Debt's Dominion - David A. Skeel Jr. 2014-04-24
Bankruptcy in America, in stark contrast to its status in most other countries, typically signifies not a debtor's last gasp but an opportunity to catch one's breath and recoup. Why has the nation's legal system evolved to allow both corporate and individual debtors greater control over their fate than imaginable elsewhere? Masterfully probing the political dynamics behind this question, David Skeel here provides the first complete account of the remarkable journey American bankruptcy law has taken from its beginnings in 1800, when Congress lifted the country's first bankruptcy code right out of English law, to the present day. Skeel shows that the confluence of three forces that emerged over many years--an organized creditor lobby, pro-debtor ideological currents, and an increasingly powerful bankruptcy bar--explains the distinctive contours of American bankruptcy

law. Their interplay, he argues in clear, inviting prose, has seen efforts to legislate bankruptcy become a compelling battle royale between bankers and lawyers--one in which the bankers recently seem to have gained the upper hand. Skeel demonstrates, for example, that a fiercely divided bankruptcy commission and the 1994 Republican takeover of Congress have yielded the recent, ideologically charged battles over consumer bankruptcy. The uniqueness of American bankruptcy has often been noted, but it has never been explained. As different as twenty-first century America is from the horse-and-buggy era origins of our bankruptcy laws, Skeel shows that the same political factors continue to shape our unique response to financial distress.

Brussels I Regulation - Ulrich Magnus
2007-01-01

The Brussels I Regulation is by far the most prominent cornerstone of the European law of international civil procedure. Every practitioner in the international field has to work with it - and its importance is still growing. The first edition of this full scale article-by-article commentary found a very warm reception. This new edition brings the book up to date, incorporating a host of developments in the four years since its first appearance, combines in-depth analysis with a genuine and truly European perspective, authored by top experts from all over Europe, covers the jurisprudence of the ECJ and of the

Member States, and integrates thorough discussion of the pending proposal for a Brussels Ibis Regulation. This truly European commentary offers invaluable guidance for lawyers, judges and academics throughout Europe.

From Novice to Expert - Patricia Benner 2001

This coherent presentation of clinical judgement, caring practices and collaborative practice provides ideas and images that readers can draw upon in their interactions with others and in their interpretation of what nurses do. It includes many clear, colorful examples and describes the five stages of skill acquisition, the nature of clinical judgement and experiential learning and the seven major domains of nursing practice. The narrative method captures content and contextual issues that are often missed by formal models of nursing knowledge. The book uncovers the knowledge embedded in clinical nursing practice and provides the Dreyfus model of skill acquisition applied to nursing, an interpretive approach to identifying and describing clinical knowledge, nursing functions, effective management, research and clinical practice, career development and education, plus practical applications. For nurses and healthcare professionals.

Pearl Jam and Philosophy - Stefano Marino 2021-10-07

The first scholarly discussion on the band, Pearl Jam and Philosophy examines both the songs (music and lyrics) and the activities (live performances, political commitments) of one of the most celebrated and charismatic rock bands of the last 30 years. The book investigates the philosophical aspects of their music at various levels: existential, spiritual, ethical, political, metaphysical and aesthetic. This philosophical interpretation is also dependent on the application of textual and poetic analysis: the interdisciplinary volume puts philosophical aspects of the band's lyrics in close dialogue with 19th- and 20th-century European and American poetry. Through this widespread philosophical examination, the book further looks into the band's immense popularity and commercial success, their deeply loyal fanbase and genuine sense of community surrounding

their music, and the pivotal place the band holds within popular music and contemporary culture.

No Prison - Massimo Pavarini 2018-08-15

This book is different from most of the academic and non-academic literature on prisons. It does not advocate prison reform. Instead, it makes the case for the prisons' abolition. According to the authors, prison amelioration is an illusion, but abolition is an option - a real possibility, and certainly an issue worth of public discussion and political action - urgently.

Crime Classification Manual - John E. Douglas 2011-01-06

This is the second edition of the landmark book that standardized the language and terminology used throughout the criminal justice system. It classifies the critical characteristics of the perpetrators and victims of major crimes—murder, arson, sexual assault, and nonlethal acts—based on the motivation of the offender. The second edition contains new classifications on computer crimes, religion-extremist murder, and elder female sexual homicide. This edition also contains new information on stalking and child abduction, the use of biological agents as weapons, cybercrimes, Internet child sex offenders, burglary and rape, and homicidal poisoning. In

addition, many of the case studies and crime statistics have been updated.

The Birth of Judicial Politics in France - Alec Stone 1992

The French Constitutional Council, a quasi-judicial body created at the dawn of the Fifth Republic, functioned in relative obscurity for almost two decades until its emergence in the 1980s as a pivotal actor in the French policymaking process. Alec Stone focuses on how this once docile institution, through its practice of constitutional review, has become a meaningfully autonomous actor in the French political system. After examining the formal prohibition against judicial review in France, Stone illustrates how politicians and the Council have collaborated over the course of the last decade, often unintentionally and in the service of contradictory agendas, to significantly enhance Council's power. While the Council came to function as a third house of Parliament, the legislative work of the government and Parliament was meaningfully juridicized. Through a discussion of broad theoretical issues, Stone then expands the scope of his analysis to the politics of constitutional review in Germany, Spain, and Austria.

Circumcision: A History Of The World's Most Controversial Surgery - David Gollaher 2001-02-28

How has a medical practice that carries substantial risk to the patient and offers very little actual benefit become so widely accepted by parents and fiercely advocated by the medical community? Historian of medicine David Gollaher tells the strange history of medicine's oldest enigma and most persistent ritual in Circumcision. From the extraordinarily painful initiation rite of the ancient Egyptians, through

the Hebrew purification ritual, through circumcision's use by the rising medical community in the nineteenth century as prevention for ailments ranging from bedwetting to paralysis, the great mystery has been the persistence of the practice through vastly different social contexts.

Changing Lenses - Howard Zehr 2015-06-01
Does the criminal justice system actually help victims and offenders? What does justice look like for those who have been harmed? For those who have done harm? Twenty-five years after it was first published, *Changing Lenses* by Howard Zehr remains the classic text of the restorative justice field. Now with valuable author updates on the changing landscape of restorative justice and a new section of resources for practitioners and teachers, *Changing Lenses* offers a framework for understanding crime, injury, accountability, and healing from a restorative perspective. Uncovering widespread assumptions about crime, the courts, retributive justice, and the legal process, *Changing Lenses* offers provocative new paradigms and proven alternatives for public policy and judicial reform. What's New in the Twenty-Fifth Anniversary Edition: Author updates of terminology, paradigms, and recommended reading Foreword by restorative justice practitioner Sujatha Baliga New resources for teachers, facilitators, and practitioners

Spatial and Temporal Dimensions for Legal History - Massimo Meccarelli 2016-07-01
<http://dx.doi.org/10.12946/gplh6><http://www.epubli.de/shop/buch/53894>"The spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law. Despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today, it still has not been the object of a focused inquiry. Against this background, the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue. The aim of this volume, however, is not to offer abstract methodological considerations, but rather to rely both on concrete studies, out of which a reflection on this conjunction emerges, as well as on the reconstruction of certain research

lines featuring a spatiotemporal component. This analytical approach makes a contribution by providing some suggestions for the employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical attitudes reflecting a monistic conception of space and time (as well as a Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the flexibility of those instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes, but also to achieve new and compelling interpretations of legal history. As far as the relationship between space and law is concerned, the book analyses experiences in which space operates as a determining factor of law, e.g. in terms of a field of action for law. Moreover, it outlines the attempted scales of spatiality in order to develop legal historical research. With reference to the connection between time and law, the volume sketches the possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline."

Solitary - Maurizio Torchio 2018-10-15
We learn more every year about the damaging effects of solitary confinement. This unquestionably cruel and unusual punishment

leaves prisoners with no human contact, sometimes for years at a time, and it nearly always leads to lasting trauma. In Solitary, Maurizio Torchio takes on the daunting task of narrating this most isolating experience, one in which the captive is not only cut off from society in the walls of a prison, but from human contact itself. Within this closed world seemingly out of

time, the prisoner still yearns for human contact. Ultimately, this desire is a form of hope, reminding us that ineluctable human qualities survive even in the most inhumane spaces.
