The New Populism - Marco Revelli 2019-07-09

A crisp and trenchant dissection of populism today. The word 'populism' has come to cover all manner of sins. Yet despite the prevalence of its use, it is often difficult to understand what connects its various supposed expressions. From Syriza to Trump and from Podemos to Brexit, the electoral earthquakes of recent years have often been grouped under this term. But what actually defines 'populism'? Is it an ideology, a form of organisation, or a mentality? Marco Revelli seeks to answer this question by getting to grips

with the historical dynamics of so-called 'populist' movements. While in the early days of democracy, populism sought to represent classes and social layers who asserted their political role for the first time, in today's post-democratic climate, it instead expresses the grievances of those who had until recently felt that they were included. Having lost their power, the disinherited embrace not a political alternative to -isms like liberalism or socialism, but a populist mood of discontent. The new populism is the 'formless form' that protest and grievance assume in the era of financialisation, in the era where the atomised masses lack voice or organisation. For Revelli, this new populism the child of an age in which the Left has been hollowed out and lost its capacity to offer an alternative.

*What Democracy Is For* - Stein Ringen  
2009-03-09

In this provocative book, Stein Ringen argues that the world's democracies are failing to live up to their ideals--the United States and Great Britain most especially. The core value of democracy, he contends, is freedom, the freedom to live a good life according to one's own choosing. Yet he shows that democracy's

freedom is on the decline. Citizens are increasingly distrustful of political systems weighted by money, and they don't participate in political affairs as they once did. Ringen warns of the risks we face if this trend continues, and puts forth an ambitious proposal for democratic reforms. The issues that concern him are ones that should concern us all. They include education, poverty, the social and economic roles of families, the lack of democracy in our economic lives, and the need to rejuvenate municipal democracy. Along the way, Ringen proposes policy solutions aimed at restoring democracy, such as universal vouchers for education, substituting the principle of individual insurance for social-welfare pensions, and rethinking how we measure poverty in rich and poor countries. He calls for the revival of local democracy, a democratically grounded global economy, and the protection of political democracy from the transgressions of economic power. The way to protect democracy is not to

cheer it, but to reform it. What Democracy Is For offers a bold defense of democratic ideals, grounded in real reforms.

My Ten Years' Imprisonment - Silvio Pellico 1886

**Crossing the Mangrove** - Maryse Conde  
2011-03-02

In this beautifully crafted, Rashomon-like novel, Maryse Conde has written a gripping story imbued with all the nuances and traditions of Caribbean culture. Francis Sancher--a handsome outsider, loved by some and reviled by others--is found dead, face down in the mud on a path outside Riviere au Sel, a small village in Guadeloupe. None of the villagers are particularly surprised, since Sancher, a secretive and melancholy man, had often predicted an unnatural death for himself. As the villagers come to pay their respects they each--either in a speech to the mourners, or in an internal monologue--reveal another piece of the mystery behind Sancher's life and death. Like pieces of

an elaborate puzzle, their memories interlock to create a rich and intriguing portrait of a man and a community. In the lush and vivid prose for which she has become famous, Conde has constructed a Guadeloupean wake for Francis Sancher. Retaining the full color and vibrance of Conde's homeland, *Crossing the Mangrove* pays homage to Guadeloupe in both subject and structure.

*Falk* - Joseph Conrad 2014-05-16

Joseph Conrad was a Polish novelist, writing in English, while living in England. Many critics regard him as one of the greatest novelists in the English language, despite his not having learned to speak English fluently until he was in his twenties (and then always with a strong Polish accent). He became a naturalized British subject in 1886. He wrote stories and novels, predominantly with a nautical setting, that

depicted the heroism of faith before the imperatives of duty, social responsibility and honor.

**Materada** - Fulvio Tomizza 2000

Francesco Koslovic—even his name straddles two cultures. And during the spring of 1955, in the village of Materada on the Istrian Peninsula, his two worlds are coming apart. Materada, the first volume of Fulvio Tomizza's celebrated Istrian Trilogy, depicts the Istrian exodus of the hundreds of thousands who had once thrived in a rich ethnic mixture of Italians and Slavs. Complicating Koslovic's own departure is his attempt to keep the land that he and his brother have worked all their lives. A picture of a disappearing way of life, a tale of feud and displacement, and imbued with the tastes, tales, and songs of his native Istria, Koslovic's story is

a testament to the intertwined ethnic roots of Balkan history.

**History of the Council of Europe** - Birte Wassenberg 2013-10-15

The Council of Europe, the oldest European organisation, was founded in 1949 with the aim of unifying the continent as a whole. The decision to establish its headquarters in

Strasbourg was, moreover, symbolic of the desire for reconciliation between peoples. From the outset the Council of Europe adopted an institutional structure comprising a committee of ministers and a parliamentary assembly - the first in Europe. This book retraces the history of the Organisation. Consisting initially of Western European states, the Council of Europe was destined to embrace all the continent's countries, but the Cold War delayed its enlargement. It is only since 1989 that the Council of Europe has become a truly pan-European organisation, now comprising 47 member states. Its mission is based on three major goals: protecting human rights, promoting democratic values and guaranteeing the rule of law. The Council of Europe is also very active in fostering co-operation in all areas of life: education, sport, culture, etc. Starting in 1959, the European Court of Human Rights grew to become the Organisation's flagship institution: its judgments are binding on the member states.

As an intergovernmental organisation, the Council of Europe has had to contend with the growth of the European Union and has sought constantly to redefine its role in international relations. In these early years of the 21st century, will it succeed in securing a key position in the European institutional architecture?

Medieval Callings - Jacques Le Goff 1995-12-18

These essays by eleven internationally renowned historians present nuanced profiles of the major social and professional groups—the callings-of the Middle Ages. The contributors focus on attitudes of medieval men and women toward their own society. Through a variety of techniques, from a reading of the Song of Roland to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes,

this innovative approach offers a valuable new perspective on the complex social dynamics of feudal Europe. "Very useful discussions of texts, both learned and literary."—Christopher Dyer, Times Literary Supplement Contributors: Mariateresa Fumagalli Beonio Brocchieri, Franco Cardini, Enrico Castelnuovo, Giovanni Cherubini, Bronislaw Geremek, Aron Ja. Gurevich, Christiane Klapisch-Zuber, Jacques Le Goff, Giovanni Miccoli, Jacques Rossiaud, and André Vauchez.

*Historia Ludens* - Alexander von Lünen 2019-09-20

This book aims to further a debate about aspects of "playing" and "gaming" in connection with history. Reaching out to academics,

professionals and students alike, it pursues a dedicated interdisciplinary approach. Rather than only focusing on how professionals could learn from academics in history, the book also ponders the question of what academics can learn from gaming and playing for their own practice, such as gamification for teaching, or using "play" as a paradigm for novel approaches into historical scholarship. "Playing" and "gaming" are thus understood as a broad cultural phenomenon that cross-pollinates the theory and practice of history and gaming alike.

The authors, world-renowned authorities on childbirth with combined experience of over 100 years working with laboring women, have made their book indispensable to every woman who wants the healthiest, safest, and most joyful possible birth experience.

**Black Souls** - Gioacchino Criaco 2020-02-04

The modern Italian classic about Calabrian organized crime—now an award-winning motion picture—makes its English-language debut. In the remote Aspromonte Mountains in southern Calabria, Italy, three best friends embark on a life of crime in order to raise themselves up out of the poverty of their childhoods. Brainy Luciano, the behind-the-scenes schemer, was orphaned as a little boy when the local mob boss had his postman father executed. Lazy, jovial Luigi has learned that there's no point in following the rules. And completing the triumvirate is the nameless narrator, from whose black soul comes the inspiration and energy for each new criminal project, from kidnapping to armed robbery to heroin dealing to contract killing. Set in the birthplace of the 'Ndrangheta, Calabria's ruthless and ubiquitous mafia, *Black Souls* draws on centuries of brigand lore, peasant rebellion history, mountain mythology, and colonial suffering to offer a gripping

morality tale about how violence begets violence.

**The Money Illusion** - Irving Fisher 2014-03-27

In economics, money illusion refers to the tendency of people to think of currency in nominal, rather than real, terms. In other words, the numerical/face value (nominal value) of money is mistaken for its purchasing power (real value). This is false, as modern fiat currencies have no inherent value and their real value is derived from their ability to be exchanged for goods and used for payment of taxes. The term was coined by John Maynard Keynes in the early twentieth century. Almost every one is subject to the "Money Illusion" in respect to his own country's currency. This seems to him to be stationary while the money of other countries seems to change. It may seem strange but it is true that we see the rise or fall of foreign money better than we see that of our own.-IRVING FISHER
