Thomas Keneally's Career and the Literary Machine - Paul Sharrad 2019-08-30

Booker Prize winner and Living National Treasure, Thomas Keneally still divides critical opinion: he is both a morally challenging stylist and a commercial hack, a wise commentator on society and a garrulous leprechaun. Such judgements are located in the cultural politics of Australia but also linked to ideas about what a literary career should look like. 'Thomas Keneally's Career and the Literary Machine' charts Keneally's production and reception across his three major markets, noting clashes between national interests and international reach, continuity of themes and variety of topics, settings and genres, the writer's interests and the publishers' push to create a brand, celebrity fame and literary reputation, and the tussle around fiction, history, allegory and the middlebrow. Keneally is seen as playing a long

game across several events rather than honing one specialist skill, a strategy that has sustained for more than 50 years his ambition to earn a living from writing.

Reprint of the original, first published in 1869.

The House of Commons, 1509-1558 - Stanley Thomas Bindoff 1982

Over 2.260 biographical articles and 218 constituency articles are included in this three volume set of the History of Parliament in the first half of the sixteenth century. Among the biographies are those of Sir Thomas More and Thomas Cromwell; and despite the difficulty of obtaining information about these early parliaments - the official returns for many of the early parliaments or Henry VIII are lost and such names as can be found have often had to be reconstructed from civil, municipal and parish records - many of the lesser figures are also included. They were published without the normal introductory survey following the death of the editor of the volumes, S. T. Bindoff.

The King's Exile - Andrew Swanston 2014-04-24

Thomas is deported to the Caribbean in the second of a fast-paced series that takes place during Restoration London Spring, 1648: when Thomas Hill, a bookseller living in rural England, publishes a political pamphlet he has little idea of the trouble that will follow. He is quickly arrested, forced on a boat to Barbados, and condemned to life as a slave to two of the island's most notoriously violent brothers. In England war has erupted again, with London under threat of attack. When news of the king's execution reaches the island, political stability is threatened and a fleet commanded by Sir George Ayscue arrives to take control of the island for Cromwell. The threat of violence increases. Thomas finds himself witness to abuse, poison, rape, and savage brutality. When a coded message from Ayscue to a sympathizer on the island is intercepted, Thomas is asked to decipher it. A disastrous battle seems inevitable. But nothing turns out as planned. And as the death toll mounts, the escape Thomas has been relying on seems ever more unlikely.

The King's Return - Andrew Swanston 2014-04-24

The king's coronation brings hope. Until a murderer strikes. Spring 1661: After years of civil war followed by Oliver Cromwell's joyless rule as Lord Protector, England awaits the coronation of King Charles II. The mood in London is one of relief and hope for a better

future. But when two respectable gentlemen are found in a foul lane with their throats cut, it becomes apparent that England's enemies are using the newly re-established post office for their own ends. There are traitors at work and plans to overthrow the king. Another war is possible. Thomas Hill, in London visiting friends, is approached by the king's security advisor and asked to take charge of deciphering coded letters intercepted by the post office. As the body count rises and the killer starts preying on women, the action draws closer to Thomas - and his loved ones. He finds himself dragged into the hunt for the traitors and the murderer, but will he find them before it's too late?
