from

Amsterdam in the early 1980s has some of his best and most startling ideas. This interview transcript discusses these questions: Do you have the guts to question the spiritual journey you've been led to believe is the path to enlightenment? Is enlightenment even real? Where do these questions come from? What do you seek?

Inter Views - James Hillman 1983

Extraordinary, yet practical accounts of active imagination, writing, daily work, and symptoms in their relation with loving. The only biography of Hillman, the book also radically deconstructs the interview form itself.

Health by Purification - Peter Jentschura 2006

Primary Perception - Cleve Backster 2003

This is the only book by Cleve Backster himself, describing 36 years of research in biocommunication, observed electrical responses in plant life and other living organisms. All life forms have the capability of responding to one another, from plants and bacteria to foods and animal cells. Most amazing is his work with human leukocytes. These discoveries have opened up a new paradigm in science, ecology and healing.

Matrix Energetics - Richard Bartlett 2009-07-07

Drawing on fundamental principles embraced by the field of quantum physics, this paradigm-busting program can teach readers how to access their own power to heal and transform their lives.

Molecules of Emotion - Candace B. Pert 1997

Explains the science behind the brain's opiate receptors and other evidence of the intimate connections between mind and body, and their meaning for the future of Western medicine

The Healing Code - Alexander Loyd 2011-02-09

With over 1 million copies sold worldwide and translated into 29 languages, Dr. Alex Loyd's international bestselling book is a life-changing program that uses energy medicine to heal mental and physical challenges. *The Healing Code* is your healing kit for life-to recover from the issues you know about, and repair the ones you don't. The book also includes: The Seven Secrets of life, health, and prosperity The 10-second Instant Impact technique for defusing

daily stress The Heart Issues Finder, the only test that identifies your source issues in a succinct personalized report Dr. Alex Loyd discovered how to activate a physical function built into the body that consistently and predictably removes the source of 95% of all illness and disease. His findings were validated by tests and by the thousands of people from all over the world who have used The Healing Code's system to heal virtually any physical, emotional, or relational issue. His testing also revealed that there is a "Universal Healing Code" that will heal most issues for most people. In this book you will get that Universal Healing Code, which takes only minutes to do.

Religion - Arthur Schopenhauer 2021-03-18
Schopenhauer is one of the few philosophers who can be generally understood without a commentary. All his theories claim to be drawn direct from the facts, to be suggested by observation, and to interpret the world as it is; and whatever view he takes, he is constant in his appeal to the experience of common life. This characteristic endows his style with a freshness and vigor which would be difficult to match in the philosophical writing of any country, and impossible in that of Germany. If it were asked whether there were any circumstances apart from heredity, to which he owed his mental habit, the answer might be found in the abnormal character of his early education, his acquaintance with the world rather than with books, the extensive travels of his boyhood, his ardent pursuit of knowledge for its own sake and without regard to the emoluments and endowments of learning. He was trained in realities even more than in ideas; and hence he is original, forcible, clear, an enemy of all philosophic indefiniteness and obscurity; so that it may well be said of him, in the words of a writer in the *Revue Contemporaine*, ce n'est pas un philosophe comme les autres, c'est un philosophe qui a vu le monde.

A Children's Book of Demons - Aaron Leighton 2019-05-22

With this handy *Necronomicon* for kids, and its easy to follow how-to steps, summoning demons has never been so much fun!

The Essence of the Bhagavad Gita - Swami Kriyananda 2006

A direct disciple of the spiritual master author of

Autobiography of a Yogi reveals the deep allegorical meanings of India's best-loved scripture from a new perspective, sharing practical advice on such topics as achieving victory in life in union with the divine, preparing for life's end, and what happens after death.

Seven Experiments That Could Change the World - Rupert Sheldrake 2002-07-01

Examines the realities of unexplained natural phenomenon and provides explanations that push the boundaries of science. • Looks at animal telepathy and the ability of pigeons to home. • Proves the point that "big questions don't need big science". • Noted scientist Rupert Sheldrake is a former research fellow of the Royal Society. • New Edition with an Update on Results. How does your pet "know" when you are coming home? How do pigeons "home"? Can people really feel a "phantom" amputated arm? These questions and more form the basis of Sheldrake's look at the world of contemporary science as he puts some of the most cherished assumptions of established science to the test. What Sheldrake discovers is that certain scientific beliefs are so widely taken for granted that they are no longer regarded as theories but are seen as scientific common sense. In the true spirit of science, Sheldrake examines seven of these beliefs. Refusing to let intellectual dogmatism influence his search for the truth, Sheldrake presents simple experiments that allow the curious and the skeptical to join in his journey of discovery. His experiments look at how scientific research is often biased against unexpected patterns that emerge and how a researcher's expectations can influence the results. He also examines the taboo of taking pets seriously and explores the question of human extrasensory perception. Perhaps most important, he questions the notion that science must be expensive in order to achieve important results, showing that inexpensive methods can indeed shake the very foundations of science as we know it. In this compelling and intelligent book, Sheldrake offers no preconceived wisdom or easy answers--just an open invitation to explore the unknown, create new science, and perhaps, even change the world.

Eufeling! - Frank J. Kinslow, Dr. 2012-07-15
Within the pages of Dr. Kinslow's new book you will learn to go beyond the instant healing power

of Quantum Entrainment to, with a single procedure, realize your deepest spiritual and material goals. You will learn how to find your Eufeeeling, the hub around which all the creative forces of nature revolve, then how to use it to form a powerful and immediately effective intention. Making the most abstract subjects easy to understand and practical to use, Dr. Kinslow shows the reader how to tap their natural harmonizing zones deep within their minds. He is the discoverer and developer of Quantum Entrainment, the ground-breaking healing technique that thousands around the globe have successfully used to eliminate emotional and physical discord in themselves and others. Now, in Eufeeeling! Dr. Kinslow brings to bear that same easy style of coaching that was so successful in teaching you Quantum Entrainment. In Eufeeeling! Dr. Kinslow introduces the reader to the QE Intention, a unique and practical tool that anyone can use to improve emotional and physical disharmony, unsettled relationships and financial difficulties, and even influence environmental stresses. QE Intention shows you how a simple shift in your awareness will organize the creative forces of nature in your favor as easily as iron filings align in the presence of a strong magnet. QE Intention can quickly satisfy even your deepest desires. Once initiated, QE Intention is effortless and extraordinarily effective. It uses the creative energy and harmony of Eufeeeling as a spiritual launching pad to quickly accomplish material goals. If you are already doing intention work you will find that adding QE Intention to your practice will greatly accelerate the results you are already having. And what's more exciting, creating a QE Intention takes no special training or talent. If you are reading these words you have everything you need to create a QE Intention.

How to Use Your Intuition to Change Your Life - Joy Martina 2019-04-30

Forbes Magazine identified intuition as "the highest form of intelligence." Joy Martina has helped thousands of people around the world activate and amplify their intuition with the five steps presented in this book. Read it, do these simple steps, and you will discover that intuition gives you a distinct advantage in difficult situations. As Einstein said, "The intuitive mind

is a sacred gift. The rational mind is a faithful servant. We have created a society that honors the servant and has forgotten the gift." Let Joy help you develop the gift, and you will join the many celebrities and leaders who score high for intuition on the Myers-Briggs Type Indicator (MBTI). You may even find yourself standing among millions of intuitive types who have changed the world, including Elon Musk, Oprah Winfrey, Hillary Clinton, Mark Zuckerberg, and Steve Jobs. Each of these individuals is classified as an Intuitive on the MBTI. Their accomplishments show us that intuition is far more than its "woo-woo" reputation would have us believe; it is an essential skill when it comes to creating success.
