**The Betrothed** - Alessandro Manzoni 1834

**The Flavors of Modernity** - Gian-Paolo Biasin 2017-03-14

From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in *To the Lighthouse*, food has figured prominently in world literature. But perhaps nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating

a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The Leopard*. Similarly, Biasin shows how food is used by writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate. Originally published in 1993. **Amber Revolution** - Simon J Woolf 2021-10-05

A must-have volume for all wine lovers and those who love orange wine. Written by renowned orange wine expert and award winning writer Simon J. Woolf, Amber Revolution is the world's first book to tell the full, forgotten story of this ancient wine (white wine made like a red wine) and its modern struggle to gain acceptance. It is a tale of lost identity, the fight for survival, and pioneering winemakers--from the Caucasus to the Adriatic. White grapes are left in contact with their skins for days, weeks or months during fermentation, creating stunning complexity, unusual aromas and intense flavors. The extended skin contact gives these wines bold amber, russet, or orange tints. The technique is ancient, but the hype is new and fast growing. This book includes profiles of 180 of the best producers from 20 countries worldwide and is crammed full of all the information you need to find the best orange wines worldwide together with tips for how to buy, enjoy, food-match and age them. Beautifully illustrated with over 150 specially commissioned photos, Amber Revolution is an essential reference work for any wine lover, sommelier, retailer or producer who loves orange wine. **Fashion** - Lars Svendsen 2006-10-30

Fashion is at once a familiar yet mysteriously elite world that we all experience, whether we're buying a new pair of jeans, reading Vogue, or watching the latest episode of Project Runway. Lars Svendsen dives into that world in Fashion, exploring the myths, ideas, and history that make up haute couture, the must-have trends over the centuries, and the very concept of fashion itself. Fashion opens with an exploration of all the possible meanings encompassed by the word "fashion," as Svendsen probes its elusive place in art, politics, and history. Ultimately, however, he focuses on the most common use of the term: clothing. With his trademark dry wit, he deftly dismantles many of the axioms of the industry and its supporters. For example, he points out that some of the latest fashions shown on runways aren't actually "fashionable" in any sense of the word, arguing that they're more akin to modern art works, and he argues against the increasingly prevalent idea that plastic surgery and body modification are part of a new wave of consumerism. Svendsen draws upon the writings of thinkers from Adam Smith to Roland Barthes to analyze fashion as both a historical phenomenon and a philosophy of aesthetics. He also traces the connections between the concepts of fashion and modernity and ultimately considers the importance of evolving fashions to such fields as art, politics, and philosophy. Whether critiquing a relentless media culture that promotes perfect bodies or parsing the never-ending debate over the merits of conformity versus individual style, Lars Svendsen offers an engaging and

intriguing analysis of fashion and the motivations behind its constant pursuit of the new.

*Telephone Tales* - Gianni Rodari 2020-09-08

Reminiscent of Scheherazade and *One Thousand and One Nights*, Gianni Rodari's *Telephone Tales* is many stories within a story. Every night, a traveling father must finish a bedtime story in the time that a single coin will buy. One night, it's a carousel that adults cannot comprehend, but whose operator must be some sort of magician, the next, it's a land filled with butter men who melt in the sunshine. Awarded the Hans Christian Anderson Award in 1970, Gianni Rodari is widely considered to be Italy's most important children's author of the 20th century. Newly re-illustrated by Italian artist Valerio Vidali (*The Forest*), *Telephone Tales* entertains, while questioning and imagining other worlds.

*Zeno's Conscience* - Italo Svevo 2003-02-04

Long hailed as a seminal work of modernism in the tradition of Joyce and Kafka, and now available in a supple new English translation, Italo Svevo's charming and splendidly idiosyncratic novel conducts readers deep into one hilariously hyperactive and endlessly self-deluding mind. The mind in question belongs to Zeno Cosini, a neurotic Italian businessman who is writing his confessions at the behest of his psychiatrist. Here are Zeno's interminable attempts to quit smoking, his courtship of the beautiful yet unresponsive Ada, his unexpected—and unexpectedly happy—marriage to Ada's homely sister Augusta, and his affair with a shrill-voiced aspiring singer. Relating these misadventures with wry wit and a perspicacity at once unblinking and compassionate, *Zeno's Conscience* is a miracle of psychological realism.

*Letters to My Son on the Love of Books* - Roberto Cotroneo 1998

Presents four essays that each focus on a particular theme and on one book or author that illustrates it

*Neuroenology* - Gordon M. Shepherd 2016-11-22

In his new book, Gordon M. Shepherd expands on the startling discovery that the brain creates the taste of wine. This approach to understanding

wine's sensory experience draws on findings in neuroscience, biomechanics, human physiology, and traditional enology. Shepherd shows, just as he did in *Neurogastronomy: How the Brain Creates Flavor and Why It Matters*, that creating the taste of wine engages more of the brain than does any other human behavior. He clearly illustrates the scientific underpinnings of this process, along the way enhancing our enjoyment of wine. *Neuroenology* is the first book on wine tasting by a neuroscientist. It begins with the movements of wine through the mouth and then consults recent research to explain the function of retronasal smell and its extraordinary power in creating wine taste. Shepherd comprehensively explains how the specific sensory pathways in the cerebral cortex create the memory of wine and how language is used to identify and imprint wine characteristics. Intended for a broad audience of readers—from amateur wine drinkers to sommeliers, from casual foodies to seasoned chefs—*Neuroenology* shows how the emotion of pleasure is the final judge of the wine experience. It includes practical tips for a scientifically informed wine tasting and closes with a delightful account of Shepherd's experience tasting classic Bordeaux vintages with French winemaker Jean-Claude Berrouet of the Chateau Petrus and Dominus Estate.

*A Short History of Drunkenness* - Mark Forsyth 2018-05-08

From the internationally bestselling author of *The Etymologicon*, a lively and fascinating exploration of how, throughout history, each civilization has found a way to celebrate, or to control, the eternal human drive to get sloshed “An entertaining bar hop through the past 10,000 years.”—*The New York Times Book Review* Almost every culture on earth has drink, and where there's drink there's drunkenness. But in every age and in every place drunkenness is a little bit different. It can be religious, it can be sexual, it can be the duty of kings or the relief of peasants. It can be an offering to the ancestors, or a way of marking the end of a day's work. It can send you to sleep, or send you into battle. Making stops all over the world, *A Short History of Drunkenness* traces humankind's love affair with booze from our primate ancestors through to the twentieth century, answering every possible question along the

way: What did people drink? How much? Who did the drinking? Of the many possible reasons, why? On the way, learn about the Neolithic Shamans, who drank to communicate with the spirit world (no pun intended), marvel at how Greeks got giddy and Sumerians got sauced, and find out how bars in the Wild West were never quite like in the movies. This is a history of the world at its inebriated best.

**Italian Folktales** - Italo Calvino 1980

Retells two hundred traditional Italian tales, including the stories of a fearless little man, a prince who married a frog, and a woman who lived on wind

**Vecchi maestri e nuovi mostri** - Marco Malvestro

2019-08-26T00:00:00+02:00

Se la letteratura di genere ha sempre rappresentato lo spazio privilegiato per l'emersione del represso e del non detto, che posizione occupa la letteratura dell'orrore nella nostra società, e quali angosce, tensioni, conflitti si incarica di incarnare e rappresentare, seppur in maniera filtrata e ambivalente? I contributi esplorano il rapporto tra vecchie e nuove forme dell'horror nei territori della letteratura globale contemporanea, del fumetto, del videogioco, del giornalismo. Le analisi spaziano da testi di King, VanderMeer, DeLillo, WuMing, Ligotti e Lovecraft a Dante's Inferno e Gō Nagai; gli interventi teorici forniscono una fondamentale messa a punto per orientarsi nella galassia di un genere - l'horror- che non smette di espandersi e rinnovarsi.

**America primo amore** - Mario Soldati 1956

**A Natural History of Wine** - Ian Tattersall 2015-11-28

"Wine is art. Wine is ritual. Wine is culture. Wine is romance. But in the hands of Tattersall and DeSalle . . . we learn that wine is also science."—Neil deGrasse Tyson A Wall Street Journal Best Book for Wine Lovers An excellent bottle of wine can be the spark that inspires a brainstorming session. Such was the case for Ian Tattersall and Rob DeSalle, scientists who frequently collaborate on book and museum exhibition projects. When the conversation turned to wine one evening, it almost inevitably led the two—one a palaeoanthropologist, the other a

molecular biologist—to begin exploring the many intersections between science and wine. This book presents their fascinating, freewheeling answers to the question "What can science tell us about wine?" And vice versa. Conversational and accessible to everyone, this colorfully illustrated book embraces almost every imaginable area of the sciences, from microbiology and ecology (for an understanding of what creates this complex beverage) to physiology and neurobiology (for insight into the effects of wine on the mind and body). The authors draw on physics, chemistry, biochemistry, evolution, and climatology, and they expand the discussion to include insights from anthropology, primatology, entomology, Neolithic archaeology, and even classical history. The resulting volume is indispensable for anyone who wishes to appreciate wine to its fullest. "Chemistry. Evolutionary biology. Genetics. This book is an excellent layman's refresher on these diverse topics, and many more, and how they fit into the grand scheme of wine . . . A fact-packed and accessible read that goes a long way toward explaining why and how wine became such an important component in our enjoyment of the natural world."—Wine Spectator

**Senso e sensibile** - Paolo Leonardi 2013-12-09

Questo numero speciale di E/C presenta gli atti del XIX convegno della Società Italiana di Filosofia del Linguaggio, tenutosi presso il Dipartimento di Filosofia e comunicazione dell'Università di Bologna dal 5 al 7 Ottobre 2012. Il titolo del convegno era "Senso e sensibile. Prospettive tra estetica e filosofia del linguaggio" e aveva evidentemente l'obiettivo di ridiscutere in chiave contemporanea e da differenti prospettive un tema classico della riflessione filosofica, e cioè quello dei rapporti tra conoscenza sensibile e linguaggio, tra "estesico" e "logico" e, più in generale, alcuni delle relazioni possibili tra l'estetica e la filosofia del linguaggio.

Obsolete Objects in the Literary Imagination - Francesco Orlando 2008-10-01

Translated here into English for the first time is a monumental work of literary history and criticism comparable in scope and achievement to Eric Auerbach's *Mimesis*. Italian critic Francesco Orlando explores Western literature's obsession with outmoded and nonfunctional objects (ruins, obsolete machinery, broken things, trash, etc.). Combining the insights of psychoanalysis and literary-political history, Orlando traces this obsession to a turning point in history, at the end of eighteenth-century industrialization, when the functional becomes the dominant value of Western culture. Roaming through every genre and much of the history of Western literature, the author identifies distinct categories into which obsolete images can be classified and provides myriad examples. The function of literature, he concludes, is to remind us of what we have lost and what we are losing as we rush toward the future.

*How to Build a Dinosaur* - Jack Horner 2009-03-19

A world-renowned paleontologist reveals groundbreaking science that trumps science fiction: how to grow a living dinosaur. Over a decade after Jurassic Park, Jack Horner and his colleagues in molecular biology labs are in the process of building the technology to create a real

dinosaur. Based on new research in evolutionary developmental biology on how a few select cells grow to create arms, legs, eyes, and brains that function together, Jack Horner takes the science a step further in a plan to "reverse evolution" and reveals the awesome, even frightening, power being acquired to recreate the prehistoric past. The key is the dinosaur's genetic code that lives on in modern birds- even chickens. From cutting-edge biology labs to field digs underneath the Montana sun, *How to Build a Dinosaur* explains and enlightens an awesome new science.

On Ugliness - Umberto Eco 2011

Beauty and ugliness are two sides of the same coin; by ugliness we usually mean the opposite of beauty and we often define the first in order to understand the nature of the second. But the various depictions of ugliness over the centuries are richer and more unpredictable than is commonly thought. The striking images and anthological quotations in *On Ugliness* lead us on an extraordinary journey through the passions, terrors and nightmares of almost three thousand years, where acts of rejection go hand in hand with touching instances of empathy, and an aversion to deformity is accompanied by seductive violations of all classical canons. With his characteristic wit and erudition, Umberto Eco draws on examples in art and literature from ancient times to the present day. Abundantly illustrated with demons, madmen, vile enemies and disquieting presences, with freaks and the living dead, *On Ugliness* is conceived for a vast and diverse readership, and is an invaluable companion volume to *On Beauty*.

**Neuromarketing For Dummies** - Stephen J. Genco 2013-07-29

Learn how to use neuromarketing and understand the science behind it. Neuromarketing is a controversial new field where researchers study consumers' brain responses to advertising and media. Neuromarketing and the brain sciences behind it provide new ways to look at the age-old question: why do consumers buy? *Neuromarketing For Dummies* goes beyond the hype to explain the latest findings in this growing and often misunderstood field, and shows business owners and marketers how neuromarketing really works and how they can use it to their advantage. You'll get a firm grasp on neuromarketing theory and how it is impacting

research in advertising, in-store and online shopping, product and package design, and much more. Topics include: How neuromarketing works Insights from the latest neuromarketing research How to apply neuromarketing strategies to any level of advertising or marketing, on any budget Practical techniques to help your customers develop bonds with your products and services The ethics of neuromarketing Neuromarketing for Dummies demystifies the topic for business owners, students, and marketers and offers practical ways it can be incorporated into your existing marketing plans.

**The Witches of Wenshar** - Barbara Hambly 2011-03-29

From a New York Times–bestselling author, the tale of a mercenary who must master his newfound magic to battle a powerful evil. After a lifetime of brutal war, which he survived only through strength and daring, the mercenary Sun Wolf was shocked to discover within himself an inclination toward magic. Accompanied by his lieutenant, Starhawk, he travels across the forbidding desert to the land of Wenshar, where witchcraft is said to flourish. There he seeks out a witch with powers far beyond her years, who is rumored to have mastered the ancient art of white magic. But when he and Starhawk finally reach her, there is evil in the air—an evil against which all their might is useless. Sun Wolf must learn to harness his newfound powers—or be taken by this sinister trap. This ebook features an illustrated biography of Barbara Hambly, including rare photos and never-before-seen documents from the author’s personal collection.

**Brave New World Revisited** - Aldous Huxley 2014-01-01

When Aldous Huxley wrote his famous novel *Brave New World*, he did so with the sincere belief that the dystopian world he created was a true possibility given the direction of the social, political and economic world order. Written almost thirty years later, *Brave New World Revisited* is a re-evaluation of his predictions based on the changes he had witnessed in the meantime. In this twelve-part essay, Huxley argues that society is moving toward his dystopian vision even faster than he had originally assumed, and provides his own suggestions on how to bring an end to this decadent decline. *Brave New World Revisited* condemns symptoms

of modern life such as overpopulation, propaganda and extreme government control while providing a staunch defence of individualism. Despite being published over fifty years ago, the problems identified in *Brave New World Revisited* are still startlingly relevant, lending a chilling credibility to Aldous Huxley’s unsettling predictions. HarperTorch brings great works of non-fiction and the dramatic arts to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. **The Economic Weapon** - Nicholas Mulder 2022

Tracing the history of economic sanctions from the blockades of World War I to the policing of colonial empires and the interwar confrontation with fascism, Nicholas Mulder combines political, economic, legal, and military history to reveal how a coercive wartime tool was adopted as an instrument of peacekeeping by the League of Nations. This timely study casts an overdue light on why sanctions are widely considered a form of war, and why their unintended consequences are so tremendous.

**Family Sayings** - Natalia Ginzburg 1989

[The Domestic Space Reader](#) - Chiara Briganti 2012-11-23

Tune in to HGTV, visit your local bookstore's magazine section, or flip to the 'Homes' section of your weekend newspaper, and it becomes clear: domestic spaces play an immense role in our cultural consciousness. The *Domestic Space Reader* addresses our collective fascination with houses and homes by providing the first comprehensive survey of the concept across time, cultures, and disciplines. This pioneering anthology, which is ideal for students and general readers, features writing by key scholars, thinkers, and writers including Gaston Bachelard, Mary Douglas, Le Corbusier, Homi Bhabha, Henri Lefebvre, Mrs. Beeton, Ma Thanegi, Diana Fuss, Beatriz Colomina, and Edith Wharton. Among the many engaging topics explored are: the impact of domestic technologies on family life; the relationship between religion and the home; nomadic peoples and housing; domestic spaces in art and literature, and the history of the bedroom, the kitchen, and the bathroom. The *Domestic*

Space Reader demonstrates how discussions of domestic spaces can help us better understand our inner lives and challenge our perceptions of life in particular times and places.

*Sorsi letterari* - Lorella Reale 2021-04-10

Il vino è presente nella storia dell'umanità da 11.000 anni. Succo dell'"erba della vita", simbolo del patto tra Dio e popolo eletto, preziosa merce di scambio nel mondo greco e indice di potere tra i Romani. La bevanda, che nasce dal misterioso processo della fermentazione dell'uva e che scalda viscere e cuore, ha sempre rappresentato un elemento culturale potente. Ma è soltanto oggi, nel terzo millennio, che con il movimento dei vini naturali, il vino o meglio un certo tipo di vino detto "naturale", è diventato icona di una contestazione planetaria, di una forma di resistenza etica ed ecologista, economica e culturale. Il vino naturale, infatti, "non è un concetto astratto bensì un insieme di pratiche, di fatti, di parole e di sentimenti che si esplicano e si scontrano con la realtà." È per questo, che secondo Lorella Reale, produttrice di vino e scrittrice, il vino naturale ha bisogno di un linguaggio nuovo. Alla ricerca dunque di una grammatica originale, l'Autrice fa suo l'insegnamento di Ingeborg Bachmann sul potere della letteratura e usa i libri, saggi e romanzi, come un prisma, per guardare i vini naturali attraverso 40 Sorsi letterari. Il vino naturale diventa, di rimando, come la letteratura un'utopia, nel senso di essere un "regno aperto al futuro di cui non conosciamo i confini, ed è così, che le molte storie raccontate in queste pagine ci consegnano una chiave per guardare e sentire la situazione attuale della Terra, che è la nostra situazione.

**Historical Atlas of Medieval Music** - Vera Minazzi 2019-08-31

Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried out internationally by a select

group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous.

To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.
