My Grandmother's Braid - Alina Bronsky 2021-01-21

Sharp and tender at once, a humourous take on family dysfunction and human weakness seen through a young boy's eyes. Max lives with his grandparents in a residential home for refugees in Germany. When his grandmother—a terrifying, stubborn matriarch and a former Russian prima donna—moved them from the Motherland, it was in search of a better life. But she is not at all pleased with how things are run in Germany. His grandmother has been telling Max that he is an incompetent, clueless weakling since he was a child. While he may be dolt in his grandmother's eyes, Max is bright enough to notice that his stoic and taciturn grandfather has fallen hopelessly in love with their neighbour, Nina. When a child is born to Nina that is the spitting image of Max's grandfather, things come to a hilarious if dramatic head. Everybody will have to learn to defend themselves from Max's all-powerful grandmother.

I Can Grow a Flower - DK 2018-02-13

A first garden story board book that reveals how plants grow with lift-the-flaps and a pullout height chart. Teach your child how a tiny seed grows into a flower in this fascinating lift-the-flap garden story. A pullout height chart ends the book—a great way for children to remember how a sunflower grows, and to measure how fast your child grows, too! Through illustrations, photography, and flaps, sixteen delightful board book pages reveal the wonder of how plants grow as you follow the story of a mystery seed. How was it planted? What does it need? What will it become? As days go by, it's hard to imagine the tiny shoot will ever grow into a big, strong plant. Could it magically become the tallest of all the garden flowers? Flaps unfold to show plants growing, creatures hiding, and what's happening underground. The book includes very simple gardening projects and facts about garden creatures (which ones are good for plants, and which ones are bad), and children will find out what a pollinator is, and how to attract pollinators to the garden. The perfect gift for aspiring gardeners, complete with a height chart.

**Palestine Speaks** - Cate Malek 2014-11-11

The occupation of the West Bank and Gaza has been one of the world's most widely reported yet least understood human rights crises for over four decades. In this oral history collection, men and women from Palestine—including a fisherman, a settlement administrator, and a marathon runner—describe in their own words how their lives have been shaped by the historic crisis. Other narrators include: ABEER, a young journalist from Gaza City who launched her career by covering bombing raids on the Gaza Strip. IBTISAM, the director of a multi-faith children's center in the West Bank whose dream of starting a similar center in Gaza has so far been hindered by border closures. GHASSAN, an Arab-Christian physics professor and activist from Bethlehem who co-founded the International Solidarity Movement.

*Neoliberal Apartheid* - Andy Clarno 2017-03-07

This is the first comparative analysis of the political transitions in South Africa and Palestine since the 1990s. Clarno's study is grounded in impressive ethnographic fieldwork, taking him from South African townships to Palestinian refugee camps, where he talked to a wide array of informants, from local residents to policymakers, political activists, business representatives, and local and international security personnel. The resulting inquiry accounts for the simultaneous development of extreme inequality, racialized poverty, and advanced strategies for securing the powerful and policing the poor in South Africa and Palestine/Israel over the last 20 years. Clarno places these transitions in

a global context while arguing that a new form of neoliberal apartheid has emerged in both countries. The width and depth of Clarno's research, combined with wide-ranging first-hand accounts of realities otherwise difficult for researchers to access, make *Neoliberal Apartheid* a path-breaking contribution to the study of social change, political transitions, and security dynamics in highly unequal societies. Take one example of Clarno's major themes, to wit, the issue of security. Both places have generated advanced strategies for securing the powerful and policing the racialized poor. In South Africa, racialized anxieties about black crime shape the growth of private security forces that police poor black South Africans in wealthy neighborhoods. Meanwhile, a discourse of Muslim terrorism informs the coordinated network of security forces involving Israel, the United States, Jordan, and the Palestinian Authority that polices Palestinians in the West Bank. Overall, Clarno's pathbreaking book shows how the shifting relationship between racism, capitalism, colonialism, and empire has generated inequality and insecurity, marginalization and securitization in South Africa, Palestine/Israel, and other parts of the world."

**Palestinian Music and Song** - Muşliḥ Kanā'inah 2013

Drawing from a long history of indigenous traditions and incorporating diverse influences of surrounding cultures, music in Palestine and among the millions of Palestinians in diaspora offers a unique window on cultural and political events of the past century. From the perspective of scholars, performers, composers, and activists, *Palestinian Music and Song* examines the many ways in which music has been a force of representation, nation building, and social action. From the turn of the 20th century, when Palestine became an exotic object of fascination for missionaries and scholars, to 21st-century transnational collaborations in hip hop and new media, this volume traces the conflicting dynamics of history and tradition, innovation and change, power and resistance.

Bioactive Components in Milk and Dairy Products - Young W. Park 2009-06-30

Although bioactive compounds in milk and dairy products have been extensively studied during the last few decades – especially in human and bovine milks and some dairy products – very few publications on this topic are available, especially in other dairy species' milk and their processed dairy products. Also, little is available in the areas of bioactive and nutraceutical compounds in bovine and human milks, while books on other mammalian species are non-existent. *Bioactive Components in Milk and Dairy Products* extensively covers the bioactive components in milk and dairy products of many dairy species, including cows, goats, buffalo, sheep, horse, camel, and other minor species. Park has assembled a group of internationally reputed scientists in the forefront of functional milk and dairy products, food science and technology as contributors to this unique book. Coverage for each of the various dairy species includes: bioactive proteins and peptides; bioactive lipid components; oligosaccharides; growth factors; and other minor bioactive compounds, such as minerals, vitamins, hormones and nucleotides, etc. Bioactive components are discussed for manufactured dairy products, such as caseins, caseinates, and cheeses; yogurt products; koumiss and kefir; and whey products. Aimed at food scientists, food technologists, dairy manufacturers, nutritionists, nutraceutical and functional foods specialists, allergy specialists, biotechnologists, medical and health professionals, and upper level students and faculty in dairy and food sciences and nutrition, *Bioactive Components in Milk and Dairy Products* is an important resource for those who are seeking nutritional, health, and therapeutic values or product technology information on milk and dairy products from the dairy cow and species beyond. Areas featured are: Unique coverage of bioactive compounds in milks of the dairy cow and minor species, including goat, sheep, buffalo, camel, and mare. Identifies bioactive components and their analytical isolation methods in manufactured dairy products, such as caseins, caseinates, and cheeses; yogurt products; koumiss and kefir; and whey products. Essential for professionals as well as biotechnology researchers specializing in

functional foods, nutraceuticals, probiotics, and prebiotics Contributed chapters from a team of world-renowned expert scientists

**The Ethnic Cleansing of Palestine** - Ilan Pappé 2007-09-01

The book that is providing a storm of controversy, from 'Israel's bravest historian' (John Pilger) Renowned Israeli historian, Ilan Pappé's groundbreaking book revisits the formation of the State of Israel. Between 1947 and 1949, over 400 Palestinian villages were deliberately destroyed, civilians were massacred and around a million men, women, and children were expelled from their homes at gunpoint. Denied for almost six decades, had it happened today it could only have been called "ethnic cleansing". Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappé offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the forcible removal of the indigenous population. Indispensable for anyone interested in the current crisis in the Middle East.

**The Book of John Mandeville** - C David Benson 2007-08-01

The Book of John Mandeville has tended to be neglected by modern teachers and scholars, yet this intriguing and copious work has much to offer the student of medieval literature, history, and culture. [It] was a contemporary bestseller, providing readers with exotic information about locales from Constantinople to China and about the social and religious practices of peoples such as the Greeks, Muslims, and Brahmins. The Book first appeared in the middle of the fourteenth century and by the next century could be found in an extraordinary range of European languages: not only Latin, French, German, English, and Italian, but also Czech, Danish, and Irish. Its wide readership is also attested by the two hundred fifty to three hundred medieval manuscripts that still survive today. Chaucer borrowed from it, as did the Gawain-poet in the Middle English *Cleanness*, and its popularity continued long after the Middle Ages.

**Inventing Baby Food** - Amy Bentley 2014-09-19

Food consumption is a significant and complex social activity—and what a society chooses to feed its children reveals much about its tastes and ideas regarding health. In this groundbreaking historical work, Amy Bentley explores how the invention of commercial baby food shaped American notions of infancy and influenced the evolution of parental and pediatric care. Until the late nineteenth century, infants were almost exclusively fed breast milk. But over the course of a few short decades, Americans began feeding their babies formula and solid foods, frequently as early as a few weeks after birth. By the 1950s, commercial baby food had become emblematic of all things modern in postwar America. Little jars of baby food were thought to resolve a multitude of problems in the domestic sphere: they reduced parental anxieties about nutrition and health; they made caretakers feel empowered; and they offered women entering the workforce an irresistible convenience. But these baby food products laden with sugar, salt, and starch also became a gateway to the industrialized diet that blossomed during this period. Today, baby food continues to be shaped by medical, commercial, and parenting trends. Baby food producers now contend with health and nutrition problems as well as the rise of alternative food movements. All of this matters because, as the author suggests, it's during infancy that American palates become acclimated to tastes and textures, including those of highly processed, minimally nutritious, and calorie-dense industrial food products.

**My Promised Land** - Ari Shavit 2013-11-19

NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE ECONOMIST Winner of the Natan Book Award, the National Jewish Book Award, and the Anisfield-Wolf Book Award An authoritative and deeply personal narrative history of the State of Israel, by one of the most

influential journalists writing about the Middle East today Not since Thomas L. Friedman's groundbreaking *From Beirut to Jerusalem* has a book captured the essence and the beating heart of the Middle East as keenly and dynamically as *My Promised Land*. Facing unprecedented internal and external pressures, Israel today is at a moment of existential crisis. Ari Shavit draws on interviews, historical documents, private diaries, and letters, as well as his own family's story, illuminating the pivotal moments of the Zionist century to tell a riveting narrative that is larger than the sum of its parts: both personal and national, both deeply human and of profound historical dimension. We meet Shavit's great-grandfather, a British Zionist who in 1897 visited the Holy Land on a Thomas Cook tour and understood that it was the way of the future for his people; the idealist young farmer who bought land from his Arab neighbor in the 1920s to grow the Jaffa oranges that would create Palestine's booming economy; the visionary youth group leader who, in the 1940s, transformed Masada from the neglected ruins of an extremist sect into a powerful symbol for Zionism; the Palestinian who as a young man in 1948 was driven with his family from his home during the expulsion from Lydda; the immigrant orphans of Europe's Holocaust, who took on menial work and focused on raising their children to become the leaders of the new state; the pragmatic engineer who was instrumental in developing Israel's nuclear program in the 1960s, in the only interview he ever gave; the zealous religious Zionists who started the settler movement in the 1970s; the dot-com entrepreneurs and young men and women behind Tel-Aviv's booming club scene; and today's architects of Israel's foreign policy with Iran, whose nuclear threat looms ominously over the tiny country. As it examines the complexities and contradictions of the Israeli condition, *My Promised Land* asks difficult but important questions: Why did Israel come to be? How did it come to be? Can Israel survive? Culminating with an analysis of the issues and threats that Israel is currently facing, *My Promised Land* uses the defining events of the past to shed new light on the present. The result is a landmark portrait of a small, vibrant country living on the edge, whose identity and presence play a crucial role in today's global political landscape. Praise for *My Promised Land* "This book will sweep you up in its narrative force and not let go of you until it is done. [Shavit's] accomplishment is so unlikely, so total . . . that it makes you believe anything is possible, even, God help us, peace in the Middle East."—Simon Schama, *Financial Times* "[A] must-read book."—Thomas L. Friedman, *The New York Times* "Important and powerful . . . the least tendentious book about Israel I have ever read."—Leon Wieseltier, *The New York Times Book Review* "Spellbinding . . . Shavit's prophetic voice carries lessons that all sides need to hear."—*The Economist* "One of the most nuanced and challenging books written on Israel in years."—*The Wall Street Journal*

**Being Hal Ashby** - Nick Dawson 2009-04-17

Hal Ashby set the standard for subsequent independent filmmakers by crafting unique, thoughtful, and challenging films that continue to influence new generations of directors. Initially finding success as an editor, Ashby won an Academy Award for editing *In the Heat of the Night* (1967), and he translated his skills as an editor into a career as one of the quintessential directors of 1970s. Perhaps best remembered for the enduring cult classic *Harold and Maude* (1971), Ashby quickly became known for melding quirky comedy and intense drama with performances from A-list actors such as Jack Nicholson in *The Last Detail* (1973), Warren Beatty and Goldie Hawn in *Shampoo* (1975), Jon Voight and Jane Fonda in *Coming Home* (1978), and Peter Sellers and Shirley MacLaine in *Being There* (1979). Ashby's personal life was difficult. He endured his parents' divorce, his father's suicide, and his own failed marriage all before the age of nineteen, and his notorious drug abuse contributed to the decline of his career near the end of his life. Ashby always operated outside Hollywood's conventions, and though his output was tragically limited, the quality of his films continues to inspire modern directors as varied and talented as Judd Apatow and Wes Anderson, both of whom acknowledge Ashby as a primary influence. In *Being Hal Ashby: Life of a Hollywood Rebel*, the first full-length biography of the maverick filmmaker, author Nick Dawson masterfully tells the turbulent story of Ashby's life and career.

Haifa Before & After 1948 - Mahmūd Yazbak 2011

Institute for Historical Justice and Reconciliation Series, 6 (History of International Relations Library, 27) Haifa Before & After 1948, Narratives of a Mixed City is a voyage that 14 scholars and experts undertake through the cultural, political and social history of Haifa before and after the 1948 War. This volume, co-authored by Palestinians and Israelis - Arabs and Jews, mostly Israeli citizens, covers Haifa's architecture and its social and cultural life during the Mandate period, the Arab-Israeli competition in the oil and soap industries, the history of Arab-Jewish inter-communal relations and cohabitation, commemoration in the German Colony of Haifa, the story of two houses that represent the narrative of Palestinians in Haifa and remembrances displayed through personal accounts of the cold winter in 1950. In this remarkable project, Jews and Palestinians, write together the history and memory of the city of Haifa. Rather than presenting incommensurable national narratives, they offer a fresh and inspiring alternative: each article is co-authored by Arabs and Jews, thus turning the art of research and writing into a bi-national practice. Addressing 1948 as a benchmark, is crucial particularly today in facilitating not only a new reading of the political story, but also offering political possibilities. Haifa Before & After 1948 is an inspirational book that deserves to be read by everyone who is interested in the history and memory of bi-national societies. **Heroes and Martyrs of Palestine** - Laleh Khalili 2007-03-29

Many decades have passed since the Palestinian national movement began its political and military struggle. In that time, poignant memorials at massacre sites, a palimpsest of posters of young heroes and martyrs, sorrowful reminiscences about lost loved ones, and wistful images of young men and women who fought as guerrillas, have all flourished in Palestinian refugee camps in Lebanon and in the Occupied Palestinian Territories. *Heroes and Martyrs of Palestine* tells the story of how dispossessed Palestinians have commemorated their past, and how through their dynamic everyday narrations, their nation has been made even without the institutional memory-making of a state. Bringing ethnography to political science, Khalili invites us to see Palestinian nationalism in its proper international context and traces its affinities with Third Worldist movements of its time, while tapping a rich and oft-ignored seam of Palestinian voices, histories, and memories.

*The Balfour Declaration* - Jonathan Schneer 2011-08-01

In the middle of the First World War, the British War Cabinet approved and issued a statement in the form of a letter that encouraged the settlement of the Jewish people in Palestine. Signed by the Foreign Secretary Arthur Balfour, the Balfour Declaration remains one of the most important documents of the last hundred years. Jonathan Schneer explores the story behind the declaration and its unforeseen consequences that have shaped the modern world, placing it in context paying attention to the fascinating characters who conceived, opposed and plotted around it - among them Lloyd George, Lord Rothschild, T.E. Lawrence, Prince Faisal and Aubrey Herbert (the man who was

'Greenmantle'). The Balfour Declaration brings vividly to life the origins of one of the world's longest lasting and most damaging conflicts.

*My Father Was a Freedom Fighter* - Ramzy Baroud 2010-03-15

The frontline in the conflict between Israel and the Palestinians, Gaza is constantly reported as a place of violence and terror. Ramzy Baroud's memoir explores the daily lives of the people in that turbulent region: the complex human beings -- revolutionaries, mothers and fathers, lovers, and comedians -- who make Gaza so much more than just a disputed territory. At the heart of Baroud's tale is the story of his father who, driven out of his village to a refugee camp, took up arms to fight the occupation while trying to raise a family.

**Food in Medieval Times** - Melitta Weiss Adamson 2004

New light is shed on everyday life in the Middle Ages in Great Britain and continental Europe through this unique survey of its food culture. Students and other readers will learn about the common foodstuffs available, how and what they cooked, ate, and drank, what the regional cuisines were like, how the different classes entertained and celebrated, and what restrictions they followed for health and faith reasons. Fascinating information is provided, such as on imitation food, kitchen humor, and medical ideas. Many period recipes and quotations flesh out the narrative. The book draws on a variety of period sources, including as literature, account books, cookbooks, religious texts, archaeology, and art. Food was a status symbol then, and sumptuary laws defined what a person of a certain class could eat--the ingredients and preparation of a dish and how it was eaten depended on a person's status, and most information is available on the upper crust rather than the masses. Equalizing factors might have been religious strictures and such diseases as the bubonic plague, all of which are detailed here.

**Battle for the Mountain of the Kurds** - Thomas Schmidinger 2019-03-01

In early 2018, Turkey invaded the autonomous Kurdish region of Afrin in Syria and is currently threatening to ethnically cleanse the region. Between 2012 and 2018, the "Mountain of the Kurds" (Kurd Dagh) as the area has been called for centuries, had been one of the quietest regions in a country otherwise torn by civil war. After the outbreak of the Syrian civil war in 2011, the Syrian army withdrew from the region in 2012, enabling the Party of Democratic Union (PYD), the Syrian sister party of Abdullah Öcalan's outlawed Turkish Kurdistan Workers' Party (PKK) to first introduce a Kurdish self-administration and then, in 2014, to establish the Canton Afrin as one of the three parts of the heavily Kurdish Democratic Federation of Northern Syria, which is better known under the name Rojava. This self-administration—which had seen multiparty municipal and regionwide elections in the summer and autumn of 2017, which included a far-reaching autonomy for a number of ethnic and religious groups, and which had provided a safe haven for up to 300,000 refugees from other parts of Syria—is now at risk of being annihilated by the Turkish invasion and occupation. Thomas Schmidinger is one of the very few Europeans to have visited the Canton of Afrin. In this book, he gives an account of the history and the present situation of the region. In a number of interviews, he also gives inhabitants of the region from a variety of ethnicities, religions, political orientations, and walks of life the opportunity to speak for themselves. As things stand now, the book might seem to be in danger of becoming an epitaph for the "Mountain of the Kurds," but as the author writes, "the battle for the Mountain of the Kurds is far from over yet."

**The Making of the Modern Refugee** - Peter Gatrell 2013-09-12

The Making of the Modern Refugee proposes a new approach to a fundamental aspect of twentieth-century history by bringing the causes, consequences and meanings of global population displacement within a single frame. Its broad chronological and geographical coverage, extending from Europe and the Middle East to South Asia, South-East Asia and sub-Saharan Africa, makes it possible to compare crises and how they were addressed. Wars, revolutions and state formation are invoked as the main causal explanations of displacement, and are considered alongside the emergence of a twentieth-century refugee regime linking governmental practices, professional expertise and humanitarian relief efforts. How and for whom did refugees become a "problem" for organizations such as the League of Nations and UNHCR and for non-governmental organizations (NGOs)? What solutions were entertained and implemented, and why? What were the implications for refugees? These questions invite us to consider how refugees engaged with the myriad ramifications of enforced migration, and thus the significance that they attached to the places they left behind, to their journeys and destinations--in short, how refugees helped interpret and fashioned their own history. The Making of the Modern Refugee rests upon scholarship from several disciplines and draws upon oral testimony, eye-witness accounts and cultural production, as well as extensive unpublished source material.

**The Drone Eats with Me** - Atef Abu Saif 2016-07-05

An ordinary Gazan's "devastating contemporary war journal" that chronicles his struggle to survive Israel's invasion of Gaza (Michael Ondaatje, author of *The English Patient*) *The Drone Eats with Me* is an

unforgettable rendering of everyday civilian life shattered by the realities of twenty-first-century warfare. Israel's 2014 invasion of Gaza lasted 51 days, killed 2,145 Palestinians (578 of them children), injured over 11,000 people, and demolished more than 17,000 homes. Atef Abu Saif, a young father and novelist, puts an indelibly human face on these statistics, providing a rare window into the texture of a community and the realities of a conflict that is too often obscured by politics.
