*Unexpectedly, Milo* - Matthew Dicks 2010-08-03

The author of *SOMETHING MISSING* returns with another hilarious and sneakily profound tale about a man whose behavior is truly odd, but also oddly relatable. Milo Slade, a thirty-three year old home healthcare aide, is witnessing the rapid dissolution of his three-year marriage to a polished, high-powered attorney named Christine. Though Milo doesn't quite know the root of his marital problems, he inevitably blames himself, or more specifically, he faults the demands his obsessive compulsive personality place upon him--the need to open a jar of Smuckers grape jelly or sing 99 Luftballons in front of an audience, to name just a couple. Yet Christine is still none the wiser about these inexplicable quirks as Milo has painstakingly hidden them from her and everyone else for years. No one knows the true--and in his mind more insidious--Milo, and such is the root of his profound loneliness,

especially now that he and Christine are living apart during a trial separation. Then one day Milo stumbles across a video camera and tapes, left behind in a park. He watches the first tape, which is a heartfelt confessional by a young woman who begins to reveal her secrets, starting small at first, and finally revealing that she blames herself for a tragic death of a friend. But not all the details add up and Milo is struck with the urge to free the sweet confessor from her guilt. He is, after all, an expert in keeping secrets... In typical screwball fashion, Milo sets out on a cross-country journey to crack the case, but quickly gets sidetracked as his un-ignorable demands call. But it is during these sidetracks that the true meaning of his adventure takes shape. Milo is weird, but as he discovers, so is everyone else. *UNEXPECTEDLY, MILO* is a humorous and touching novel about finding oneself, embracing the journey, and, unexpectedly, love.

Philosopher Daniel Milo offers a vigorous critique of the quasi-monopoly that Darwin's natural selection has on our idea of the natural world. In popular thought, Darwinism has even acquired the trappings of an ethical system, focused on optimization, competition, and innovation. Yet in nature, imperfect creatures often have

the evolutionary edge.

### **Something Missing** -

Matthew Dicks 2009-07-14

"The story of an obsessive-compulsive housebreaker whose every waking moment is jam-packed with finicky clockwork ritual--the kind of intense micro-planning that might have made even Napoleon back off...Matthew Dicks has created an unforgettable character that will have you torn between wanting to throttle him--or adopt him." --Alan Bradley, author of the New York Times bestselling Flavia de Luce novels A career criminal with OCD tendencies and a savant-like genius for bringing order to his crime scenes, Martin considers himself one of the best. After all, he's been able to steal from the same people for years on end—virtually undetected. Of course, this could also be because of his unique business model—taking only items that will go unnoticed by the homeowner. After all, who would notice a

missing roll of toilet paper here, a half-used bottle of maple syrup there, or even a rarely used piece of china buried deep within a dusty cabinet? Even though he's never met these homeowners, spending hours in their houses, looking through their photo albums and reading their journals, he feels like he knows them. So Martin decides to meddle more in their lives—playing the part of a rather odd guardian angel—even though it means breaking many of his neurotic rules. In this hilarious, suspenseful and often profound novel about a man used to planning every second of his life, Martin comes to realize that life is much better lived on the edge (at least some of the time).

*City of the Dead* - Jonathan Kellerman 2022-02-08

NEW YORK TIMES

BESTSELLER • The past comes back to haunt psychologist Alex Delaware and Detective Milo

Sturgis when they investigate a grisly double homicide and uncover an even more unspeakable motive in this riveting thriller from the bestselling master of suspense. Los Angeles is a city of sunlight, celebrity, and possibility. The L.A. often experienced by Homicide Lt. Detective Milo Sturgis and psychologist Alex Delaware, is a city of the dead. Early one morning, the two of them find themselves in a neighborhood of pretty houses, pretty cars, and pretty people. The scene they encounter is anything but. A naked young man lies dead in the street, the apparent victim of a collision with a moving van hurtling through suburbia in the darkness. But any thoughts of accidental death vanish when a blood trail leads to a nearby home. Inside, a young woman lies butchered. The identity of the male victim and his role in the horror remain elusive, but that of the woman creates additional questions. And adding to the shock, Alex has met her while working a convoluted child custody case.

Cordelia Gannett was a self-styled internet influencer who'd gotten into legal troubles by palming herself off as a psychologist. Even after promising to desist, she's found a loophole and has continued her online career, aiming to amass clicks and ads by cyber-coaching and cyber-counseling people plagued with relationship issues. But upon closer examination, Alex and Milo discover that her own relationships are troublesome, including a tortured family history and a dubious personal past. Has that come back to haunt her in the worst way? Is the mystery man out in the street collateral damage or will he turn out to be the key to solving a grisly double homicide? As the psychologist and the detective explore L.A.'s meanest streets, they peel back layer after layer of secrets and encounter a savage, psychologically twisted, almost unthinkable motive for violence and bloodshed. This is classic Delaware: Alex, a man Milo has come to see as irreplaceable, at his most insightful and

brilliant.

**Unexpected** - Greg Rutherford  
2016-11-03

Greg Rutherford is one of the most successful British athletes of all time, winning gold at European, Commonwealth, World and Olympic levels, an achievement matched by only four others: Linford Christie, Jonathan Edwards, Sally Gunnell and Daley Thompson. Yet his route to the very top was never smooth. He always believed in himself as an athlete and sportsman, but for many years could not find an outlet that allowed him to truly excel. During his reckless teenage years, he would sometimes sleep rough and he dropped out of school, before he found the focus that would help him to get to the very top. But even then, there were still setbacks, as when he fell short in the Beijing Olympics. It served only to spur him on. In London, he became a part of 'Super Saturday' when he joined Mo Farah and Jessica Ennis in winning gold in 45 astonishing minutes of British glory. Condemned by some as a

'lucky' winner, he went on to complete his clean sweep of major titles through sheer determination to succeed. In this long-awaited memoir, he not only reveals the secrets of his remarkable success, but also has plenty to say on the issues that are dominating athletics, such as doping, and much else besides. It is a raw, passionate, entertaining and fascinating read.

**Reincarnation Blues** -

Michael Poore 2017-08-22

A wildly imaginative novel about a man who is reincarnated over ten thousand lifetimes to be with his one true love: Death herself. "Tales of gods and men akin to Neil Gaiman's Sandman as penned by a kindred spirit of Douglas Adams."—Kirkus Reviews (starred review) First we live. Then we die. And then . . . we get another try? Ten thousand tries, to be exact. Ten thousand lives to "get it right." Answer all the Big Questions. Achieve Wisdom. And Become One with Everything. Milo has had 9,995 chances so far and has just five more lives to earn a place in

the cosmic soul. If he doesn't make the cut, oblivion awaits. But all Milo really wants is to fall forever into the arms of Death. Or Suzie, as he calls her. More than just Milo's lover throughout his countless layovers in the Afterlife, Suzie is literally his reason for living—as he dives into one new existence after another, praying for the day he'll never have to leave her side again. But *Reincarnation Blues* is more than a great love story: Every journey from cradle to grave offers Milo more pieces of the great cosmic puzzle—if only he can piece them together in time to finally understand what it means to be part of something bigger than infinity. As darkly enchanting as the works of Neil Gaiman and as wisely hilarious as Kurt Vonnegut's, Michael Poore's *Reincarnation Blues* is the story of everything that makes life profound, beautiful, absurd, and heartbreaking. Because it's more than Milo and Suzie's story. It's your story, too. Praise for *Reincarnation Blues*  
“The most fun you'll have

reading about a man who has been killed by both catapult and car accident.”—NPR “This book made me laugh out loud. And then a page later, it made me sob. Reminiscent of Tom Robbins and Christopher Moore, Poore finds humor in the dark absurdities of life.”—Chicago Review of Books “Charming . . . surprisingly light and uplifting . . . It reads like a writer having fun.”—New York Journal of Books

**Math Without Numbers** - Milo Beckman 2022-01-11  
An illustrated tour of the structures and patterns we call "math" The only numbers in this book are the page

numbers. Math Without Numbers is a vivid, conversational, and wholly original guide to the three main branches of abstract math—topology, analysis, and algebra—which turn out to be surprisingly easy to grasp. This book upends the conventional approach to math, inviting you to think creatively about shape and dimension, the infinite and infinitesimal, symmetries, proofs, and how these concepts all fit together. What awaits readers is a freewheeling tour of the inimitable joys and unsolved mysteries of this curiously powerful subject. Like the classic math allegory Flatland, first published over a century ago, or Douglas Hofstadter's Godel, Escher, Bach forty years ago, there has never been a math book quite like Math Without Numbers. So many popularizations of math have dwelt on numbers like pi or zero or infinity. This book goes well beyond to questions such as: How many shapes are there? Is anything bigger than infinity? And is math even true? Milo Beckman shows why

math is mostly just pattern recognition and how it keeps on surprising us with unexpected, useful connections to the real world. The ambitions of this book take a special kind of author. An inventive, original thinker pursuing his calling with jubilant passion. A prodigy. Milo Beckman completed the graduate-level course sequence in mathematics at age sixteen, when he was a sophomore at Harvard; while writing this book, he was studying the philosophical foundations of physics at Columbia under Brian Greene, among others. **Thirteen Days to Midnight** - Patrick Carman 2010-04-12 You are indestructible.
