Art of the Landscape - Raffaele Milani 2009-04-01
Aesthetics deals with art, a human construction, but what one experiences when placed before nature is also an aesthetic feeling - the countryside is a place of reflection like no other. In *The Art of the Landscape*, Raffaele Milani interprets natural landscapes as an aesthetic

category. Drawing from philosophical traditions, literature, and art, he calls the reader's attention to a special consciousness, originally established during the pre-Romantic age, that has become a distinctive feature of contemporary spirituality. Focusing on the definition of landscapes in relation to the concepts of nature, environment, territory, and man-made settings such as gardens and cities, Milani

examines the origins of the predilection for natural scenery in the works of landscape painters and in travel literature. He addresses the distinctness of the aesthetic experience of landscapes, analyses the role of aesthetic categories, and explores landscape art as a medium of contemplation. What emerges is an original morphology of natural beauty derived from the scrutiny of landscape elements most frequently associated with aesthetic emotion - the colour of water and the sky, earth and stones, fire and volcanic eruptions, ruins and the mountains - an analysis especially relevant given the increasing fragility of our natural environment.

Where's My Monkey? - Dieter Schubert 1996-07

Through a chain of events, a boy's stuffed toy monkey is lost in a rainstorm and retrieved only after it has passed through many hands.

Holy Resilience - David McLain Carr 2014-01-01

A leading biblical scholar offers a powerful reexamination of

the Bible's origins and its connections to human suffering. Human trauma gave birth to the Bible, suggests eminent religious scholar David Carr. The Bible's ability to speak to suffering is a major reason why the sacred texts of Judaism and Christianity have retained their relevance for thousands of years. In his fascinating and provocative reinterpretation of the Bible's origins, the author tells the story of how the Jewish people and Christian community had to adapt to survive multiple catastrophes and how their holy scriptures both reflected and reinforced each religion's resilient nature. Carr's thought-provoking analysis demonstrates how many of the central tenets of biblical religion, including monotheism and the idea of suffering as God's retribution, are factors that provided Judaism and Christianity with the strength and flexibility to endure in the face of disaster. In addition, the author explains how the Jewish Bible was deeply shaped by the Jewish exile in Babylon, an event that

it rarely describes, and how the Christian Bible was likewise shaped by the unspeakable shame of having a crucified savior.

Raising Vegetarian Children -

Joanne Stepaniak 2002-10-16

Blizzards - Mary B. Woods

2008-01-01

A winter snowfall can be beautiful. But if conditions call for dense snow, freezing temperatures, and bone-chilling wind, you are in for a dangerous blizzard. These blinding, swirling storms can shut down roads and damage buildings. Violent winds can thrash vehicles driving on icy roads. Snowdrifts can pile up to block streets or even cover houses. Blizzards can knock out power and threaten the lives of people stranded inside

for days—or worse, those caught outside in the storm. With dramatic images and first-hand survivor stories—plus the latest facts and figures—this book shows you blizzard disasters up close.

The Heart of Pinocchio -

Collodi Nipote 2016-07-18

The Heart of Pinocchio by Collodi Nipote. New adventures of the celebrated little puppet. Dear Boys and Girls, -Let us hope that none of you has been so unfortunate as to have missed the pleasure of watching sometime or other a puppet show. Probably Punch and Judy is the one you know best, but there are many others with jolly little fellows who dance in and out of all sorts of adventures. So you can

imagine Pinocchio, the hero of this book, as one of those lively puppets. And, in case you have never read the earlier book about him, you will want to know something of what happened to him before you meet him in these pages. One day a poor carpenter, called Master Cherry, began to cut up a piece of wood to make a table-leg of it when, to his utmost amazement, the piece of wood cried out, "Do not strike me so hard!" The frightened carpenter stopped for a moment, and when he began again and struck the wood a blow with his ax the voice cried out once more, "Oh, oh! you have hurt me so!" The carpenter was now so terrified that he was only too glad to turn the piece of wood over to a neighbor, Papa Geppetto, who cut it up into the shape of a boy puppet, painted it, and named it Pinocchio-which means "a piece of pinewood." As soon as he had finished making him, Pinocchio grabbed the old man's wig off his head and started in to play tricks. Papa Geppetto then taught the

puppet to walk, and when naughty Pinocchio discovered he could use his legs, he ran away. Then began all kinds of adventures, and Pinocchio was sometimes naughty and selfish, and sometimes kind and considerate, but always funny and jolly. In this new book Pinocchio's heart has grown through love and consideration for others, so that he becomes a real boy and takes part in the war to help his beautiful country, Italy.

Mossy Trotter - Elizabeth Taylor 2015-04-02

'It's always a treat to read Elizabeth Taylor. Mossy Trotter is a real gem. A delightfully mischievous boy living in those long-ago halcyon days when children played out all day, roaming commons, scavenging on rubbish tips and stamping in newly-laid tar' JACQUELINE WILSON 'We - that is, Herbert and I - want you, Mossy, to be our page-boy,' Miss Silkin said, staring hard at Mossy again, as if she were trying to imagine him dressed up, and with his hair combed. Mossy went very red, and nearly choked on a

piece of cake, and Selwyn laughed, and went on laughing, as if he had just heard the funniest joke of all his life. They both knew what being a page-boy meant. One of the boys at school - one of the very youngest ones - had had to be one, wearing velvet trousers and a frilled blouse.' When Mossy moves to the country, life is full of delights - trees to climb, woods to explore and, best of all, the marvellous dump to rummage through. But every now and then his happiness is disturbed - chiefly by his mother's meddling friend, Miss Silkin. And a dreaded event casts a shadow over even the sunniest of days - being a page-boy at her wedding. In her only children's book, Elizabeth Taylor perfectly captures the temptations, confusion and terrors of a mischievous boy, and just how illogical, frustrating and inconsistent adults are!

The Eye of the Lynx - David Freedberg 2003-08-01
Some years ago, David Freedberg opened a dusty

cupboard at Windsor Castle and discovered hundreds of vividly colored, masterfully precise drawings of all sorts of plants and animals from the Old and New Worlds. Coming upon thousands more drawings like them across Europe, Freedberg finally traced them all back to a little-known scientific organization from seventeenth-century Italy called the Academy of Linceans (or Lynxes). Founded by Prince Federico Cesi in 1603, the Linceans took as their task nothing less than the documentation and classification of all of nature in pictorial form. In this first book-length study of the Linceans to appear in English, Freedberg focuses especially on their unprecedented use of drawings based on microscopic observation and other new techniques of visualization. Where previous thinkers had classified objects based mainly on similarities of external appearance, the Linceans instead turned increasingly to sectioning, dissection, and observation of internal

structures. They applied their new research techniques to an incredible variety of subjects, from the objects in the heavens studied by their most famous (and infamous) member Galileo Galilei—whom they supported at the most critical moments of his career—to the flora and fauna of Mexico, bees, fossils, and the reproduction of plants and fungi. But by demonstrating the inadequacy of surface structures for ordering the world, the Linceans unwittingly planted the seeds for the demise of their own favorite method—visual description—as a mode of scientific classification. Profusely illustrated and engagingly written, *Eye of the Lynx* uncovers a crucial episode in the development of visual representation and natural history. And perhaps as important, it offers readers a dazzling array of early modern drawings, from magnificently depicted birds and flowers to frogs in amber, monstrously misshapen citrus fruits, and more.

Elizabeth I - Simon Adams
2008

The Universe Before the Big Bang - Maurizio Gasperini
2008-10-08

Terms such as "expanding Universe", "big bang", and "initial singularity", are nowadays part of our common language. The idea that the Universe we observe today originated from an enormous explosion (big bang) is now well known and widely accepted, at all levels, in modern popular culture. But what happens to the Universe before the big bang? And would it make any sense at all to ask such a question? In fact, recent progress in theoretical physics, and in particular in String Theory, suggests answers to the above questions, providing us with mathematical tools able in

principle to reconstruct the history of the Universe even for times before the big bang. In the emerging cosmological scenario the Universe, at the epoch of the big bang, instead of being a "new born baby" was actually a rather "aged" creature in the middle of its possibly infinitely enduring evolution. The aim of this book is to convey this picture in non-technical language accessible also to non-specialists. The author, himself a leading cosmologist, draws attention to ongoing and future observations that might reveal relics of an era before the big bang.

Tad - Benji Davies 2020-06-23

* Indie Next List Selection *
Winner of the Oscar's Book Prize * From Benji Davies, the award-winning creator of *The Storm Whale* and illustrator of the *Goodnight Already!* series, comes a heartwarming and tender tale about courage and growth, featuring a special tadpole named Tad. Tad is small. In fact, she is the smallest almost-a-frog in the whole, wide pond. That makes it hard for her to do big things like follow her tadsiblings who

swim to other parts of the pond when they outgrow the nest. As her tadbrosthers and tadsisters swim up, up, up, they leave poor Tad by her lonesome.

That's until...Big Blub shows up! He's not only bigger than Tad, but Big Blub isn't exactly what a tadpole would consider friendly. Swimming at her own pace, Tad soon learns how to be bigger than her fears. Benji Davies creates a memorable and timeless tale that proves sometimes the mightiest creature comes in the smallest package.

The Communist - Guido Morselli 2017-09-19

A unique political coming of age story, now in English for the first time. An NYRB Classics Original Walter Ferranini has been born and bred a man of the left. His father was a worker and an anarchist; Walter himself is a Communist. In the 1930s, he left Mussolini's Italy to fight Franco in Spain. After Franco's victory, he left Spain for exile in the United States. With the end of the war, he returned to Italy to work as a labor

organizer and to build a new revolutionary order. Now, in the late 1950s, Walter is a deputy in the Italian parliament. He is not happy about it. Parliamentary proceedings are too boring for words: the Communist Party seems to be filling up with ward heelers, timeservers, and profiteers. For Walter, the political has always taken precedence over the personal, but now there seems to be no refuge for him anywhere. The puritanical party disapproves of his relationship with Nuccia, a tender, quizzical, deeply intelligent editor who is separated but not divorced, while Walter is worried about his health, haunted by his past, and increasingly troubled by knotty questions of both theory and practice. Walter is, always has been, and always will be a Communist, he has no doubt about that, and yet something has changed. Communism no longer explains the life he is living, the future he hoped for, or, perhaps most troubling of all, the life he has led.

French Country Cooking -

Elizabeth David 2013-12-06
French Country Cooking - first published in 1951 - is filled with Elizabeth David's authentic recipes drawn from across the regions of France. 'Her books are stunningly well written ... full of history and anecdote' Observer Showing how each area has a particular and unique flavour for its foods, derived as they are from local ingredients, Elizabeth David explores the astonishing diversity of French cuisine. Her recipes range from the primitive pheasant soup of the Basque country to the refined Burgundian dish of hare with cream sauce and chestnut puree. French Country Cooking is Elizabeth David's rich and enticing cookbook that will delight and inspire cooks everywhere. Elizabeth David (1913-1992) is the woman who changed the face of British cooking. The Silent Revolution in Cancer and AIDS Medicine - Heinrich Kremer 2012-09-10

Examining all the major research data since the 1940s, this book challenges two orthodox medical models: HIV as the cause of AIDS, and random genetic mutations as the cause of cancer. Based on the recent findings from Evolutionary Biology and Nitric Oxide research, it presents a

fundamentally new understanding of the human cell, its double genome split between the cell nucleus and the mitochondria, and the role of energy production and signal modulation for immune reactions and carcinogenesis. Finally, it explains the concept of a new Cell Symbiosis Therapy® for the treatment of all chronic diseases, including cancer. Now available in English for the first time, this book is a must-read for doctors, patients and anyone following the cutting edge of biology and immunology. With the blasting open of such doors of knowledge, the medical world will never again be the same. Heinrich Kremer, MD, Medical Director Emeritus was, from 1968-1975, head of social therapy for addicts, sexual offenders and people with personality disorders at the Berlin Tegel prison which was the pilot project for the reform of the German penal system. In 1988 he resigned as medical director of a model clinic specializing in youth drug addiction due to differences on

medical ethics regarding the HIV test and AIDS therapy. From 1993-1999 as collaborating member of the Study Group for Nutrition and Immunity (Bern) he investigated together with Prof. Alfred Hässig the mechanisms occurring in AIDS defining illnesses and in cancer. Since the publication of this book in German in 2001 he has been in demand as a lecturer on the treatment of chronic diseases, working today as senior consultant in a growing medical network for Cell Symbiosis Therapy®.

Disciple IV - Abingdon Press

2005-05

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four

hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Little Goose's Autumn - Elli Woollard 2020-09-03

Little Goose's Autumn is a

second stunning story from an exciting picture book pairing and the uplifting tale of a lively young goose finding her place in the world. As summer fades to autumn, a lively young goose feels a change in the air and senses she has something important to do - but what?

The beavers are chopping wood, the squirrels are storing nuts in the ground and the bears are busy building a den. The plucky little goose tries to join in, but without great success. She realizes her wings weren't built for chopping wood, or burying food, or building a den, but they were built for something magnificent - they were built for flight . . .

A beautiful, lyrical and hopeful story about finding your wings and your place in the world.

Written by star picture book author, Elli Woollard with wonderful illustrations by rising talent, Briony May Smith, whose artwork brings an autumnal landscape of mountains and forests to life with truly breathtaking beauty.

Separate But Equal - James France 2012

The institution of the lay brotherhood was not original to the Cistercians, but they developed it to its fullest extent. Although lay, the *conversi* were under the same vows as monks and represented a new form of religious life. While monks were bound to the recitation of the Divine Office, the lay brothers were dedicated to a life of toil and acted as the monks' auxiliaries. Their contribution to the spiritual and material life of the Cistercian Order was immense. By consideration of tales from the *exemplum* literature, evidence from general chapter statutes, and information on the architectural provisions made for the lay brothers in the abbey and on the outlying granges, this book puts flesh on the bare bones of a life directed by their own Usages. The book is richly illustrated with images from manuscripts, stained glass, and architectural sculpture.

A Different Sea - Claudio Magris 2011-05-31

Early this century Enrico, a

young intellectual, leaves the city of Gorizia with its abundant population and culture, to spend several years living on the Patagonian pampas, alone with his ancient Greek texts, his flocks and, every now and then, a woman. He has been taught by his closest friend, Carlo, a philosopher/poet who commits suicide in his early twenties, to search for an authentic life, free of social falsehoods. But in his search for this unattainable goal, Enrico destroys every chance he has of a normal existence. This is portrait of a world in ferment, a decaying empire shaken by war and revolution, and a life-long search for meaning.

A Light to Enlighten the Darkness - Emma Cazabonne
2008

God is light, says Saint John, and in him there is no darkness at all. These passages from the works of early Cistercian monks and nuns reflect on the mystery of that divine light. If we have the light of Christ in our heart, we discover, it is there to shine both for

ourselves and for others and to guide us ever closer to the mystery of God. Emma Cazabonne compiled her selections over twenty years of lectio divina and a growing fascination with similarities between Cistercian and Orthodox spirituality.

Brand-building - Serena Vicari Haddock 2010

The aim of this book is to contribute to a critical assessment of the literature on the creative city and to a clarification of some of the many questions that remain unanswered. It is a collection of essays which, in the first part, addresses concepts and theories of urban development, city marketing and branding, presented as a framework in which the discourse of the creative city is embedded. In the second part, four case studies of cities considered to be emblematic of cultural industries (Manchester, Berlin, Dublin, and a comparative study of Milan and London) serve to illustrate the social production of creativity in specific urban contexts.

Cancer Can Be Cured! - Father Romano Zago 2008-11-24

Father Romano Zago, a Franciscan Friar and scholar, wrote the book Cancer Can Be Cured to reveal to the world an all natural Brazilian Recipe that contains the juice made from the whole leaf plant of Aloe Arborescens and honey that has been shown to rapidly restore the body's health so it heals itself of all types of cancer. The book tells how it was while administering to the poor in the shantytown of Rio Grande dol Sul , Brazil that he and the provincial Father Arno Reckziegel, witnessed the healing of simple people of cancer who used this recipe. Later, when he had assignments in Israel and Italy where this aloe species grows naturally he continued to see great success in the chronically ill being cured when he recommended they use this recipe. This inspired for him to spend the next 20 years in researching the science behind this aloe species and the publication of that research in this book along with his

numerous first hand anecdotes of cancer healing by those using the Brazilian juice recipe. Chapters include information on how to prepare the recipe using the three ingredients of whole leaf Aloe arborescens juice, honey and a small amount of distillate (1%); how to take the preparation; questions and answers on everything from how to pick the aloe leaves, why each of the three ingredients is important in the recipe, the types of cancer that have been cured using the recipe, other diseases and health problems the recipe has shown to be beneficial in helping the human body solve; the internationalization of the recipe on five continents; anecdotal stories of some body healings; the composition of Aloe; and Aloe and Aids. There has been much publicized scientific research and literature on the synergistic benefits of the 300 phytotherapeutic biochemical and nutrient constituents of Aloe vera to aid the body's defenses to enhance the

immune system and protect against diseases. However, this is the first book to reveal the little known potency Natural Healing Through Ayurveda - Subhash Ranade 2001-12

This Is Not America - Alan Friedman 2017-07-11
What has happened to America, and what's become of the American dream? Behind the self-confident image of world's most influential country, we now see a nation tearing itself apart. The United States may be arguably the world's only superpower, but its internal tensions are a symptom of suffering and division, a condition only exacerbated by the election of President Donald Trump. In this searing account, expatriate journalist Alan Friedman returns after thirty years in Europe and examines the real America through the mouths of its citizens. Set against the

backdrop of the 2016 presidential election campaign and the inauguration of President Trump, Friedman tells a vivid story of terrible inequality - from the excesses of Wall Street to the grinding poverty of Mississippi - and explores the issues, from racism and gun control to Obamacare, that have polarised a nation. Drawing on his personal interviews with Trump and with Russia's President Putin, Friedman paints a detailed portrait of the new leader of the free world and explores the real risks of the Trump presidency for America and for the world. Dark and provocative, *This Is Not America* may just be the most important book of the

year.
