Omega Canyon - Dan Simmons 2020-01-01

A thrilling tale of a scientist turned Nazi spy informing on America's nuclear war program. The location and mission of Omega Canyon were top secret. During World War II, it served as the most restricted area on the Los Alamos atomic-bomb research and testing grounds. Paul Haber was a physicist banished by the Nazi party during the war. Like many academics in Germany, he came to America to help with the war effort and to avenge the loss of his wife and child to a Nazi concentration camp. But after being approached by a German spy, he is presented with proof that his family is alive. And to keep them so he must become a spy for the Nazis and betray the country that has given him asylum and purpose. OMEGA CANYON is America's greatest war fear realized: The Los Alamos project was compromised and someone was sneaking valuable information to Nazi Germany. The race for the nuclear bomb is heating up, and Paul has to decide between the family he loves and the country who has saved his life.

The Omega Theory - Mark Alpert 2011-02-15

"T he wolf shall dwell with the lamb, and the leopard shall lie down with the kid. And a child shall lead them." She smiled. "That's you, Michael. That's why Brother Cyrus needs you. You're going to help us fulfill the prophecy." The Omega Theory opens with media reports that, despite U.S. warnings, Iran has tested a nuclear bomb. But the blast from the device is different and far more dangerous than that of any previous nuclear weapon. Surveillance instruments show that for one split second an event occurred that had not taken place since the Big Bang fourteen billion years ago. Meanwhile, science historian David Swift and quantum physicist Monique Reynolds learn that their autistic son, Michael, has been kidnapped by a militant cult called the True Believers. Michael, a descendant of Albert Einstein, has inherited Einstein's remarkable intelligence and is the only person in the world who knows Einstein's last secret—the Final Theory, a set of equations that could explain all the forces of nature. Only those who understand the key to creation could know how to destroy it. The Iranian nuclear blast is a demonstration of this understanding. Soon David and Monique realize their desperate search for Michael is also a desperate race to stop the horrific power of the theory from being unleashed. Joining forces with FBI Agent Lucille Parker, David and Monique race from the Old City of Jerusalem to the deserts of Turkmenistan to rescue Michael and stop the cult's fanatic leader. Their journey proves just how difficult it is to stop those who are willing to die in the name of God. Praised by bestselling peers such as Douglas Preston and James Rollins, Mark Alpert shows he is at the top of his writing game and the cutting edge of science, seamlessly weaving fact and fiction with nonstop heart-pounding action in this explosive thriller. We will never see our universe in quite the same way again.

In this powerful entry in the #1 New York Times bestselling series, Mercy Thompson must face a deadly enemy to defend all she loves... My name is Mercedes Athena Thompson Hauptman, and I am a car mechanic. And a coyote shapeshifter. And the mate of the Alpha of the Columbia Basin werewolf pack. Even so, none of that would have gotten me into trouble if, a few months ago, I hadn't stood upon a bridge and taken responsibility for the safety of the citizens who lived in our territory. It seemed like the thing to do at the time. It should have only involved hunting down killer goblins, zombie goats, and an occasional troll. Instead, our home was viewed as neutral ground, a place where humans would feel safe to come and treat with the fae. The reality is that nothing and no one is safe. As generals and politicians face off with the Gray Lords of the fae, a storm is coming and her name is Death. But we are pack, and we have given our word. We will die to keep it.

Omega's Trust - Jill Haven 2019-07-19

Abduction is such a loaded word. I prefer to think of it as a rescue, instead. Ever since we found the first sacred omega to be born in centuries, I've had my network across the country on the lookout for others - men who hold the key to saving the dragon race. And they've delivered. There's just one problem: the omega, Lucas, is not only located in the territory held by the dangerous dragon known as Calavastrix the Storm, he works for him, too. Taking Lucas out from underneath Calavastrix's nose is a recipe for disaster - but it just might save Lucas from a fate worse than death. There's no time to explain. I'll have to spirit him away. But with dragon hunters hot on our heels and Calavastrix certain to follow closely behind us, can I coax Lucas into trusting me long enough to save his life? Omega's Trust is the second book in the epic Guardian Dragons series. With rich worldbuilding and a scorching love story, this novel contains mpreg and a satisfying happily ever after. While Omega's Trust can be read as a standalone story, it is best read as second in its series.

It would stop NATO and the Americans in their tracks. A Biological Chernobyl. Strong enough to win a war. Washington DC, USA A mysterious vial, sealed in a titanium case, arrived at CIA headquarters. War Against the Mafia - Don Pendleton 2014-12-16

The first book in the classic vigilante action series from a "writer who spawned a genre" (The New York Times). Overseas, Mack Bolan was dubbed "Sgt. Mercy" for the compassion he showed the innocent. On the home front, they're calling him the Executioner for what he's doing to the guilty. In the jungles of Southeast Asia, American sniper Mack Bolan honed his skills. After twelve years, with ninety-five confirmed hits, he returns home to Massachusetts. But it's not to reunite with his family, it's to bury them—victims in a mass murder/suicide. Even though Bolan's

own father pulled the trigger, he knows the old man was no killer. He was driven to madness by Mafia thugs who have turned his idyllic hometown into a new kind of war zone. Duty calls . . . Introducing an action hero "who would make Jack Reacher think twice," this is the first book in the iconic series of vigilante justice that has become a publishing phenomenon (Empireonline.com). With more than two hundred million Executioner books sold since its debut, the series continues to stimulate. Gerry Conway, cocreator of Marvel Comics' The Punisher, credits the Executioner as "my inspiration . . . that's what gave me the idea for the lone, slightly psychotic avenger." The series is also now in development as a major motion picture. War Against the Mafia is the 1st book in the Executioner series, but you may enjoy reading the series in any order.

Nevaeah - The Lost City of Nemea - Sidney St James 2020-05-22

NEVAEH - THE LOST CITY OF NEMEA OMEGA CHRONICLES - BOOK 2 "If you were to destroy the belief in immortality in mankind, not only love but every living force on which the continuation of all life in the world depends, would dry up at once." - Fyodor Dostoevsky Many people believe that being immortal is a bliss, something that is priceless... something that one would do next to anything for. Would it be a bliss to live long enough to see all your loved ones perish? To wander around the world in loneliness, for every friend you ever made have run out of time to spend with you? Personally, I think not! It's not a bliss. If anything, it's a downright curse. This story about the lost city of Nemea is a subgenre of the fantasy or science fiction genres that involves the discovery of an unknown world out of time and place. The second novel in the Omega

Chronicles series is also a subgenre of the late Victorian adventure romance. This story has a similar theme to other mythical kingdoms, The Lost City of Altinova in Book 1 and others, such as Atlantis and El Dorado. Lucas Petersen, a professor at the University of Texas, is resting quietly in his apartment on Guadalupe Street near the main campus. There's a knock at his door that surprised him. He is visited by Tommy Hansen, a good friend. With him, he brought a steel box, sat it down at his friend's table, and explained his unusual request, including the fact that he was soon to die. Part of the request was that the contents of the box couldn't be disclosed for twenty years. Later that day, Lucas received a message that his good friend did in fact die the same night, after visiting with him. At that time, he adopted his friend's five-year old son and waited over twenty years to open the steel box. After twenty years, Lucas and his adopted son read of the quest they must follow into the darkest of jungles in Peru, a place more than one thousand miles northeast of Lima. As they journeyed, the men encountered a most terrible storm, a river full of crocodiles, never-ending mosquitos, seven-foot-tall savages, huge Anaconda snakes, cannibals, and last but not least, Queen Nevaeh herself. Just before reaching the end of their quest,

the adventurers found a never-ending city, breathtakingly beautiful with old Greek architecture. The patterns of the roadways and the buildings were geometrical to the very last brick. The statues of Gods and Goddesses were perfect. The stone lions appeared ready to spring off their perches at any second. In the center of the Lost City of Nemea was the next to last step for the adventurers before pressing on towards their final destination, the Pillar of Life.
