Stolen Daughters, Virgin Mothers - Susan Mumm 2001-05-01

A study of the social history and cultural significance of the sisterhoods that sprang up in Victorian Britain, examining the lives of women who pushed the boundaries of what women could do within the Anglican Church and paved the way for modern social workers. So successful were they in organizing and recruiting that they threatened to undermine the ideal of domestic life for women.

Queen Victoria's Matchmaking - Deborah Cadbury 2017-11-14

A captivating exploration of the role in which Queen Victoria exerted the most international power and influence: as a matchmaking grandmother. As her reign approached its sixth decade, Queen Victoria's grandchildren numbered over thirty, and to maintain and increase British royal power, she was determined to maneuver them into a series of

dynastic marriages with the royal houses of Europe. Yet for all their apparent obedience, her grandchildren often had plans of their own, fueled by strong wills and romantic hearts. Victoria's matchmaking plans were further complicated by the tumultuous international upheavals of the time: revolution and war were in the air, and kings and queens, princes and princesses were vulnerable targets. Queen Victoria's Matchmaking travels through the glittering, decadent palaces of Europe from London to Saint Petersburg, weaving in scandals, political machinations and family tensions to enthralling effect. It is at once an intimate portrait of a royal family and an examination of the conflict caused by the marriages the Queen arranged. At the heart of it all is Victoria herself: doting grandmother one moment, determined Queen Empress the next. **Louis XIV, and the Court of France in the Seventeenth Century** - Julia Pardoe 1847

An American Triptych - Wendy Martin 2016-09-01

Anne Bradstreet, Emily Dickinson, and Adrienne Rich share nationality, gender, and an aesthetic tradition, but each expresses these experiences in the context of her own historical moment. Puritanism imposed stringent demands on Bradstreet, romanticism both inspired and restricted Dickinson, and feminism challenged as well as liberated Rich. Nevertheless, each poet succeeded in forming a personal vision that counters traditional male poetics. Their poetry celebrates daily life, demonstrates their commitment to nurturance rather than

dominance, shows their resistance to the control of both their earthly and heavenly fathers, and affirms their experience in a world that has often denied women a voice. Wendy Martin recreates the textures of these women's lives, showing how they parallel the shifts in the status of American women from private companion to participant in a wider public life. The three portraits examine in detail the life and work of the Puritan wife of a colonial magistrate, the white-robed, reclusive New England seer, and the modern feminist and lesbian activist. Their poetry, Martin argues, tells us much about the evolution of feminist and patriarchal perspectives, from Bradstreet's resigned acceptance of traditional religion, to Dickinson's private rebellion, to Rich's public criticism of traditional masculine culture. Together, these portraits compose the panels of an American triptych. Beyond the dramatic contrasts between the Puritan and feminist vision, Martin finds striking parallels in form. An ideal of a new world, whether it be the city on the hill or a supportive community of women, inspires both. Like the commonwealth of saints, this concept of a female collectivity, which all three poets embrace, is a profoundly political phenomenon based on a pattern of protest and reform that is deeply rooted in American life. Martin suggests that, through their belief in regeneration and renewal, Bradstreet, Dickinson, and Rich are part of a larger political as well as literary tradition. An American Triptych both enhances our understanding of the poets' work as part of the web of American experience and suggests the outlines of an American female poetic.

Everyday Violence in Britain, 1850-1950 - Shani D'Cruze 2014-07-30

The diverse violence of modern Britain is hardly new. The Britain of 1850 to 1950 was similarly afflicted. The book is divided into four parts. 'Getting Hurt' which looks at everyday violence in the home (including a chapter on infanticide). 'Uses and Rejections' two chapters on the use of violence within groups of men and women outside the home (for example, violence within youth gangs, and male violence centred around pubs). 'Going Public' three chapters on how violence was regulated by law and the professional agencies which were set up to deal with it. 'Perceptions and Representations' this final section looks at how violence was written about, using both fiction and non-fiction sources. Throughout the book the recurring themes of gender, class, continuity and change, public/private, and experience, discourses and representations are highlighted.

The Indian Ladies' Magazine, 1901-1938 - Deborah Anna Logan 2017-07-12

This book examines the varied influences and accomplishments of the Indian Ladies' Magazine, the first Indian magazine established and edited by an Indian woman—Kamala Saththianadhan—in English, written by women, for women. This publication recorded and participated in the most pivotal moment in modern Indian history and did so by appealing to both the conservative and progressive socio-political urges marking the era.

Lives of Victorian Political Figures III -

Walter L. Arnstein 2008

This four-volume set brings alive through the eyes of their contemporaries four of the key players in the independence and labour movements of the 19th century. The authors have drawn together journals, diaries, pamphlets, correspondence, and other ephemeral literature to show clearly what people thought of these figures at the time.

War without Bodies - Martin Danahay

2022-03-18

Historically the bodies of civilians are the most damaged by the increasing mechanization and derealization of warfare, but this is not reflected in the representation of violence in popular media. In *War Without Bodies*, author Martin Danahay argues that the media in the United States in particular constructs a “war without bodies” in which neither the corpses of soldiers or civilians are shown. *War Without Bodies* traces the intertwining of new communications technologies and war from the Crimean War, when Roger Fenton took the first photographs of the British army and William Howard Russell used the telegraph to transmit his dispatches, to the first of three “video wars” in the Gulf region in 1990-91, within the context of a war culture that made the costs of organized violence acceptable to a wider public. New modes of communication have paradoxically not made more war “real” but made it more ubiquitous and at the same time unremarkable as bodies are erased from coverage. Media such as photography and instantaneous video initially seemed to promise more realism but were assimilated into existing conventions that implicitly justified war. These new representations of war were framed in a way that erased the human cost of violence and replaced it with images that defused opposition to warfare. Analyzing poetry, photographs, video and video games the book illustrates the ways in which war was framed in these different historical contexts. It examines the cultural assumptions that influenced the reception of images of war and discusses how death and damage to bodies was made acceptable to the public. *War Without Bodies* aims to heighten awareness of how acceptance of war is coded into texts and how active resistance to such

hidden messages can help prevent future unnecessary wars.

Latin American Women and the Search for Social Justice - Francesca Miller 1991

A clear and detailed study of Latin American women’s history from the late nineteenth century to the present.

Children's Literature and British Identity -

Rebecca Knuth 2012

Children's Literature and British Identity: Imagining a People and a Nation is the story of the development of English children's literature, focusing on how stories inspire children to adhere to the values of society. Such English authors as Lewis Carroll, J.R.R. Tolkien, and J.K. Rowling have entertained, inspired, confronted social wrongs, and transmitted cultural values—functions previously associated with folklore. Their stories form a new folklore tradition that grounds personal identity, provides social glue, and supports a love of England and English values. This book examines how this tradition came to fruition.

The Sheen on the Silk - Anne Perry 2010

Anna Zarides arrives in Constantinople in 1273 to prove the innocence of her twin brother Justinian, who has been exiled for conspiring to kill a nobleman. Disguising herself as a eunuch named Anastasius, Anna moves freely, using her skills as a physician to get close to key players in her brother's fate. Then she meets Giuliano Dandolo, a ship's captain conflicted not only by his own mixed heritage, but by his growing feelings for Anastasius.

The Man who was Rip Van Winkle - Benjamin McArthur 2007-01-01

The most beloved American comedic actor of the nineteenth century, Joseph Jefferson made his name as Washington Irving's Rip Van Winkle. In this book, a compelling blend of biography and theatrical and cultural history, Benjamin McArthur chronicles Jefferson's remarkable career and offers a lively and original account of the heroic age of the American theatre. Joe Jefferson's entire life was spent on the stage, from the age of Jackson to the dawn of motion pictures. He extensively toured the United States as well as Australia and Great Britain. An ever-successful career (including acclaim as painter and memoirist) put him in the company of the great actors, artists, and writers of the

day, including Edwin Forrest, Edwin Booth, John Singer Sargent, and William Dean Howells. This book rescues a brilliant figure and places him, appropriately enough, on center stage of a pivotal time for American theatre. McArthur explores the personalities of the period, the changing theatrical styles and their audiences, the touring life, and the wide and varied culture of theatre. Through the life of Jefferson, McArthur is able to illuminate an era.

Modernism and the Theater of Censorship - Adam Parkes 1996-02-22

Adam Parkes investigates the literary and cultural implications of the censorship encountered by several modern novelists in the early twentieth century. He situates modernism in the context of this censorship, examining the relations between such authors as D.H. Lawrence, James Joyce, Radclyffe Hall, and Virginia Woolf and the public controversies generated by their fictional explorations of modern sexual themes. These authors located "obscenity" at the level of stylistic and formal experiment. The Rainbow, Lady Chatterley's Lover, Ulysses, and Orlando dramatized problems of sexuality and expression in ways that subverted the moral, political, and aesthetic premises on which their censors operated. In showing how modernism evolved within a culture of censorship, Modernism and the Theater of Censorship suggests that modern novelists, while shaped by their culture, attempted to reshape it.

The Impact of Victorian Children's Fiction - J. S. Bratton 2015-09-07

Originally published in 1981. Many of the classics of children's literature were produced in the Victorian period. But Alice in Wonderland and The King of the Golden River were not the books offered to the majority of children of the time. When writing for children began to be taken seriously, it was not as an art, but as an instrument of moral suasion, practical instruction, Christian propaganda or social control. This book describes and evaluates this body of literature. It places the books in the economic and social contexts of their writing and publication, and considers many of the most prolific writers in detail. It deals with the stories intended to teach the newly-literate poor their social and religious lessons: sensational

romances, tales of adventure and military glory, through which the boys were taught the value of self-help and inspired with the ideals of empire; and domestic novels, intended to offer girls a model for the expression of heroism and aspiration within the restricted Victorian woman's world.

The Politics of Innovation - Mark Zachary Taylor 2016-05-04

Why are some countries better than others at science and technology (S&T)? Written in an approachable style, The Politics of Innovation provides readers from all backgrounds and levels of expertise a comprehensive introduction to the debates over national S&T competitiveness. It synthesizes over fifty years of theory and research on national innovation rates, bringing together the current political and economic wisdom, and latest findings, about how nations become S&T leaders. Many experts mistakenly believe that domestic institutions and policies determine national innovation rates. However, after decades of research, there is still no agreement on precisely how this happens, exactly which institutions matter, and little aggregate evidence has been produced to support any particular explanation. Yet, despite these problems, a core faith in a relationship between domestic institutions and national innovation rates remains widely held and little challenged. The Politics of Innovation confronts head-on this contradiction between theory, evidence, and the popularity of the institutions-innovation hypothesis. It presents extensive evidence to show that domestic institutions and policies do not determine innovation rates. Instead, it argues that social networks are as important as institutions in determining national innovation rates. The Politics of Innovation also introduces a new theory of "creative insecurity" which explains how institutions, policies, and networks are all subservient to politics. It argues that, ultimately, each country's balance of domestic rivalries vs. external threats, and the ensuing political fights, are what drive S&T competitiveness. In making its case, The Politics of Innovation draws upon statistical analysis and comparative case studies of the United States, Japan, South Korea, China, Taiwan, Thailand,

the Philippines, Argentina, Brazil, Mexico, Canada, Turkey, Israel, Russia and a dozen countries across Western Europe.

The Unsexed Mind and Psychological

Androgyny, 1790-1848 - Victoria F. Russell 2021

This book seeks to redefine the radical debate on gender in England between the 1790s and

1840s, examining the little-studied concept of psychological androgyny or the unsexed mind.

Perceived often as a literary and aesthetic motif popular in Romantic poetry, this book examines the revival and use of this egalitarian concept on the radical margins of Protestant non-

conformism. Inspired by an ethos of perfectibility, a close-knit community of writers,

educationalists, ministers, and scientists, called for a revolution in the human mind. German-led

advances in science pointed not to essential sexed differences but to naturally occurring androgynies, encouraging renewed interest in ancient mythical and biblical tales of androgyny.

New practices were introduced into private homes and classrooms. Gender-neutral

curriculums and texts books, mixed-sex classrooms, the promotion of androgynous

domesticity and the rejection of female vows of obedience, were just a few practices designed to

undermine arbitrary and discriminatory cultures of patriarchy. Victoria F. Russell is a Leverhulme

Early Career Fellow at Keele University, UK.

Challenging the Legacies of Racial Resentment - Tiffany Willoughby-Herard 2017-07-05

Domestic and international health activism and health policy are focal points in this volume, a

publication of the National Conference of Black Political Scientists. This work demonstrates the

continuing importance of the "medical civil rights movement," through examples of activism

of women of colour in AIDS service

organizations, of their health issues, and of the struggle for racial equity in health care in

Brazil. Spikes in police and vigilante violence, as well as fear of a reversion to resegregated

schools have brought a new urgency to black political activism. The contributors explore the

effect of race on American attitudes toward immigration policy and reform, black state

legislators and American morality politics, the historically disproportionate influence of

Southern whites in American politics, and the undermining of school desegregation laws with

"nullification" strategies. The volume's Trends section features conversations on the

#BlackLivesMatter movement in Los Angeles, the 2016 presidential election, and examines the

teaching of the Trayvon Martin story at the

University of California, Irvine. The volume also

includes a diverse selection of book reviews.

Anna Sewell's Black Beauty - Cathy East 2009-06-25

Black Beauty, published in 1877 and set in Victorian London, was Anna Sewell's only novel.

Yet it has remained a classic for 140 years. Now the beloved story of *Black Beauty* is retold for

beginning readers with full-color illustrations on every page.

Beautiful Boredom - Lee Anna Maynard 2009-10-21

This volume explores boredom as a possible

force for good in the Victorian novel. In

Charlotte Brontë's *Jane Eyre* (1847), George

Eliot's *Middlemarch* (1871-72), and Henry

James's *The Portrait of a Lady* (1881), boredom

is an important means through which female

characters are able to achieve a greater sense of

self-awareness. In her discussion of these works, the author examines both the deleterious and

restorative aspects of boredom and shows how this subtle theme has continued to be used by

more modern authors.

The Victorian Baby in Print - Tamara S. Wagner 2020-05-28

The first study to focus exclusively on the baby

in nineteenth-century literature and culture.

Drawing on novels by writers such as Charles

Dickens, Wilkie Collins, Mary Elizabeth Braddon,

as well as parenting magazines and manuals, it

analyses how representations of infancy shaped

an iconography that has defined the Victorian

age.

Women and the Vote - Jad Adams 2014-09-18

Before 1893 no woman anywhere in the world

had the vote in a national election. A hundred

years later almost all countries had enfranchised

women, and it was a sign of backwardness not to have done so. This is the story of how this momentous change came about. The first genuinely global history of women and the vote, it takes the story of women in politics from the earliest times to the present day, revealing startling new connections across time and national boundaries - from Europe and North America to Asia, Africa, Latin America, and the Muslim world post-9/11. A story of individuals as well as of wider movements, it includes the often dramatic life-stories of women's suffrage pioneers from across the world, painting vivid biographical portraits of everyone from Susan B. Anthony and the Pankhursts to hitherto lesser-known activists in China, Latin America, and Africa. It is also the first major post-feminist history of women's struggle for the vote. Controversially, Jad Adams rejects the widely accepted idea that success was primarily a result of the pressure group politics of the suffragists and their supporters. Ultimately, he argues, it was nationalism, not feminism, that was the most important factor in winning women the vote.

The Political Lives of Victorian Animals - Anna Feuerstein 2019-07-04

Examines how liberal thought influenced representations of animals within nineteenth-century animal welfare discourse and the Victorian novel.

Explorations in Film Theory - Ron Burnett 1991

Victorian Literature and the Anorexic Body - Anna Krugovoy Silver 2002-08-08

Anna Krugovoy Silver examines the ways nineteenth-century British writers used physical states of the female body - hunger, appetite, fat and slenderness - in the creation of female characters. Silver argues that anorexia nervosa, first diagnosed in 1873, serves as a paradigm for the cultural ideal of middle-class womanhood in Victorian Britain. In addition, Silver relates these literary expressions to the representation of women's bodies in the conduct books, beauty manuals and other non-fiction prose of the period, contending that women 'performed' their gender and class alliances through the slender body. Silver discusses a wide range of writers including Charlotte Brontë, Christina Rossetti,

Charles Dickens, Alfred Lord Tennyson, Bram Stoker and Lewis Carroll to show that mainstream models of middle-class Victorian womanhood share important qualities with the beliefs or behaviours of the anorexic girl or woman.

Women at Work in the Victorian Novel - Bronwyn Rivers 2005

By examining the way that novels influenced and were influenced by the domestic ideology of womanhood, this book demonstrates how Victorian novels contributed to the imaginative and ideological changes of that important aspect of female emancipation, women's work.

The Broadview Anthology of British Literature: Concise Volume B - Second Edition - Joseph Black 2013-08-20

In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the

worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and contextual materials. Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. The two-volume Broadview Anthology of British Literature: Concise Edition provides an attractive alternative to the full six-volume anthology. Though much more compact, the Concise Edition nevertheless provides instructors with substantial choice, offering both a strong selection of canonical authors and a sampling of lesser-known works. With an unparalleled number of illustrations and contextual materials, accessible and engaging introductions, and full explanatory annotations, this edition of the acclaimed Broadview Anthology provides concise yet wide-ranging coverage for British literature survey courses. Sylvia Townsend Warner, Stevie Smith, J.M. Coetzee, Eavan Boland, and Zadie Smith are among those given full author entries for the first time. There are also new selections by a number of authors who were already included in the anthology—among them Seamus Heaney, Margaret Atwood, and Carol Ann Duffy. There are new contextual materials as well—including material on “The Natural, the Supernatural, and

the Sublime” in the Age of Romanticism section, and material on “The New Art of Photography” in The Victorian Era. The new edition concludes with a new section offering a range of poetry, fiction, and non-fiction prose under the heading “Literature, Politics, and Cultural Identity in the Late Twentieth- and Early Twenty-first Centuries.” The Concise edition will also now include a substantial website component, providing for much greater flexibility. And an increasing number of works from the full six-volume anthology (or from its website component) are being made available in stand-alone Broadview Anthology of British Literature editions. (Tennyson’s In Memoriam, for example, which was previously included in these pages, will now be available both as part of a stand-alone Broadview Anthology of British Literature edition of Tennyson’s selected poetry and as part of the website component of the anthology’s Concise Edition.)

Literature and the Politics of Post-Victorian Decadence - Kristin Mahoney 2015-06-09

In *Literature and the Politics of Post-Victorian Decadence*, Kristin Mahoney argues that the early twentieth century was a period in which the specters of the *fin de siècle* exercised a remarkable draw on the modern cultural imagination and troubled emergent avant-gardistes. These authors and artists refused to assimilate to the aesthetic and political ethos of the era, representing themselves instead as time travelers from the previous century for whom twentieth-century modernity was both baffling and disappointing. However, they did not turn entirely from the modern moment, but rather relied on decadent strategies to participate in conversations concerning the most highly-vexed issues of the period including war, the rise of the Labour Party, the question of women's sexual freedom, and changing conceptions of sexual and gender identities.
