Changemakers - Adam Arvidsson 2019-10-15

This book argues that, as industrial capitalism enters a period of prolonged crisis, a new paradigm of 'industrious modernity' is emerging. Based on small-scale, commons-based and market-oriented entrepreneurship, this industrious modernity is being pioneered by the many outcasts that no longer find a place within a crumbling industrial modernity. This new industriousness draws on the new planetary commons that have been generated by the globalization of industrial capitalism itself. The outsourcing of material production to global supply chains has made the skills necessary to engage in commodity production generic and common, and the globalization of media culture and the internet have generated new knowledge commons. Together these new commons have radically reduced the capital requirements to engage in economic activity, and are providing new, highly efficient tools of productive organization at little cost. This timely analysis of the new forces of change in our societies today will be of great interest to anyone concerned with the impact of digital technologies and the future of capitalism.

Inventing the Enemy - Umberto Eco 2012-09-06

The final collection of essays from the internationally acclaimed and bestselling author of *The Name of the Rose* and *The Prague Cemetery*, on the subjects of art and culture. In this collection of essays we find Umberto Eco's perennial areas of interest explored in a lively and engaging style, accompanied by beautiful reproductions of the art he discusses. In these wide-ranging pieces he explores the roots of our civilization, changing ideas of beauty, our obsession with conspiracies and the emblematic heroes of the great narrative, amongst other fascinating topics. Umberto Eco was one of the most influential, and entertaining, intellectuals of the last century, as well as being a critically acclaimed and bestselling writer of both fiction and non-fiction.

The Hanoverian Dimension in British History, 1714-1837 - Brendan Simms 2007-02-08

For more than 120 years (1714-1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.

The Misbegotten Son - Jack Olsen 2020-05-28

Little Artie Shawcross bullied classmates, insulted teachers, started fires, tortured animals, and roved the woods of New York's hardscrabble North Country with imaginary friends, talking in a high squawk. He also scored top grades, excelled in sports and shared his money and toys with the children who ridiculed him. From the second grade on, he was subjected to psychiatric examination, regularly confounding the experts. Years later, while serving in Vietnam, Arthur John Shawcross wrote bloodcurdling letters about his battlefield ordeals, then returned to Watertown to commit a string of arsons and burglaries. He served two years in prison, was paroled to his respectable parents - and murdered a boy and a girl. Back in the penitentiary, he proved as enigmatic as ever. Some counselors saw him as a Frankenstein monster, beyond hope,

irredeemable. To others he was a troubled young man who could be saved. No two psychiatrists seemed to agree. Shawcross served fifteen years, then conned a parole board into an early release. He settled in Binghamton, but angry citizens learned of his bloody history and ran him out of town. After two smaller communities turned him away, desperate parole authorities finally smuggled the child-killer into Rochester in the dead of night - neglecting to alert the local police. Soon the corpses started turning up, locked in winter ice, covered by reeds in swamps, floating in streams. The homicidal pedophile had changed his M.O., this time murdering diminutive women. As the body count grew, Rochester streets swarmed with police, and still the serial killer managed to snare his tenth victim, then his eleventh. Amazon.com Accounts of more famous serial killers like Ted Bundy or Jeffrey Dahmer may have ghoulish entertainment value, but I agree with writer Darcy O'Brien that this meticulously factual study of child sex-murderer Arthur Shawcross "comes closer to capturing the psychology of a serial killer than anything else I've ever read." The strength of this book (semi-finalist for a 1994 Edgar Award) comes first from the quality of the materials--including first-person interviews with the killer's wives, girlfriends, co-workers, police officers, therapists, and even a prostitute who "played dead" for Shawcross--and second, from Olsen's ability to weave the information into a highly readable story that reveals, above all, the ineffectiveness of our system of rehabilitation and parole. From Publishers Weekly An experienced and skilled writer, Olsen (*Predator*) proves himself equal to the formidable task of studying serial killer Arthur Shawcross. Born in 1945 in upstate New York, Shawcross was perceived as different even in childhood (his classmates dubbed him "Oddie," and elementary school officials called for mental health evaluations). In the early '70s he murdered two children and was sentenced to up to 25 years in prison; he served less than 15 years before he was paroled in 1987. He was difficult to place--townspeople drove him out as soon as his past became known. After three such episodes, parole officials sent him surreptitiously to Rochester, N.Y., where he killed at least 11 prostitutes. He was arrested in 1990 and eventually sentenced to 250 years in prison. During the trial, he claimed that he had been physically and sexually abused by his mother (untrue, the authorities concluded) and that he had committed horrible atrocities in Vietnam (probably untrue). He did not fit the classic pattern of the sociopath, nor did he seem either schizophrenic or paranoid. It remained for psychiatrist Richard Kraus to hypothesize that physiology was the basis for Shawcross's behavior--he diagnosed Shawcross as suffering from a metabolic ailment known as pyroluria and an abnormal genetic constitution. Told by Olsen with contributions from others affected by Shawcross's crimes, the story is a triumph of true-crime writing.

The Watergate - Joseph Rodota 2018-02-20

Since its opening in 1965, the Watergate complex has been one of Washington's chicest addresses, a home to power brokers from both political parties and the epicenter of a scandal that brought down a president. In *The Watergate*, writer and political consultant Joseph Rodota paints a vivid portrait of this landmark and the movers and shakers who have lived there. Watergate residents—an intriguing casts of politicians, journalists, socialites and spies—have been at the center of America's political storms for half a century. The irrepressible Martha Mitchell, wife of President Nixon's attorney general and campaign

manager John Mitchell, captivated the nation with a stream of outrageous interviews and phone calls from her Watergate duplex. Supreme Court justices Ruth Bader Ginsburg and Antonin Scalia put aside their differences many a New Year's Eve to celebrate together at the Watergate, dining on wild game hunted by Scalia and cooked by Ginsburg's husband. Monica Lewinsky hunkered down in her mother's Watergate apartment while President Clinton fought impeachment; her neighbor U.S. Senator Bob Dole brought donuts to the hordes of reporters camped out front. Years after Secretary of State Condoleezza Rice hosted chamber music concerts in her Watergate living room, guests remembered the soaring music—and the cheap snacks. Rodota unlocks the mysteries of the Watergate, including why Elizabeth Taylor refused to move into a Watergate apartment with her sixth husband; reveals a surprising connection between the Watergate and Ronald Reagan; and unravels how the Nixon break-in transformed the Watergate's reputation and spawned generations of "-gate" scandals, from Koreagate to Deflategate. The Washington Post once called the Watergate a "glittering Potomac Titanic." Like the famous ocean liner, the Watergate was ahead of its time, filled with boldface names—and ultimately doomed. The Watergate is a captivating inside look at the passengers and crew of this legendary building.

International Business - Brian Toyne 1997

This volume explores the conceptual domain of international business inquiry, the constructs that hold promise for integrating the field, and the future directions that appear particularly fruitful for theory building and theory testing.

Dream Sequence - Adam Foulds 2019-06-11

Adam Foulds, the award-winning author of *The Quickening Maze*, pens a stunning and terrifying vision of the damage done between a fan and a celebrity in *Dream Sequence*—where the borders between inner and outer life have been made porous in a world full of flickering screens large and small. Henry became famous starring in *The Grange*, a television drama beloved by mothers and wives, and whose fans speak about the characters as though they were real people . . . yet Henry dreams of escaping the small screen. An audition for a movie directed by a highly respected Spanish auteur holds the promise of a way forward. Whether holed up in his apartment eating monkish meals of rice and steamed vegetables or snorting cocaine at desert parties in Doha, Henry's awareness of his own image, of his relative place in the world, is acute and constant. But Henry has also—unwittingly—become an important part of the life of recently divorced Kristin. He appears repeatedly on the television in her beautiful, empty Philadelphia house, and her social media feeds bring news of his London home, his family. What Kristin wants is simply to get as close to him in real life as she has in her fandom.

Una Vuelta Por Mi Carcel - Marguerite Yourcenar 2005-03-01

Exit Strategy: Ending the Tyranny of Finance - Giulio Tremonti 2012-09-11

From Italy's former minister of economy and finance, a provocative and galvanizing jeremiad on the Euro crisis and the global economic status quo. As Europe's debt crisis persists and the aftershocks of the 2008 collapse hinder recovery across the globe, Giulio Tremonti underscores the dangers that unchecked financial markets pose to democracy, and explains what nations must do to protect their autonomy. Condemning what he calls "marketism"—an insidious ideology that puts the speculative financial market above all else—Tremonti bemoans a world in which finance, not governments, sets the rules and, as a result, determines political discourse. But when finance fails, it is the people who must pay the price, and not just economically. An instant and enduring bestseller in Italy, *Exit Strategy* calls for sweeping changes in both policy and mindset. Candid and critical as few politicians have been in the aftermath of the crisis, Tremonti breaks down the systemic failures of global finance and proposes a "New Alliance" between citizens and governments to free politics from the thrall of the financial markets, and put the people themselves back in control.

Verrocchio - John K. Delaney 2019-10-22

A comprehensive survey of the work of this most influential Florentine artist and teacher Andrea del Verrocchio (c. 1435–1488) was one of the most versatile and inventive artists of the Italian Renaissance. He created art across media, from his spectacular sculptures and paintings to his work in goldsmithing, architecture, and engineering. His expressive, confident drawings provide a key point of contact between sculpture and painting. He led a vibrant workshop where he taught young artists who later became some of the greatest painters of the

period, including Leonardo da Vinci, Sandro Botticelli, Lorenzo di Credi, and Domenico Ghirlandaio. This beautifully illustrated book presents a comprehensive survey of Verrocchio's art, spanning his entire career and featuring some fifty sculptures, paintings, and drawings, in addition to works he created with his students. Through incisive scholarly essays, in-depth catalog entries, and breathtaking illustrations, this volume draws on the latest research in art history to show why Verrocchio was one of the most innovative and influential of all Florentine artists. Published in association with the National Gallery of Art, Washington, DC

The House of Others - Silvio D'Arzo 1995

The illegitimate son of a fortune teller, Ezio Comparoni (1920-52) never knew his father, rarely left his home town, and admitted no one to his home. His deliberate obscurity was compounded by his use of many pseudonyms, including Silvio d'Arzo, under which he wrote the remarkable novella and three stories collected in *The House of Others*. The novella *The House of Others* is among the rare perfect works of twentieth century fiction. In a desolate mountain village an old woman visits the parish priest, ostensibly to ask about dissolving a marriage. Gradually, as she probes for information on "special cases"—cases in which what is obviously wrong can also be irrefutably right—it becomes clear her true question is whether or not she might take her own life. The question is metaphysical, involving not only the woman's life but the priest's; and to it he has no answer.

2 Out of 2 - Andrea De Carlo 2010

The two protagonists who are as different as chalk from cheese. The charismatic dare-devil Guido, though endowed with immense personal charm, and innate abilities as a leader of men (as well as being the darling of all the girls), is subtly flawed, and unable to match his own significant aspirations. Guido's prophetic idealism, and his frustrated attempts to escape his lower-class origins and change the world, nevertheless seem doomed to failure. He eventually writes a best-selling book, highly acclaimed by the critics, in which he condemns the social mores of the Italian seventies—corruption, terrorism, bombs and anarchy. Although, through his novel, he is initially acclaimed as a prophet of sorts, he predictably falls victim to vitriolic, self-serving critics who enjoy demolishing him. Eventually, despite his enormous talent, Guido will remain an eternal dreamer; whereas his closest friend who has always depended on him—the insecure narrator, Mario, always the more practical and circumspect of the two—will finally learn to actualize his own dreams, helping to change the world through actualizing his own dream of authenticity. Meanwhile, the alienated Guido will succumb to his own inevitable destiny.

Family Forbidden Erotica (2 Books in 1). Hottest Rough Taboo Erotic Sex Stories with Explicit Content - Jessica Dominate 2021

Not-So-Special Relationship - Luca Ratti 2017-03-08

Examines how German reunification and the end of the Quadripartite Agreement in 1990 impacted the AngloAmerican special relationship Luca Ratti offers new insights into the role of the Anglo-American aspecial relationship in German reunification, and examines the impact that Germanys reunification had on Anglo-American and transatlantic relations. Germanys unification in October 1990 was one of the most momentous events in modern European history and world politics since the end of World War II. German unity ended the Cold War in Europe, accelerated the collapse of communist regimes across Eastern Europe, and the disintegration of the USSR in 1991. It also triggered NATO's transformation at the London and Rome summits of the Alliance and deepened Europes political and economic integration with the signing of the treaty of Maastricht in 1992. Key FeaturesAnalyses and compares attitudes, reactions and developments in the US and BritainConsiders their interface with the views and initiatives of the West German governmentOffers new insight into an issue central to Anglo-

American and transatlantic relations. Includes interview with key decision makers involved in the negotiations in 1989-90 such as John Major, James Baker III, Helmut Kohl and Hans Dietrich Genscher

China: Champion of (Which) Globalisation? - Alessia Amighini 2018-06-18

This year marks the 40th anniversary of China's reforms and opening up. In four decades, China has learned how to grasp the benefits of globalisation and has become a world economic champion. As the world's second-largest economy, today China is no longer the factory of the world but an industrial power aiming at the forefront of major high-tech sectors, in direct competition with Europe and the US. In sharp contrast with Trump's scepticism on multilateralism, President Xi has renewed his commitment to growing an open global economy. But what does globalisation with Chinese characteristics look like? Is Beijing offering more risks or more opportunities to both mature and emerging economies? To what extent is China willing to comply with international rules and standards? Is Beijing trying to set its own global rules and institutions? Is the world destined to a new model of economic globalisation detached from political and cultural openness?

Pioneers of Motoring. Ediz. Multilingue - Aldo Carrer 2017

The Unknown Pope - John Pollard 2014-03-04

Best known for his efforts to end World War I, Benedict XV was the first contemporary pope to assume the role of peacemaker, a role that has persisted in the papacy since. Although Benedict's 1917 Peace Note was rejected by officials, he went on to help establish Save the Children and to lead European efforts at humanitarian aid. His brief pontificate resulted in a positive reassessment of the Church's attitude towards colonialism and colonized peoples. Using previously unpublished correspondence and private papers from the Vatican archives, John Pollard has written the first biography on Benedict XV in almost half a century.

Disciple IV - Abingdon Press 2005-05

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads naturally to an emphasis on worship in the study. Present throughout the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differ from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Abarat - Clive Barker 2011-08-30

A journey beyond imagination is about to unfold. . . . It begins in the most boring place in the world: Chickentown, USA. There lives Candy Quackenbush, her heart bursting for some clue as to what her future might hold. When the answer comes, it's not one she expects. Welcome to the Abarat, a vast archipelago where every island is a different hour of the day. Candy has a place in this extraordinary land: She is here to help save the Abarat from the dark forces that are stirring at its heart—forces older than Time itself, and more evil than anything Candy has ever encountered. She's a strange heroine, she knows. But this is a strange world. And in the Abarat, all things are possible.

China's Race to Global Technology Leadership - Alessia Amighini 2019-09-11

The current trade war between the US and China looks like a small piece in a much larger puzzle over world leadership in which China plays the part of the ascending challenger seeking to upset the existing balance of power. Technology and innovation seem to be Beijing's weapons of choice in its frontal assault on Washington in sectors traditionally led by the US. China is not only acquiring technology. Its ambitions include the regulation of international trade and global governance. Just what a China-led global order would look like is still unclear, but the inherent side-effects of technology need to be meticulously assessed, as they have the potential to alter the core values of modern societies. To what extent will technology facilitate China's rise?

Hopkins - Gerard Manley Hopkins 2004

Britain's Gerard Manley Hopkins is beloved for his unusual images of both the physical world and the spiritual life. This is the ideal introduction to the spirituality of the great nineteenth-century Catholic mystic poet. With a preface by Rev. Thomas Ryan, C.S.P., this book is part of a new series, The Mystic Poets. Skylight Paths

Low Protein Food List for PKU - Virginia E. Schuett 2010-12-01

The Low Protein Food List for PKU has been an indispensable resource for everyone involved in the treatment of phenylketonuria (PKU) since 1995. This third edition contains over 6,000 entries, the most extensive listing yet of foods that are potentially suitable for the diet, nearly double the number found in the previous edition. It includes many new foods found at health-oriented grocery stores, expanding choices for the diet. The book provides information on phenylalanine (phe), protein, and calorie content of foods based on serving portions, both in common measures and gram weights, in an easily searchable format. The handy "mg phe/gm food" column allows users to compare phenylalanine density of foods and make appropriate food choices for individual diet needs. People using an "exchange" system for counting phe will find exchanges are calculated for each food portion as well. The front section of the book also contains valuable information and tips for managing the PKU diet.

Filosofia della carta - Massimo Donà 2022-06-28T00:00:00+02:00

Carta e natura, riciclo e circolarità. Il filosofo Massimo Donà si propone di riflettere intorno alla materia di cui questo stesso libro è fatto: la carta. Lo fa ripercorrendone anzitutto le origini: la carta nasce in Oriente, proprio in virtù di un'ibridazione. La natura è per essenza circolare; i suoi dinamismi mostrano che andare avanti è per essa sempre un tornare indietro. Da cui un ricominciare perpetuo. In natura i processi circolari rendono palese che tutto, tornando ogni volta all'inizio, si fa nuovo. Che nulla è mai rigidamente ancorato a quel che sembra esser diventato. Tutto è in perenne metamorfosi. Tutto diviene. Dunque, far riferimento alla metamorfosi significa alludere a ciò che, della natura, ci mostra costantemente l'insostenibilità di qualsivoglia pensiero dell'immutabile, dell'eterno e del permanente. Comprendere che invece le cose sono sempre nuove, ossia che indicano sempre diverse possibili significazioni, vuol dire capire che alla base delle cose naturali v'è la «fantasia», e non l'astratta razionalità fatta propria da un certo tipo di scientificità. Buona parte dei disastri ecologici che rendono sempre più fragile il nostro pianeta, e sempre più a rischio la nostra permanenza sulla sua superficie, sono stati prodotti da una forma di pensiero lineare, produttivistico e fondato sul mito della «crescita». Su un'idea rigida di razionalità che, delle cose del mondo, ha visto solo l'essenziale sfruttabilità, utile a rendere sempre più potente il dominio dell'essere umano. Ma la natura ci insegna che in principio era il due, e non l'uno. Che tutto funge da risultato di un'originaria ibridazione; e che è folle credere che le cose siano «pure», univocamente significanti, e soprattutto che talune cose siano buone e altre cattive, alcune belle e altre brutte. Ed è così che possiamo tornare a riflettere sul fatto che la carta nasce in virtù di un'operazione di riciclo; e che solo in virtù di tale operazione può rivendicare una fortissima valenza simbolica. Ogni unità naturale è infatti in se stessa molteplice. Anche la cellulosa è una

complexio; è un polimero, un aggregato. Solo se comprendiamo la strutturale complessità di ogni forma d'esistenza, possiamo capire in che senso ogni fenomeno naturale parli di una complessità strutturale che deve renderci particolarmente attenti a intervenire rompendo relazioni, e ferendo l'unità che tutto tiene insieme. Solo comprendendo questa verità, possiamo capire che in natura tutto è ibrido, complesso, e dunque correlato a ogni altra cosa; che nulla può vivere isolato, illudendosi di potersi confinare in una zona protetta e dunque non costretta a lasciarsi contaminare dall'altro, dal diverso, da quello che, in realtà, più propriamente ci riguarda.

The Forgotten Revolution - Lucio Russo 2013-12-01

The period from the late fourth to the late second century B. C. witnessed, in Greek-speaking countries, an explosion of objective knowledge about the external world. While Greek culture had reached great heights in art, literature and philosophy already in the earlier classical era, it is in the so-called Hellenistic period that we see for the first time — anywhere in the world — the appearance of science as we understand it now: not an accumulation of facts or philosophically based speculations, but an organized effort to model nature and apply such models, or scientific theories in a sense we will make precise, to the solution of practical problems and to a growing understanding of nature. We owe this new approach to scientists such as Archimedes, Euclid, Eratosthenes and many others less familiar today but no less remarkable. Yet, not long after this golden period, much of this extraordinary development had been reversed. Rome borrowed what it was capable of from the Greeks and kept it for a little while yet, but created very little science of its own. Europe was soon smothered in the obscurantism and stasis that blocked most avenues of intellectual development for a thousand years — until, as is well known, the rediscovery of ancient culture in its fullness paved the way to the modern age.

Meditation Is Not What You Think - Jon Kabat-Zinn 2018-05-01

Welcome to a master class in mindfulness. Jon Kabat-Zinn is regarded as "one of the finest teachers of mindfulness you'll ever encounter" (Jack Kornfield). He has been teaching the tangible benefits of meditation in the mainstream for decades. Today, millions of people around the world have taken up a formal mindfulness meditation practice as part of their everyday lives. But what is meditation anyway? And why might it be worth trying? Or nurturing further if you already have practice? Meditation Is Not What You Think answers those questions. Originally published in 2005 as part of a larger book entitled *Coming to Our Senses*, it has been updated with a new foreword by the author and is even more relevant today. If you're curious as to why meditation is not for the "faint-hearted," how taking some time each day to drop into awareness can actually be a radical act of love, and why paying attention is so supremely important, consider this book an invitation to learn more -- from one of the pioneers of the worldwide mindfulness movement.

Yugoslavia, My Fatherland - Goran Vojnovic 2015

When Vladan Borojevic googles the name of his father Nedelko, a former officer in the Yugoslav People's Army, supposedly killed in the civil war after the decay of Yugoslavia, he unexpectedly discovers a dark family secret. The story which then unfolds takes him back to the catastrophic events of 1991, when he first heard the military term deployment and his idyllic childhood came to a sudden end. Seventeen years later Vladan's discovery that he is the son of a fugitive war criminal sends him off on a journey round the Balkans to find his elusive father. On the way, he also finds out how the falling apart of his family is closely linked with the disintegration of the world they used to live in. The story of the Borojevic family strings and juxtaposes images of the Balkans past and present, but mainly deals with the tragic fates of people who

managed to avoid the bombs, but were unable to escape the war.

Vite in sospenso - Francesca D'Aloja 2022-05-26T00:00:00+02:00

Dopo aver percorso i deserti del Niger lungo il cammino di chi tenta di arrivare al Mediterraneo, Francesca d'Aloja ed Edoardo Albinati hanno partecipato a nuove missioni dell'Agenzia ONU per i Rifugiati-UNHCR, stavolta percorrendo qualche tratto della famigerata "rotta balcanica", che dal Medio Oriente conduce verso le nostre frontiere. È un percorso irto di pericoli, ma chi sta fuggendo dalla miseria e dalla guerra (il più delle volte, da entrambe) lo affronta come unica possibilità per conservare la vita o costruirsi una migliore. Su queste piste rischiose, attraverso foreste, fiumi e lande desolate, e confini spesso difesi in modo feroce, sono passati a centinaia di migliaia negli anni recenti, provenienti dalla Siria devastata, ma anche da Paesi molto più lontani: viaggi che durano mesi o anni, spesso costellati da sofferenze e umiliazioni, da trappole, inganni e brutalità che noi stentiamo a immaginare. Eppure, malgrado le ferite fisiche e morali inflitte loro lungo il cammino, i protagonisti di questo reportage rivelano sempre una sorprendente forza vitale e l'ostinazione di chi sta solo cercando di riconquistarsi un minimo di dignità. Dopo l'Africa narrata in *Otto giorni in Niger*, ritroviamo d'Aloja e Albinati alle frontiere che separano Macedonia del Nord, Serbia, Romania e Ungheria, Slovenia e Italia, e infine tra le montagne piemontesi, dove migranti e rifugiati diretti in Francia tentano forse l'ultimo passaggio. Senza alcun pietismo né partito preso gli autori hanno raccolto per noi le voci di chi ha tentato ripetutamente il "game" - il gioco rischioso di attraversare frontiere ostili - e decine di volte sono stati respinti: racconti impressionanti da leggere oggi, quando quelle stesse frontiere europee si sono aperte per accogliere, calorosamente, i profughi della guerra in Ucraina. Ma dalle quinte di questo libro si affacciano anche altri personaggi, altrettanto ostinati: sono tutti coloro che si adoperano per soccorrere, accogliere, curare.

Murder, She Wrote: Design For Murder - Jessica Fletcher 2017-03-07

In the newest in the USA Today bestselling series, Jessica Fletcher visits New York City during Fashion Week, only to discover that someone has rather fatal designs... KILLER COUTURE Jessica is in Manhattan to attend the debut of new designer Xandr Ebon—formerly Sandy Black of Cabot Cove. He's introducing his evening wear collection to the public and—more important—to the industry's powers that be: the stylists, magazine editors, buyers, and wealthy clientele who can make or break him. At the show, the glitz and glamour are dazzling until a young new model shockingly collapses and dies. Natural causes? Perhaps. But when another model is found dead, a famous cover girl and darling of the paparazzi, the fashion world gets nervous. Two models. Two deaths. Their only connection? Xandr Ebon. Jessica's crime-solving instincts are put to the test as she sorts through the egos, the conflicts of interest, the spiteful accusations, and the secrets, all while keeping an amorous detective at arm's length. But she'll have to dig deep to uncover a killer. A designer's career is on the line. And another model could perish in a New York minute.

In Praise Of Imperfe - Rita Levi-Montalcini 1988-05-08

The autobiography of Levi-Montalcini, who won the Nobel Prize for Medicine in 1986. Born in Torino into a middle-class Jewish family, she

experienced the rise of fascism and antisemitism in the 1930s-40s (discussed on pp. 73-105). After the promulgation of the racial laws in 1938, it was impossible for her to pursue research at the Neurological Clinic and she continued her work in private. She survived the war hiding in a small town in Italy and later emigrated to the United States.

Grave New World - Stephen D. King 2018-05-22

A controversial look at the end of globalization and what it means for prosperity, peace, and the global economic order Globalization, long considered the best route to economic prosperity, is not inevitable. An approach built on the principles of free trade and, since the 1980s, open capital markets, is beginning to fracture. With disappointing growth

rates across the Western world, nations are no longer willing to sacrifice national interests for global growth; nor are their leaders able—or willing—to sell the idea of pursuing a global agenda of prosperity to their citizens. Combining historical analysis with current affairs, economist Stephen D. King provides a provocative and engaging account of why globalization is being rejected, what a world ruled by rival states with conflicting aims might look like, and how the pursuit of nationalist agendas could result in a race to the bottom. King argues that a rejection of globalization and a return to “autarky” will risk economic and political conflict, and he uses lessons from history to gauge how best to avoid the worst possible outcomes.
