Beginners - Raymond Carver 2015-09-15

Here is the original manuscript of Raymond Carver's seminal 1981 collection, *What We Talk About When We Talk About Love*. Carver is one of the most celebrated short-story writers in American literature—his style is both instantly recognizable and hugely influential—and the pieces in *What We Talk About . . .*, which portray the gritty loves and lives of the American working class, are counted among the foundation stones of the contemporary short story. In this unedited text, we gain insight into the process of a great writer. These expansive stories illuminate the many dimensions of Carver's style, and are indispensable to our understanding of his legacy. Text established by William L. Stull and Maureen P. Carroll

Housing First - Deborah Padgett 2016

Little more than two decades ago, the 'Housing First' (HF) approach pioneered by Pathways to Housing, Inc. was a small but determined challenge to the burgeoning yet ineffective service system for homeless persons. Today, the success of HF has brought about paradigm-shifting systems change not only in the homeless 'industry' but in related service systems. This book employs conceptual frameworks drawn from theories of institutional change and innovation to explore the rise in homelessness in the US, the 'lineages' of responses to the problem, and the subsequent rise of HF.

Six Memos for the Next Millennium - Italo Calvino 2013-04-04

Italo Calvino was due to deliver the Charles Eliot Norton lectures at Harvard in 1985-86, but they were left unfinished at his death. The surviving drafts explore of the concepts of Lightness, Quickness, Multiplicity, Exactitude and Visibility (Constancy was to be the sixth) in serious yet playful essays that reveal Calvino's debt to the comic strip and the folktale. With his customary imagination and grace, he sought to define the virtues of the great literature of the past in order to shape the values of the future. This collection is a brilliant précis of the work of a great writer whose legacy will endure through the millennium he addressed. Italo Calvino, one of

Italy's finest postwar writers, has delighted readers around the world with his deceptively simple, fable-like stories. Calvino was born in Cuba in 1923 and raised in San Remo, Italy; he fought for the Italian Resistance from 1943-45. His major works include *Cosmicomics* (1968), *Invisible Cities* (1972), and *If on a winter's night a traveler* (1979). He died in Siena in 1985, of a brain hemorrhage.

Pitfalls in Human Research - Theodore Xenophon Barber 2013-10-22

Pitfalls in Human Research examines 10 ten pivotal points in human research where investigators and experimenters can go astray. Two questions are addressed: At what pivotal points in the complex research process can the experimental study go astray and give rise to misleading results and conclusions? What steps can researchers take to avoid these pitfalls? To answer these questions, those aspects of experimental studies that are under the control of the investigator as well as those aspects that are under the control of the experimenter are examined. This book begins by making a distinction between the investigator and the experimenter, arguing that their roles are functionally quite different. The discussion then turns to the 10 pitfalls in human research, divided into investigator effects and experimenter effects: investigator paradigm effect; investigator experimental design effect; investigator loose procedure effect; investigator data analysis effect; investigator fudging effect; experimenter personal attributes effect; experimenter failure to follow the procedure effect; experimenter misrecording effect; experimenter fudging effect; and experimenter unintentional expectancy effect. This monograph will be a useful resource for both investigators and experimenters, as well as those who utilize research results in their teaching or practice.

Deep River - Karl Marlantes 2019-07-02

Three Finnish siblings head for the logging fields of nineteenth-century America in the New York Times–bestselling author's "commanding historical epic" (*Washington Post*). Born into a farm family, the three Koski siblings—Ilmari, Matti, and Aino—are raised to maintain their grit and resiliency in the face of hardship. This lesson in *sisu* takes on special meaning when their father is arrested by imperial Russian authorities, never to be seen again. Lured by the prospects of the Homestead Act, Ilmari and Matti set sail for America, while young Aino, feeling betrayed and adrift after her Marxist cell is exposed, follows soon after. The brothers establish themselves among a logging community in southern Washington, not far from the Columbia River. In this New World, they each find themselves—Ilmari as the family's spiritual rock; Matti as a fearless logger and entrepreneur; and Aino as a fiercely independent woman and union activist who is willing to make any sacrifice for the cause that sustains her. Layered with fascinating historical detail, this novel bears witness to the stump-ridden fields that the loggers—and the first waves of modernity—leave behind. At its heart, *Deep River* explores the place of the individual, and of the immigrant, in an America still in the process of defining its own identity.

The Warren Buffett Way - Robert G. Hagstrom
2013-09-13

Warren Buffett is the most famous investor of all time and one of today's most admired business leaders. He became a billionaire and investment sage by looking at companies as businesses rather than prices on a stock screen. The first two editions of *The Warren Buffett Way* gave investors their first in-depth look at the innovative investment and business strategies behind Buffett's spectacular success. The new edition updates readers on the latest investments by Buffett. And, more importantly, it draws on the new field of behavioral finance to explain how investors can overcome the common obstacles that prevent them from investing like Buffett. New material includes: How to think like a long-term investor - just like Buffett Why "loss aversion", the tendency of most investors to overweight the pain of losing money, is one of the biggest obstacles that investors must overcome. Why behaving rationally in the face of the ups and downs of the market has been the key to Buffett's investing success Analysis of Buffett's recent acquisition of H.J. Heinz and his investment in IBM stock The greatest challenge to emulating Buffett is not in the selection of the right stocks, Hagstrom writes, but in having the fortitude to stick with sound investments in the face of economic and market uncertainty. The new edition explains the psychological foundations of Buffett's approach, thus giving readers the best roadmap yet for mastering both the principles and behaviors that have made Buffett the greatest investor of our generation.

The Devil in the Hills - Cesare Pavese 2002

Three young men while away the sun-drenched summer talking, drinking - rarely sleeping - and there is an overwhelming sense that it is the last time they will be able to indulge in such idle pleasures. In contrast to their feelings of transience, the prolonged leisure of their new, wealthy acquaintance, Poli, fascinates them. For

a while they linger in his world, in his decaying villa, half-appalled by his cocaine addiction, his blasphemy, his corrupt circle of friends, but none the less mesmerized until autumn creeps upon the hillside and the seasonal moment of leave-taking arrives.

Handbook on European data protection law -
Council of Europe 2018-04-15

The rapid development of information technology has exacerbated the need for robust personal data protection, the right to which is safeguarded by both European Union (EU) and Council of Europe (CoE) instruments. Safeguarding this important right entails new and significant challenges as technological advances expand the frontiers of areas such as surveillance, communication interception and data storage. This handbook is designed to familiarise legal practitioners not specialised in data protection with this emerging area of the law. It provides an overview of the EU's and the CoE's applicable legal frameworks. It also explains key case law, summarising major rulings of both the Court of Justice of the European Union and the European Court of Human Rights. In addition, it presents hypothetical scenarios that serve as practical illustrations of the diverse issues encountered in this ever-evolving field.

Cassese's International Law - Paola Gaeta
2020-08

Cassese's International Law is a new edition of an established classic. Authors Gaeta, Vignales, and Zappalà have built on the legacy of international law luminary Antonio Cassese to offer a thought-provoking and lucid account for today's undergraduates and postgraduates. The authors have refreshed Cassese's original approach, ensuring the book continues to compare the traditional legal position with the developing and evolving law. Advancing areas

such as the law of the sea, territorial matters, and international environmental law have been expanded to give proper place to their evolving development, while brand new chapters on international trade and foreign investment have been written to reflect the advancements of these areas. In maintaining the broad structure and approach but providing new material, the authors bring fresh context to Cassese's thinking and provide students with an up-to-date, compelling account of the landscape of international legal thinking.

Five Lectures on Psycho-Analysis - Sigmund Freud 2014-11-11

This early work by Sigmund Freud was originally published in 1910 and we are now republishing it with a brand new introductory biography.

'Five Lectures on Psycho-Analysis' is a collection of lectures delivered by the father of psychoanalysis. Sigmund Schlomo Freud was born on 6th May 1856, in the Moravian town of Příbor, now part of the Czech Republic. He studied a variety of subjects, including philosophy, physiology, and zoology, graduating with an MD in 1881. Freud made a huge and lasting contribution to the field of psychology with many of his methods still being used in modern psychoanalysis. He inspired much discussion on the wealth of theories he produced and the reactions to his works began a century of great psychological investigation.

World Development Report 2019 - World Bank 2018-10-31

Work is constantly reshaped by technological progress. New ways of production are adopted, markets expand, and societies evolve. But some changes provoke more attention than others, in part due to the vast uncertainty involved in making predictions about the future. The 2019 World Development Report will study how the nature of work is changing as a result of advances in technology today. Technological progress disrupts existing systems. A new social contract is needed to smooth the transition and guard against rising inequality. Significant investments in human capital throughout a person's lifecycle are vital to this effort. If workers are to stay competitive against machines they need to train or retool existing skills. A social protection system that includes a minimum basic level of protection for workers and citizens can complement new forms of employment. Improved private sector policies to encourage startup activity and competition can help countries compete in the digital age. Governments also need to ensure that firms pay their fair share of taxes, in part to fund this new social contract. The 2019 World Development Report presents an analysis of these issues based upon the available evidence.

The Binder of Lost Stories - Cristina Caboni

2020-01-21

From international bestselling author Cristina Caboni comes an exquisite and engrossing novel of two women, centuries apart, bound by a love of books and a longing for self-discovery. With her delicate touch, Sofia Bauer restores books to their original splendor. In this art she finds refuge from her crumbling marriage and the feeling that her once-vibrant life is slipping away. Then an antique German edition takes her breath away. Slipped covertly into the endpapers is an intriguing missive, the first part of a secret...from one bookbinder to another. Two hundred years ago, Clarice von Harmel defied the constraints of family and society to engage in a profession forbidden to women. Within three separate volumes, Clarice bound her own hidden story filled with pain, longing, and love beyond all reason. A confession that now crosses centuries to touch the heart of a stranger. With the help of book collector Tomaso Leoni, Sofia connects the threads of Clarice's past, page by page, line by line, town by town. She's determined to make Clarice's voice heard. With each new revelation, Clarice is giving Sofia the courage to find her own voice and hope for the future she thought was lost.

Prefabrication for Affordable Housing - fib

Fédération internationale du béton 2011-01-01

The need for housing has increased significantly during the last decades all over the world. It is felt particularly in countries where the population growth rate is high and the economy is developing fast; but everywhere people are shifting from the countryside to towns, where housing in neighbourhoods often becomes critical. The need for affordable housing may concern high-rate urbanization, rural areas to be upgraded, workers' settlements in remote regions, rebuilding dwellings destroyed by disasters such as earthquakes, floods or wars, and even holiday resorts and leisure dwellings. Large projects always face cost- and time-constraints. Local conditions may be variable with respect to the physical, social and economic environment. Thus, minimising cost and time of construction, while maximising quantity and quality of product, may lead to different

solutions. The concept of “affordable”, meaning compatibility of demand and means, is well understood as such everywhere, although its practical application may be much different from place to place. Concrete is a material that lends itself well to affordable housing: it is durable, has good thermal inertia, can be used both as structural and finishing material, and is not sensitive to organic attack. It also has some disadvantages, such as higher cost in developing countries compared to developed countries, and also a potential lack of materials, mainly cement or admixtures. Prefabrication, with its adaptability and quality consciousness, may offer valid, speedy, cost efficient and sustainable solutions. fib Bulletin 60 offers an overview of housing systems as well as information on their features. It shows the main features of a number of construction systems, without entering into the details of the solutions. It aims to make possible a comprehensive comparison, which should help in learning, exchanging and developing ideas on how to better meet the housing needs everywhere, at sustainable cost. A document of this kind was not available before; it is therefore expected to be of great interest and a source of ideas for all those who have to confront similar problems.

How to Do Things with Words - John Langshaw Austin 1975

This work sets out Austin's conclusions in the field to which he directed his main efforts for at least the last ten years of his life. Starting from an exhaustive examination of his already well-known distinction between performative utterances and statements, Austin here finally abandons that distinction, replacing it with a more general theory of 'illocutionary forces' of utterances which has important bearings on a wide variety of philosophical problems.
