High-Profit Selling - Mark HUNTER 2012-02-14

In the high-pressure quest to make a sale, acquire a contract, and beat out other bidders, sales professionals frequently resort to cutting prices, offering discounts, or making other concessions that cut into their operating margins—short-term strategies that are destructive to the long-term sustainability of their business. High-Profit Selling helps readers understand that their sales goal shouldn't simply be to sell more, but to sell more at a higher price—and that success comes only to those focused on profitable sales. This eye-opening book shows readers how to: Avoid negotiating → Actively listen to customers → Match the benefits of their product or service with the customer's needs and pains → Confidently communicate value → Successfully execute a price increase with existing customers → Ensure prospects are serious and not shopping for price Too many salespeople believe that a sale at any price is better than no sale at all. This powerful guide helps move readers toward a profit-centered approach that will strengthen their relationships and increase their bottom line.

Financial Freedom - Grant Sabatier 2020-04-07

The International Bestseller "This book blew my mind. More importantly, it made financial independence seem achievable. I read Financial Freedom three times, cover-to-cover." —Lifehacker Money is unlimited. Time is not. Become financially independent as fast as possible. In 2010, 24-year old Grant Sabatier woke up to find he had \$2.26 in his bank account. Five years later, he had a net worth of over \$1.25 million, and CNBC began calling him "the Millennial Millionaire." By age 30, he had

reached financial independence. Along the way he uncovered that most of the accepted wisdom about money, work, and retirement is either incorrect, incomplete, or so old-school it's obsolete. Financial Freedom is a step-by-step path to make more money in less time, so you have more time for the things you love. It challenges the accepted narrative of spending decades working a traditional 9 to 5 job, pinching pennies, and finally earning the right to retirement at age 65, and instead offers readers an alternative: forget everything you've ever learned about money so that you can actually live the life you want. Sabatier offers surprising, counter-intuitive advice on topics such as how to:

- * Create profitable side hustles that you can turn into passive income streams or full-time businesses
- * Save money without giving up what makes you happy
- * Negotiate more out of your employer than you thought possible
- * Travel the world for less
- * Live for free--or better yet, make money on your living situation
- * Create a simple, money-making portfolio that only needs minor adjustments
- * Think creatively--there are so many ways to make money, but we don't see them.

But most importantly, Sabatier highlights that, while one's ability to make money is limitless, one's time is not. There's also a limit to how much you can save, but not to how much money you can make. No one should spend precious years working at a job they dislike or worrying about how to make ends meet. Perhaps the biggest surprise: You need less money to "retire" at age 30 than you do at age 65. Financial Freedom is not merely a laundry list of advice to follow to get rich quick--it's a practical roadmap to living life on one's own terms, as soon as possible.
