

Trading Down The Most Gripping Cyber Thriller Of The Year

This is likewise one of the factors by obtaining the soft documents of this **Trading Down The Most Gripping Cyber Thriller Of The Year** by online. You might not require more become old to spend to go to the books foundation as without difficulty as search for them. In some cases, you likewise get not discover the declaration Trading Down The Most Gripping Cyber Thriller Of The Year that you are looking for. It will enormously squander the time.

However below, following you visit this web page, it will be appropriately definitely easy to acquire as capably as download guide Trading Down The Most Gripping Cyber Thriller Of The Year

It will not endure many period as we accustom before. You can complete it even if pretend something else at home and even in your workplace. appropriately easy! So, are you question? Just exercise just what we allow under as well as evaluation **Trading Down The Most Gripping Cyber Thriller Of The Year** what you when to read!

Zero Day - Mark Russinovich 2011-03-15

An airliner's controls abruptly fail mid-flight over the Atlantic. An oil tanker runs aground in Japan when its navigational system suddenly stops dead. Hospitals everywhere have to abandon their computer databases when patients die after being administered incorrect dosages of their medicine. In the Midwest, a nuclear power plant nearly becomes the next Chernobyl when its cooling systems malfunction. At first, these random computer failures seem like unrelated events. But Jeff Aiken, a former government analyst who quit in disgust after witnessing the gross errors that led up to 9/11, thinks otherwise. Jeff fears a more serious attack targeting the United States computer infrastructure is already under way. And as other menacing computer malfunctions pop up around the world, some with deadly results, he realizes that there isn't much time if he hopes to prevent an international catastrophe. Written by a global authority on cyber security, *Zero Day* presents a chilling "what if" scenario that, in a world completely reliant on technology, is more than possible today--it's a cataclysmic disaster just waiting to happen.

As Our World Ends - Jack Hunt 2020-03-17

In an ordinary day, a devastating event will change lives forever. Alex Reid, a U.S. Coast Guard is on the brink of divorce. On the day his wife arrives on the east coast to have him sign papers, the nation's crippled by a string of increasingly bizarre disasters. When the internet, communication and power grid goes down, and explosions erupt across America, they soon find themselves fighting to stay alive. Desperate to protect family, together they're forced to venture across a chaotic and powerless country in search of their daughter. As the world ends and panic takes hold, they must overcome more challenges than a broken marriage to survive. *As Our World Ends* is book one in the *Cyber Apocalypse* series, a post-apocalyptic survival thriller that follows a husband and wife as they fight to stay alive after an unknown attacker destroys the country and power supply.

All Her Little Secrets - Wanda M. Morris 2021-11-02

"All Her Little Secrets is a brilliantly nuanced but powerhouse exploration of race, the legal system, and the crushing pressure of keeping secrets. Morris brings a vibrant and welcome new voice to the thriller space." —Karin Slaughter, *New York Times* and international bestselling author In this fast-paced thriller, Wanda M. Morris crafts a twisty mystery about a black lawyer who gets caught in a dangerous conspiracy after the sudden death of her boss . . . A debut perfect for fans of Attica Locke, Alyssa Cole, Harlan Coben, and Celeste Ng, with shades of *How to Get Away with Murder* and John Grisham's *The Firm*. Everyone has something to hide... Ellice Littlejohn seemingly has it all: an Ivy League law degree, a well-paying job as a corporate attorney in midtown Atlanta, great friends, and a "for fun" relationship with a rich, charming executive, who just happens to be her white boss. But everything changes one cold January morning when Ellice arrives in the executive suite and finds him dead with a gunshot to his head. And then she walks away like nothing has happened. Why? Ellice has been keeping a cache of dark secrets, including a small-town past and a kid brother who's spent time on the other side of the law. She can't be thrust into the spotlight—again. But instead of grieving this tragedy, people are gossiping, the police are getting suspicious, and Ellice, the company's lone black attorney, is promoted to replace her boss. While the

opportunity is a dream-come-true, Ellice just can't shake the feeling that something is off. When she uncovers shady dealings inside the company, Ellice is trapped in an impossible ethical and moral dilemma. Suddenly, Ellice's past and present lives collide as she launches into a pulse-pounding race to protect the brother she tried to save years ago and stop a conspiracy far more sinister than she could have ever imagined...

You'll See This Message When It Is Too Late - Josephine Wolff 2018-11-13

What we can learn from the aftermath of cybersecurity breaches and how we can do a better job protecting online data. Cybersecurity incidents make the news with startling regularity. Each breach—the theft of 145.5 million Americans' information from Equifax, for example, or the Russian government's theft of National Security Agency documents, or the Sony Pictures data dump—makes headlines, inspires panic, instigates lawsuits, and is then forgotten. The cycle of alarm and amnesia continues with the next attack, and the one after that. In this book, cybersecurity expert Josephine Wolff argues that we shouldn't forget about these incidents, we should investigate their trajectory, from technology flaws to reparations for harm done to their impact on future security measures. We can learn valuable lessons in the aftermath of cybersecurity breaches. Wolff describes a series of significant cybersecurity incidents between 2005 and 2015, mapping the entire life cycle of each breach in order to identify opportunities for defensive intervention. She outlines three types of motives underlying these attacks—financial gain, espionage, and public humiliation of the victims—that have remained consistent through a decade of cyberattacks, offers examples of each, and analyzes the emergence of different attack patterns. The enormous TJX breach in 2006, for instance, set the pattern for a series of payment card fraud incidents that led to identity fraud and extortion; the Chinese army conducted cyberespionage campaigns directed at U.S.-based companies from 2006 to 2014, sparking debate about the distinction between economic and political espionage; and the 2014 breach of the Ashley Madison website was aimed at reputations rather than bank accounts.

Feed - M. T. Anderson 2012

In a future where most people have computer implants in their heads to control their environment, a boy meets an unusual girl who is in serious trouble.

21: Bringing Down the House - Movie Tie-In - Ben Mezrich 2008-02

Recounts the story of how a notorious gang of MIT blackjack savants devised and received backing for a system for winning at the world's most sophisticated casinos, an endeavor that earned them more than three million dollars. Originally published as *Bringing Down the House*. Reissue. (A Columbia Pictures film, written by Peter Steinfeld & Allan Loeb, directed by Robert Luketic, releasing March 2008, starring Kevin Spacey, Kate Bosworth, Laurence Fishburne, Jim Sturgess, & others) (Current Affairs)

Ghost - James Swallow 2020-11-10

The Marc Dane series from James Swallow continues with the Dark Web cyber thriller, *Ghost* A terrible threat from the depths of the dark net. A devastating betrayal at the heart of a covert strike force. A deadly pursuit across a digital battlefield. A ruthless terrorist fueled by revenge. As devastating attacks unfold across the globe, Marc Dane must call on all his skills and ingenuity to track down the mysterious figure

behind it all - a faceless criminal known only as "Madrigal". Before they plunge the world into war . . . At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. [Cyberkill](#) - Frank F. Fiore 2021-01-19

CYBERKILL is a story of abandonment and revenge. Thinking he deleted all of his artificial intelligent agents he created at MIT, Travis Cole begins a new life. What he is unaware of is...he forgot one. And it's not happy. When cyber-terrorism attacks threaten the United States, he realizes two horrifying truths - he is the target and his enemy is not human. His enemy has no conscience, and his allies have their own agenda. The abandoned and bitter Artificial Intelligence stalks his young daughter through cyberspace in an attempt to reach Cole and gain access to a silicon virus to seek revenge on him - even if it has to destroy all humanity to do it.

This Is How They Tell Me the World Ends - Nicole Perlroth 2021-02-18

WINNER OF THE FT & MCKINSEY BUSINESS BOOK OF THE YEAR AWARD 2021 The instant New York Times bestseller A Financial Times and The Times Book of the Year 'A terrifying exposé' The Times 'Part John le Carré . . . Spellbinding' New Yorker We plug in anything we can to the internet. We can control our entire lives, economy and grid via a remote web control. But over the past decade, as this transformation took place, we never paused to think that we were also creating the world's largest attack surface. And that the same nation that maintains the greatest cyber advantage on earth could also be among its most vulnerable. Filled with spies, hackers, arms dealers and a few unsung heroes, This Is How They Tell Me the World Ends is an astonishing and gripping feat of journalism. Drawing on years of reporting and hundreds of interviews, Nicole Perlroth lifts the curtain on a market in shadow, revealing the urgent threat faced by us all if we cannot bring the global cyber arms race to heel.

[Winter Rising](#) - Alex Callister 2020-05-18

'Winter,' he says. 'You're going rogue again.' 'Desperate times.' 'This is like chess and you're the Queen. The best player on the board doesn't get into a fight with a pawn.' 'The Guardsman is no pawn.' Winter returns to face the most feared hitman of all time: the nameless, faceless contract killer, the Guardsman. Secret Service agent Winter knows global crime boss Alek Konstantin's days are numbered after she seduced him, then revealed his identity to the world. Now, permanently on the run from the authorities, Alek fights to regain control as the brutal criminal organisation he ruled with an iron fist crashes down around him. Then a young woman called Lucy is viciously stabbed and dumped on a mossy grave, a harrowing message for Winter carved on her forehead. Winter follows the trail to the Guardsman - a pitiless contract killer, and Alek's top hitman. Has the Guardsman gone rogue or is Alek pulling the strings to taunt Winter once more? In a desperate bid to lure Lucy's killer from the shadows and find a path to Alek, Winter books the Guardsman for a hit on herself. If she succeeds, she'll have the world's most dangerous killer at her mercy. But if she fails... A spine-tingling suspense thriller, perfect for fans of Sandra Brown and The Girl with the Dragon Tattoo. What readers are saying about Alex Callister: 'Wow! Double wow!! Triple wow!!!... This book took me for a ride on a rollercoaster... This book definitely gets a place in my top for 2020.... If this is what Winter is like, I don't like the other seasons anymore.' B for Book Review, 5 stars 'A clever, original spy thriller... There are nods to Bond and Bourne throughout Winter Dark... She could seduce Bond and leave him heart broken. She could outfight Bourne and leave his legs broken... Winter Dark is a gripping, pacy and highly original thriller. Highly recommended.' Goodreads reviewer, 5 stars 'This book was really good! I love the main character! I can't wait to read more of the stories! The book is full of action-packed thrills and rides!' Goodreads reviewer 'Winter is a badass character. There will be a movie made about this book... The author set out to create a female James Bond and pretty much hit it spot on... The book is a page-turner.' Goodreads reviewer 'A high-octane thriller... It is a thrill-a-minute, edge-of-your-seat thriller that will have you quickly turning the page... will keep you entertained and engrossed until it's thrilling denouement. A great read that will spike your blood pressure accordingly - not for the faint-hearted!' Goodreads reviewer 'I wound up wrapped up in the story and couldn't put it down.' Goodreads reviewer 'Loved it! I want more! Can't wait for the next instalment.' Goodreads reviewer, 5 stars 'It is hard to put this one down! Lots of twists in this quite different and spectacular read! RECOMMEND HIGHLY!!!' Goodreads reviewer, 5 stars 'I loved it. Intense and filled with twists and turns. Just when you think you know what is going to happen next, Winter surprises you... I cannot wait for the next instalment!'

Goodreads reviewer 'Now there is a new kid on the block, the love-child of Jack Reacher and Lisbeth Salander... she can out-punch Bourne and out-pull Bond.' Independent 'I am in heaven.' Goodreads reviewer

[Sandworm](#) - Andy Greenberg 2020-10-20

"With the nuance of a reporter and the pace of a thriller writer, Andy Greenberg gives us a glimpse of the cyberwars of the future while at the same time placing his story in the long arc of Russian and Ukrainian history." —Anne Applebaum, bestselling author of *Twilight of Democracy* The true story of the most devastating act of cyberwarfare in history and the desperate hunt to identify and track the elite Russian agents behind it: "[A] chilling account of a Kremlin-led cyberattack, a new front in global conflict" (Financial Times). In 2014, the world witnessed the start of a mysterious series of cyberattacks. Targeting American utility companies, NATO, and electric grids in Eastern Europe, the strikes grew ever more brazen. They culminated in the summer of 2017, when the malware known as NotPetya was unleashed, penetrating, disrupting, and paralyzing some of the world's largest businesses—from drug manufacturers to software developers to shipping companies. At the attack's epicenter in Ukraine, ATMs froze. The railway and postal systems shut down. Hospitals went dark. NotPetya spread around the world, inflicting an unprecedented ten billion dollars in damage—the largest, most destructive cyberattack the world had ever seen. The hackers behind these attacks are quickly gaining a reputation as the most dangerous team of cyberwarriors in history: a group known as Sandworm. Working in the service of Russia's military intelligence agency, they represent a persistent, highly skilled force, one whose talents are matched by their willingness to launch broad, unrestrained attacks on the most critical infrastructure of their adversaries. They target government and private sector, military and civilians alike. A chilling, globe-spanning detective story, Sandworm considers the danger this force poses to our national security and stability. As the Kremlin's role in foreign government manipulation comes into greater focus, Sandworm exposes the realities not just of Russia's global digital offensive, but of an era where warfare ceases to be waged on the battlefield. It reveals how the lines between digital and physical conflict, between wartime and peacetime, have begun to blur—with world-shaking implications.

[Trading Down](#) - Stephen Norman 2017-11-08

"Trading Down is a brilliant, fast-paced read that cleverly intertwines the world of high finance and international terror - a realistic possibility in today's world" - James Longman, Foreign Correspondent, ABC News Chris Peters loves his work in a multi-national bank: the excitement of the trading floor, the impossible deadlines and the constant challenge of the superfast computers in his care. And he loves his beautiful wife, Olivia. But over time, the dream turns sour. His systems crash, the traders turn on him, and Olivia becomes angry and disillusioned. So much bad luck. Or is it? A natural detective, Chris finds evidence of something sinister in the mysterious meltdown of a US datacentre. A new kind of terrorist. But can he get anyone to believe him? His obsessive search leads him to a jihadist website, filled with violent images; a man beaten to a pulp in a Dubai carpark; and a woman in a gold sari dancing in the flames of her own destruction. Slowly, a tragic story from decades ago in Yemen emerges. Too late, Chris understands the nature of the treachery, so close to him. His adversary knows every move and is ready to strike. Even his boss agrees: if this program is run, it will destroy this bank as surely as a neutron bomb. And Chris Peters has 48 hours to figure it out... "Trading Down does for bankers what The Charge of the Light Brigade did for horses. It's merciless." Lord Michael Dobbs, Author of *House of Cards* "My wife couldn't get a word out of me till I had finished the book. Now I can't get a word out of her, while she reads it. Brilliant" - Johnny Cameron, ex-Chairman, Global Markets "Trading Down is fast paced, enthralling and grips from the first page to the last. It tells it how it is in the investment banking environment.... constant crisis and fire fighting on multiple fronts" - Clare Cameron "A great, surprising rollercoaster crime-thriller, set inside an investment bank under cyber-attack" - Tanya Andreyasyan, Editor, *Banking Technology*

[Dark Tomorrow](#) - Reece Hirsch 2020-05-12

FBI special agent and cybercrime specialist Lisa Tanchik faces a deadly threat in this white-knuckle thriller. FBI special agent Lisa Tanchik is skilled at handling cyber threats, having recently taken down a Dark Web black market worth billions. But ruthless hacker NatalyaX always seems to be a step ahead. The government calls on Tanchik's expertise when an email attachment causes a fatal seizure at US Cyber

Command. But before she can get her feet under her, the entire East Coast goes dark. A sinister plan is unfolding before her eyes--and no one knows who's behind it. Tanchik plunges into chaos to hunt down the true source of the attacks. Close dealings with shadowy figures both online and off expose her to extraordinary danger as the country teeters on the brink of catastrophe. A soldier on the front line of a cyberwar, Tanchik must nullify the threat before it deals a death blow to America's institutions--and puts millions of lives in jeopardy.

I Spy, I Saw Her Die - Ian Irvine 2016-09-02

Is this the Crime Thriller of the year? In a race against time, it's Ray Luck against the world! When Ray Luck - a top cyber security expert - accidentally stumbles upon a devastating secret while surfing the web, he knows immediately he is in way above his head and soon he is being hunted by both Mossad and the British Security Services. Alone, desperate, with only three days to live, Ray is a man with not one, but several missions: to save the life of his girlfriend who has been kidnapped by the security services; to prevent a terrorist cyber attack destroying London; to save the Middle East peace process; and to bring one of the most powerful men in the world to justice for the savage killing of an apparently innocent woman, a murder certain powerful people in the British Government are determined to cover up at all costs. Only Ray can stop them all. But as the clock starts to tick, he discovers that nothing is as it seems. Who is the real enemy? And who can he trust? Unless he finds out soon, will Ray's luck finally run out? Find out for yourself!

Takedown - Tsutomu Shimomura 1996-12-01

The dramatic true story of the capture of the world's most wanted cyberthief by brilliant computer expert Tsutomu Shimomura, describes Kevin Mitnick's long computer crime spree, which involved millions of dollars in credit card numbers and corporate trade secrets. Reprint. NYT.

Countdown to Zero Day - Kim Zetter 2015-09-01

A top cybersecurity journalist tells the story behind the virus that sabotaged Iran's nuclear efforts and shows how its existence has ushered in a new age of warfare—one in which a digital attack can have the same destructive capability as a megaton bomb. "Immensely enjoyable . . . Zetter turns a complicated and technical cyber story into an engrossing whodunit."—The Washington Post The virus now known as Stuxnet was unlike any other piece of malware built before: Rather than simply hijacking targeted computers or stealing information from them, it proved that a piece of code could escape the digital realm and wreak actual, physical destruction—in this case, on an Iranian nuclear facility. In these pages, journalist Kim Zetter tells the whole story behind the world's first cyberweapon, covering its genesis in the corridors of the White House and its effects in Iran—and telling the spectacular, unlikely tale of the security geeks who managed to unravel a top secret sabotage campaign years in the making. But Countdown to Zero Day also ranges beyond Stuxnet itself, exploring the history of cyberwarfare and its future, showing us what might happen should our infrastructure be targeted by a Stuxnet-style attack, and ultimately, providing a portrait of a world at the edge of a new kind of war.

Rogue Code - Mark Russinovich 2014-05-20

Investigating a possible breach in the New York Stock Exchange, cyber security expert Jeff Aiken discovers that high-ranking officials both knew about the breach and allowed millions to be stolen, a finding that causes Jeff to be violently targeted by powerful enemies who would upend the U.S. economy. 40,000 first printing.

Pattern Recognition - William Gibson 2004-06-24

Pattern Recognition - a pulsating techno-thriller by William Gibson, bestselling author of Neuromancer Cayce Pollard has been flown to London. She's a 'coolhunter' - her services for hire to global corporations desperate for certainty in a capricious and uncertain world. Now she's been offered a special project: track down the makers of the addictive online film that's lighting up the 'net. Hunting the source will take her to Tokyo and Moscow and put her in the sights of Japanese computer crazies and Russian Mafia men. She's up against those who want to control the film, to own it - who figure breaking the law is just another business strategy. The kind of people who relish turning the hunter into the hunted . . . William Gibson is a prophet and a satirist, a black comedian and an outstanding architect of cool. Readers of Neal Stephenson, Ray Bradbury and Iain M. Banks will love this book. Pattern Recognition is the first novel in the Blue Ant trilogy

- read Spook Country and Zero History for more. 'A big novel, full of bold ideas . . . races along like an expert thriller' GQ 'Dangerously hip. Its dialogue and characterization will amaze you. A wonderfully detailed, reckless journey of espionage and lies' USA Today 'A compelling, humane story with a sympathetic heroine searching for meaning and consolation in a post-everything world' Daily Telegraph Idoru is a gripping techno-thriller by William Gibson, bestselling author of Neuromancer 'Fast, witty and cleverly politicized' Guardian

Lights Out - Ted Koppel 2015

"Ted Koppel reveals that a major cyberattack on America's power grid is not only possible but likely--and that it would be devastating" and "examines a threat unique to our time and evaluates potential ways to prepare for a catastrophe"--Book jacket.

Splinter the Bone - Bilinda P. Sheehan 2020-12-10

He knows you're alone... and he wants to be with you. A new elite team is formed in the North Yorkshire police force to tackle the most heinous crimes. When a young girl is found washed up at the base of the cliffs in Whitby, the police suspect human trafficking. Coming off the high of catching a vicious murderer, Drew and Harriet are called on to investigate a series of seemingly unconnected, and random, crimes. One of which Harriet fears bears all the hallmarks of a fledgling serial killer. With Drew fighting the lasting effects of the Star Killer, and Harriet trying to help him reintegrate, this may turn out to be their most challenging case yet.

The Lure - Steve Schroeder 2012

Looks at the sting operation used by the Dept. of Justice to catch Russian hackers who were gaining control of computers and stealing private data from victims in the United States.

The Gomorrah Gambit - Tom Chatfield 2019-07-23

With dark technology hollowing out global privacy, an elite hacker enters the belly of the beast in this "gripping, intelligent, and stylist" international conspiracy thriller (Sophie Hannah, author of Closed Casket). Azi Bello is an amiable outsider with a genius for hacking. Having spent the better part of his life holed up in a shed in his backyard, Azi has become increasingly enmeshed in the dark side of the internet. With the divide between online and offline worlds vanishing, so too is the line between those transforming civilization through technology and those trying to bring it to its knees. Dark networks rule. Someone with the right connections can access to anything imaginable, and power is theirs for the taking--although even they can't know what kind of bargain they've struck. Tipped off by a secretive young woman named Munira, Azi sets out to unravel the mysterious online marketplace known as Gomorrah, sacrificing his carefully constructed privacy in the process. Munira's life is spiraling out of control: her cousins recruited to work for a terrorist state that's hunting them both, her destiny in Azi's hands. Her desperation drags Azi into the field where, working together, the two uncover an unimaginable conspiracy. As pressure mounts, Azi has no choice but to take on the ultimate infiltration. In an age when identities can be switched at will and nobody is who they seem, how far will he go to end the nightmare?

Cyberstorm - Matthew Mather 2013-10-29

In this prescient thriller about an all-too-possible scenario, a man fights to keep his family alive when a cyberworld meltdown and fierce storms cut New York City off from the world. Mike Mitchell is an average New Yorker living in an apartment in Chelsea, struggling to keep his family together. When the Internet goes down, he suddenly finds himself fighting just to keep them alive. The electricity and power supplies fade in and out, and the explanations offered by the authorities are vague and untrustworthy. A string of increasingly bizarre disasters starts appearing on the world's news networks, and a monster snowstorm hits New York City before Christmas. Mike and his close friends and family hunker down in their apartment building for safety, organizing and rationing food and water. Outside, the boundaries between lawful and criminal behaviour break down as resources become scarce. With the threat to their safety growing, Mike and his family pin their hopes on fleeing the city for the countryside. But as the world and cyberworld come crashing down, New York is suddenly cut off, turning the city into a wintry tomb where nothing is what it seems, and where no one can be trusted . . .

Burn-in - P. W. Singer 2020

"An FBI agent teams up with the first police robot to hunt a shadowy terrorist in this gripping

technothriller-and fact-based tour of tomorrow-from the authors of Ghost Fleet"--

Fair Warning - Michael Connelly 2020-05-26

The hero of *The Poet and The Scarecrow* is back in this thriller from #1 New York Times bestselling author Michael Connelly. Jack McEvoy, the journalist who never backs down, tracks a serial killer who has been operating completely under the radar—until now. Veteran reporter Jack McEvoy has taken down killers before, but when a woman he had a one-night stand with is murdered in a particularly brutal way, McEvoy realizes he might be facing a criminal mind unlike any he's ever encountered. Jack investigates—against the warnings of the police and his own editor—and makes a shocking discovery that connects the crime to other mysterious deaths across the country. Undetected by law enforcement, a vicious killer has been hunting women, using genetic data to select and stalk his targets. Uncovering the murkiest corners of the dark web, Jack races to find and protect the last source who can lead him to his quarry. But the killer has already chosen his next target, and he's ready to strike. Terrifying and unputdownable, *Fair Warning* shows once again why "Michael Connelly has earned his place in the pantheon of great crime fiction writers" (Chicago Sun-Times). A Kirkus Best Book of 2020

Total Power - Vince Flynn 2020-09-15

"One of the best thriller writers on the planet." —The Real Book Spy In the next thriller in the #1 New York Times bestselling Mitch Rapp series, it's a race against the clock when ISIS takes out the entire US power grid and throws the country into chaos. When Mitch Rapp captures ISIS's top technology expert, he reveals that he was on his way to meet a man who claims to have the ability to bring down America's power grid. Rapp is determined to eliminate this shadowy figure, but the CIA's trap fails. The Agency is still trying to determine what went wrong when ISIS operatives help this cyber terrorist do what he said he could—plunge the country into darkness. With no concept of how this unprecedented act was accomplished, the task of getting the power back on could take months. Perhaps even years. Rapp and his team embark on a desperate search for the only people who know how to repair the damage—the ones responsible. But his operating environment is like nothing he's experienced before. Computers and communication networks are down, fuel can no longer be pumped from gas stations, water and sanitation systems are on the brink of collapse, and the supply of food is running out. Can Rapp get the lights back on before America descends irretrievably into chaos? This compulsive thriller proves once again that the Mitch Rapp series is "the best of the best when it comes to the world of special ops" (Booklist, starred review).

The Controller - Matt Brolly 2019-12-12

From the bestselling author of the acclaimed DCI Lambert series comes *The Controller*, a gripping serial killer thriller introducing Sam Lynch and Special Agent Sandra Rose. It is six years since special agent Samuel Lynch left the FBI following the disappearance of his son, Daniel. Lynch believes an underground organisation known as The Railroad is responsible and has never stopped searching. When Special Agent Sandra Rose investigates a house invasion gone wrong, she discovers the assailant has the legendary, and infamous, Railroad tattoo carved onto his back and he claims to know Daniel's whereabouts. Rose draws Lynch in to her case, and together they become embroiled in an unparalleled world of violence and evil. It seems that to see his son again, Lynch will have to confront his greatest fear and face the ultimate test: an encounter with the Railroad's enigmatic and deadly leader, The Controller. Praise for Matt Brolly: 'One word for this - riveting. Fast paced, full of twisty goodness, a well-drawn and intriguing main protagonist and a well-constructed and horrifically addictive storyline.' Liz Loves Books 'An extraordinary fast-paced, tense thriller, taking the reader on an suspense filled journey with so many twist and turns it is a stupendous, emotional roller coaster ride!' SplashesIntoBooks 'An action-filled, totally gripping, page turner!' Carol Wyer, author of *Little Girl Lost* 'Action packed, dramatic and addictive...an unputdownable read.' Portobello Book Blog

The Perfect Marriage - Jeneva Rose 2020-07-13

The bestselling thriller with "a tantalizing premise and twists at every turn . . . a sizzling, masterful debut about betrayal and justice" (Samantha M. Bailey, #1 national bestselling author). Optioned by Picture Perfect Federation for development as a film or TV series Sarah Morgan is a successful and powerful defense attorney in Washington D.C. As a named partner at her firm, life is going exactly how she planned. The same cannot be said for her husband, Adam. He's a struggling writer who has had little success in his

career and he tires of his and Sarah's relationship as she is constantly working. Out in the secluded woods, at the couple's lake house, Adam engages in a passionate affair with Kelly Summers. But one morning everything changes. Kelly is found brutally stabbed to death and now, Sarah must take on her hardest case yet, defending her own husband, a man accused of murdering his mistress. *The Perfect Marriage* is a juicy, twisty, and utterly addictive thriller that will keep you turning pages. You won't see the ending coming . . . guaranteed! "A twisty, compulsive book that will keep you reading all night! Fast-paced with crisp writing and an intriguing plot. Jeneva Rose is one to watch." —Samantha Downing, #1 international bestselling author of *My Lovely Wife* "A book to be read in one gulp—this dastardly debut flies to a shocking reveal. I couldn't put it down; I had to see what happened. Twists galore." —J.T. Ellison, New York Times bestselling author of *Her Dark Lies*

Red Notice - Bill Browder 2015-02-03

Freezing Order, the follow-up to *Red Notice*, is available now! "[Red Notice] does for investing in Russia and the former Soviet Union what *Liar's Poker* did for our understanding of Salomon Brothers, Wall Street, and the mortgage-backed securities business in the 1980s. Browder's business saga meshes well with the story of corruption and murder in Vladimir Putin's Russia, making *Red Notice* an early candidate for any list of the year's best books" (Fortune). "Part John Grisham-like thriller, part business and political memoir." —The New York Times This is a story about an accidental activist. Bill Browder started out his adult life as the Wall Street maverick whose instincts led him to Russia just after the breakup of the Soviet Union, where he made his fortune. Along the way he exposed corruption, and when he did, he barely escaped with his life. His Russian lawyer Sergei Magnitsky wasn't so lucky: he ended up in jail, where he was tortured to death. That changed Browder forever. He saw the murderous heart of the Putin regime and has spent the last half decade on a campaign to expose it. Because of that, he became Putin's number one enemy, especially after Browder succeeded in having a law passed in the United States—The Magnitsky Act—that punishes a list of Russians implicated in the lawyer's murder. Putin famously retaliated with a law that bans Americans from adopting Russian orphans. A financial caper, a crime thriller, and a political crusade, *Red Notice* is the story of one man taking on overpowering odds to change the world, and also the story of how, without intending to, he found meaning in his life.

In the Blood - Jack Carr 2022-05-17

"Take my word for it, James Reece is one rowdy motherf***er. Get ready!" —Chris Pratt, star of *The Terminal List*, coming to Amazon Prime The #1 New York Times bestselling *Terminal List* series continues as James Reece embarks on a global journey of vengeance. A woman boards a plane in the African country of Burkina Faso having just completed a targeted assassination for the state of Israel. Two minutes later, her plane is blown out of the sky. Over 6,000 miles away, former Navy SEAL James Reece watches the names and pictures of the victims on cable news. One face triggers a distant memory of a Mossad operative attached to the CIA years earlier in Iraq—a woman with ties to the intelligence services of two nations...a woman Reece thought he would never see again. Reece enlists friends new and old across the globe to track down her killer, unaware that he may be walking into a deadly trap.

Hunted - Monty Marsden 2017-07-01

A gripping thriller full of twists you won't see coming... The next thrilling serial killer read from the author of *MISSING*. Perfect for the fans of Angela Marsons and Jeffrey Deaver. Seven years ago, psychiatrist Dr Claps assisted police in capturing Giacomo Riondino, a man accused of abducting, torturing and murdering two women. On arrest, tests had revealed that Riondino suffered from a rare and disturbing psychiatric condition and was sectioned. Six years later, Riondino is on the run after escaping from a rehabilitation centre, leaving a trail of bloody murders in his wake. It is now a case for expert profiler Dr Claps and Commissioner Sensi to work together to track Riondino down before he kills again. Time is running out and the killer may be much closer than he seems... What readers are saying about *MISSING*: 'A brilliant gripping book I couldn't put down. It's going to be frustrating to wait for the next one!' 'Full of twists and turns, red herrings and an ending I never guessed' 'Kept me reading to the small hours, very enjoyable' 'I am not sure I am sufficiently experienced at reviewing to actually do this book justice, it was brilliant'

The Motion Clue - Case Lane 2014-04-30

In the next century, The Network manages all human activity by linking camera, sensor and satellite

surveillance to online personal data. But when an undetectable civilian drone blows up an energy plant, humans face the horror of an unprecedented global criminal investigation into the digital system they thought was the front line in cyber defense.

[All Systems Down](#) - Sam Boush 2018-02-08

One day. That's how long it takes for the cyber war to bring everything crashing down. Twenty-four hours of banks closing, phones dying, and satellites falling to earth. Brendan Chogan isn't a hero. He's an out-of-work parking enforcement officer and one-time collegiate boxer trying to support his family. But with a foreign enemy on the shore, a blackout that extends across the country, and an unseen menace targeting him, Brendan must do whatever it takes to keep his wife and children safe.

Cold Secrets - Toni Anderson 2017-01-31

A Cold Dark Place: Cold Justice Series

A Novel of the Next World War 2034 - Elliot ACKERMAN 2021-03-27

From two former military officers and award-winning authors, a chillingly authentic geopolitical thriller that imagines a naval clash between the US and China in the South China Sea in 2034--and the path from there to a nightmarish global conflagration. On March 12, 2034, US Navy Commodore Sarah Hunt is on the bridge of her flagship, the guided missile destroyer USS John Paul Jones, conducting a routine freedom of navigation patrol in the South China Sea when her ship detects an unflagged trawler in clear distress, smoke billowing from its bridge. On that same day, US Marine aviator Major Chris "Wedge" Mitchell is flying an F35E Lightning over the Strait of Hormuz, testing a new stealth technology as he flirts with Iranian airspace. By the end of that day, Wedge will be an Iranian prisoner, and Sarah Hunt's destroyer will lie at the bottom of the sea, sunk by the Chinese Navy. Iran and China have clearly coordinated their moves, which involve the use of powerful new forms of cyber weaponry that render US ships and planes defenseless. In a single day, America's faith in its military's strategic pre-eminence is in tatters. A new, terrifying era is at hand. So begins a disturbingly plausible work of speculative fiction, co-authored by an award-winning novelist and decorated Marine veteran and the former commander of NATO, a legendary admiral who has spent much of his career strategically outmaneuvering America's most tenacious adversaries. Written with a powerful blend of geopolitical sophistication and human empathy, 2034 takes us inside the minds of a global cast of characters--Americans, Chinese, Iranians, Russians, Indians--as a series of arrogant miscalculations on all sides leads the world into an intensifying international storm. In the end, China and the United States will have paid a staggering cost, one that forever alters the global balance of power. Everything in 2034 is an imaginative extrapolation from present-day facts on the ground combined with the authors' years working at the highest and most classified levels of national security. Sometimes it takes a brilliant work of fiction to illuminate the most dire of warnings: 2034 is all too close at hand, and this cautionary tale presents the reader a dark yet possible future that we must do all we can to avoid.

[Trojan Horse](#) - Mark Russinovich 2012-09-04

It's two years after the Zero Day attacks, and cyber-security analyst Jeff Aiken is reaping the rewards for crippling Al-Qaida's assault on the computer infrastructure of the Western world. His company is flourishing, and his relationship with former government agent Daryl Haugen has intensified since she became a part of his team. But the West is under its greatest threat yet. A revolutionary, invisible trojan that alters data without leaving a trace--more sophisticated than any virus seen before--has been identified, roiling international politics. Jeff and Daryl are summoned to root it out and discover its source. As the trojan penetrates Western intelligence, and the terrifying truth about its creator is revealed, Jeff and Daryl find themselves in a desperate race to reverse it as the fate of both East and West hangs in the balance. A thrilling suspense story and a sober warning from one of the world's leading experts on cyber-security, Trojan Horse exposes the already widespread use of international cyber-espionage as a powerful and dangerous weapon, and the lengths to which one man will go to stop it.

A Cursed Place - Peter Hanington 2021-07-08

ONE OF 40 BOOKS FOR SUMMER 'gripping' - iNews 'A panoramic thriller ...chockful of vivid characters.' - THE SUNDAY TIMES 'An intriguing, timely and unsettling new thriller' - SAM BOURNE 'Exhilarating and

beautiful' - AMOL RAJAN 'Catapults you from first word to last... pacy, sinister and timely read.' - ALAN JUDD 'Another page-turner from a writer who can take you into gripping worlds, real and virtual.' MISHAL HUSAIN 'A terrific thriller - vivid, quick-witted and dynamic, crackling with energy, dread and rage as it crosses continents and digs down into the human heart.' - NICCI GERRARD 'The dark world of private cyber-surveillance crackles off the page - full of jeopardy and suspense.' - ALLAN LITTLE 'A vividly written thriller of ruthless tech entrepreneurs exploiting their surveillance powers and morally compromised journalists feeling their way in the dark towards the truth.' - RORY CELLAN-JONES 'Carver is a marvellous creation.' - MIKE RIPLEY, SHOTS MAG KNOWLEDGE IS POWER. AND THEY KNOW EVERYTHING. The tech company Public Square believes in 'doing well by doing good'. It's built a multi-billion dollar business on this philosophy and by getting to know what people want. They know a lot. But who else can access all that information and what are they planning to do with it? Reporter William Carver is an analogue man in a digital world. He isn't the most tech-savvy reporter, he's definitely old school, but he needs to learn fast - the people he cares most about are in harm's way. From the Chilean mines where they dig for raw materials that enable the tech revolution, to the streets of Hong Kong where anti-government protesters are fighting against the Chinese State, to the shiny research laboratories of Silicon Valley where personal data is being mined everyday - A Cursed Place is a gripping thriller set against the global forces that shape our times. 'A true page turner - highly recommended'. TORTOISE

The Quantum Spy: A Thriller - David Ignatius 2017-11-07

"The Quantum Spy takes us to a whole new level of intrigue and espionage. It's also unbelievably timely. In short: David Ignatius knows his stuff." —Wolf Blitzer A hyper-fast quantum computer is the digital equivalent of a nuclear bomb; whoever possesses one will be able to shred any encryption and break any code in existence. The question is: who will build one first, the U.S. or China? In this gripping thriller, U.S. quantum research labs are compromised by a suspected Chinese informant, inciting a mole hunt of history-altering proportions. CIA officer Harris Chang leads the charge, pursuing his target from Singapore to Mexico and beyond. Do the leaks expose real secrets, or are they false trails meant to deceive the Chinese? The answer forces Chang to question everything he thought he knew about loyalty, morality, and the primacy of truth.

Trading Reality - Michael Ridpath 2000-01

The author of the international bestseller *Free to Trade* sets his new thriller in the world of virtual reality, amidst conspiracies, murder, and hostile takeover threats. While investigating the murder of his brother, Richard, Mark Fairfax comes across a plot by competing companies to take over Richard's breakthrough VR company.

The Probable Cause - Case Lane 2016-11-02

The world's last known thinkers are back in the third installment of Case Lane's gripping next century cyber thriller series, *Life Online*. The world's most hated man walks out of a U.S. federal prison and disappears. The omnipresent global surveillance cyber Network designed to keep him imprisoned...thinks he is supposed to be free. Humans will have to use last century tactics in a next century world to stop a horrific tragedy. Will the world be able to respond before it's too late? In an earth crossing investigation, global intelligence agents and a cohort of rogue technologists struggle to find common ground in the deadly chase to stop a determined criminal from unleashing the next level of cyber terrorism against a shocked and paralyzed world. Global Cyber Security diplomat Kadie Laltanca and her experienced team at Special Command chase clues from exotic Morocco to southern Italy to the shores of the Black Sea - confronting uncooperative colleagues, hostile locals and criminal technologists aligning on either side of the war for humanity's soul. Will they discover his victims before he can unleash his plan? Or this time, is technology out of the game? *The Probable Cause* is Book Three in the *Life Online* book series of speculative science fiction techno thrillers. Challenge your convictions about the parameters for right and wrong with this future fiction novel about one man's ability to galvanize thousands to join his hate movement, while using the most advanced technology tools of the next century to execute an ancient revenge. Exciting bonus content just inside the front cover: Listen to the *FREE Prologue Podcast* - a news report from the future - and feel the chill of Rafer Acton's deadly revenge before you get to the first page...
