Fairy Tale - Stephen King 2022-09-06

Legendary storyteller Stephen King goes into the deepest well of his imagination in this spellbinding novel about a seventeen-year-old boy who inherits the keys to a parallel world where good and evil are at war, and the stakes could not be higher - for their world or ours. Charlie Reade looks like a regular high school kid, great at baseball and football, a decent student. But he carries a heavy load. His mom was killed in a hit-and-run accident when he was ten, and grief drove his dad to drink. Charlie learned how to take care of himself - and his dad. Then, when Charlie is seventeen, he meets a dog named Radar and her aging master,

Howard Bowditch, a recluse in a big house at the top of a big hill, with a locked shed in the backyard. Sometimes strange sounds emerge from it. Charlie starts doing jobs for Mr. Bowditch and loses his heart to Radar. Then, when Bowditch dies, he leaves Charlie a cassette tape telling a story no one would believe. What Bowditch knows, and has kept secret all his long life, is that inside the shed is a portal to another world. King's storytelling in *Fairy Tale* soars. This is a magnificent and terrifying tale about another world than ours, in which good is pitted against overwhelming evil, and a heroic boy - and his dog - must lead the battle. *In the Shadow of the Dragon's Back* - Rachel Odhner Longstaff  
2017-08-02

The book is the story of a young American girl living in South Africa during the early years of Apartheid (1948-1960). One of six children of a Swedenborgian minister who was sent to South Africa to establish a theological school for Africans, the author reaches back into this unique time and place in an effort to rediscover the culture that influenced her own adult attitudes. Rather than following a strictly chronological format, the story is laid out in a series of verbal snapshots, supported by photographs. Family life, experienced through the eyes of a child living in a complex environment, contrasts with the lives of those who were impacted by the institutionalized racism of apartheid. Examples of the Acts of Apartheid at the end of each chapter include news articles, interviews, and commentary. Deep childhood fears of some unnamed

threat are represented by home invasions, wildfires, and the cry of a hyena in the mountains. The mountains are dangerous, they present a great barrier, but they can be conquered. After returning permanently to America as a teenager through a confusing and sometimes painful process of discussion and observation the author uncovers those artifacts of the past that inform her place in the world today.
