The Last Stand of Fox Company - Bob Drury
2009-11-10

“The authors of the bestselling Halsey’s Typhoon do a fine job recounting one brutal, small-unit action during the Korean War’s darkest moment.” —Publishers Weekly November 1950, the Korean Peninsula. After General MacArthur ignores Mao’s warnings and pushes his UN

forces deeper into North Korea, his 10,000 First Division Marines find themselves surrounded and hopelessly outnumbered by 100,000 Chinese soldiers near the Chosin Reservoir. Their only chance for survival is to fight their way south through the Toktong Pass, a narrow gorge that will need to be held open at all costs. The mission is handed to Captain William Barber and

the 234 Marines of Fox Company, a courageous but undermanned unit of the First Marines. Barber and his men climb seven miles of frozen terrain to a rocky promontory overlooking the pass, where they will endure four days and five nights of nearly continuous Chinese attempts to take Fox Hill. Amid the relentless violence, three-quarters of Fox's Marines are killed, wounded, or captured. Just when it looks like they will be overrun, Lt. Colonel Raymond Davis, a fearless Marine officer who is fighting south from Chosin, volunteers to lead a daring mission that will seek to cut a hole in the Chinese lines and relieve the men of Fox. This is a fast-paced and gripping account of heroism in the face of impossible odds.

The Climate-Smart Agriculture Papers - Todd S. Rosenstock 2018-11-28

This book is open access under a CC BY 4.0 license. This volume shares new data relating to Climate-Smart Agriculture (CSA), with emphasis on experiences in Eastern and Southern Africa.

The book is a collection of research by authors from over 30 institutions, spanning the public and private sectors, with specific knowledge on agricultural development in the region discussed. The material is assembled to answer key questions on the following five topic areas: (1) Climate impacts: What are the most significant current and near future climate risks undermining smallholder livelihoods? (2) Varieties: How can climate-smart varieties be delivered quickly and cost-effectively to smallholders? (3) Farm management: What are key lessons on the contributions from soil and water management to climate risk reduction and how should interventions be prioritized? (4) Value chains: How can climate risks to supply and value chains be reduced? and (5) Scaling up: How can most promising climate risks reduction strategies be quickly scaled up and what are critical success factors? Readers who will be interested in this book include students, policy makers, and researchers studying climate

change impacts on agriculture and agricultural sustainability.

The Handbook on Innovations in Learning - Marilyn Murphy 2014-03-01

An innovation in learning improves upon the implementation of the standard practice or introduces a new practice, thus achieving greater learning outcomes. The Handbook on Innovations in Learning, developed by the Center on Innovations in Learning, presents commissioned chapters describing current best practices of instruction before embarking on descriptions of selected innovative practices which promise better methods of engaging and teaching students. Written by a diverse and talented field of experts, chapters in the

Handbook seek to facilitate the adoption of the innovative practices they describe by suggesting implementation policies and procedures to leaders of state and local education agencies.

Habeas Viscus - Alexander G. Weheliye 2014-07-30

Habeas Viscus focuses attention on the centrality of race to notions of the human. Alexander G. Weheliye develops a theory of "racializing assemblages," taking race as a set of sociopolitical processes that discipline humanity into full humans, not-quite-humans, and nonhumans. This disciplining, while not biological per se, frequently depends on anchoring political hierarchies in human flesh. The work of the black feminist scholars Hortense Spillers and Sylvia Wynter is vital to Weheliye's argument. Particularly significant are their contributions to the intellectual project of black studies vis-à-vis racialization and the category of the human in western modernity. Wynter and Spillers configure black studies as an endeavor

to disrupt the governing conception of humanity as synonymous with white, western man. Weheliye posits black feminist theories of modern humanity as useful correctives to the "bare life and biopolitics discourse" exemplified by the works of Giorgio Agamben and Michel Foucault, which, Weheliye contends, vastly underestimate the conceptual and political significance of race in constructions of the human. *Habeas Viscus* reveals the pressing need to make the insights of black studies and black feminism foundational to the study of modern humanity.

Her Gift to Him - Thomas Newgen 2019-01-03
She makes her boyfriend into her girlfriend? It's Christmas break. Gorgeous Piper loves nerdy Jake's passion for buying her clothes, but her intuition tells her he does it not only because he loves her so much but also because of his hidden desire to wear them himself. She buys her love everything needed for crossdressing and transforming Jake into Jackie, her girlfriend.

That afternoon, she enlightens him in the nuances of presenting his feminine side and immerses him in the pleasures of catering to his feminine persona. The now feminine, sensual, and very alluring Jackie is then made to keep their plan for a romantic night out at a fine restaurant and dancing. Will Jackie live for this one night only, or will Jake fall to the wayside and Jackie rise like a phoenix from Jake's ashes? What hidden secrets will Jackie discover when she enters the world as a beautiful and alluring young lady? Will Piper's amorous past throw cold water on their relationship, or will it enhance it and drive Jackie's hidden feminine desires? What sort of love will they have, or will their love fail to survive Jake's change into Jackie? Enter the world of a crossdressed and beautifully feminized male, and experience what she discovers in this short-read, new-adult, LGBT, hot and steamy, transgender romance. Look inside now.

[Garbage Citizenship](#) - Rosalind Fredericks

2018-09-28

Over the last twenty-five years, garbage infrastructure in Dakar, Senegal, has taken center stage in the struggles over government, the value of labor, and the dignity of the working poor. Through strikes and public dumping, Dakar's streets have been periodically inundated with household garbage as the city's trash collectors and ordinary residents protest urban austerity. Often drawing on discourses of Islamic piety, garbage activists have provided a powerful language to critique a neoliberal mode of governing-through-disposability and assert rights to fair labor. In *Garbage Citizenship* Rosalind Fredericks traces Dakar's volatile trash politics to recalibrate how we understand urban infrastructure by emphasizing its material, social, and affective elements. She shows how labor is a key component of infrastructural systems and how Dakar's residents use infrastructures as a vital tool for forging collective identities and mobilizing political

action. Fleshing out the materiality of trash and degraded labor, Fredericks illuminates the myriad ways waste can be a potent tool of urban control and rebellion.

The Cannabis Breeder's Bible - Greg Green
2005-04

The Cannabis Breeder's Bible offers real-world, professional techniques for breeding primo pot and gives precise growing information for 60 popular marijuana varieties. The book covers new hybridization techniques, international seed law issues, protecting new breeds or strains from knockoff artists, shipping seeds and clones, breeding lab designs, product testing, primordial cannabis, landrace and lost strains, common mutations, and more. This useful guide also features a wealth of photographs, instructive illustrations, and in-depth interviews with breeders and seed bank professionals.

Gay Shame - David M. Halperin 2009
Asking if the political requirements of gay pride have repressed discussion of the more

uncomfortable or undignified aspects of homosexuality, 'Gay Shame' seeks to lift this unofficial ban on the investigation of homosexuality and shame by presenting critical work from the most vibrant frontier in contemporary queer studies.

Fanged Noumena - Nick Land 2011-04-01
A dizzying trip through the mind(s) of the provocative and influential thinker Nick Land. During the 1990s British philosopher Nick Land's unique work, variously described as "rabid nihilism," "mad black delezianism," and "cybergothic," developed perhaps the only rigorous and culturally-engaged escape route out of the malaise of "continental philosophy"—a route that was implacably blocked by the academy. However, Land's work has continued to exert an influence, both through the British "speculative realist" philosophers who studied with him, and through the many cultural producers—writers, artists, musicians, filmmakers—who have been invigorated by his

uncompromising and abrasive philosophical vision. Beginning with Land's early radical rereadings of Heidegger, Nietzsche, Kant and Bataille, the volume collects together the papers, talks and articles of the mid-90s—long the subject of rumour and vague legend (including some work which has never previously appeared in print)—in which Land developed his futuristic theory-fiction of cybercapitalism gone amok; and ends with his enigmatic later writings in which Ballardian fictions, poetics, cryptography, anthropology, grammatology and the occult are smeared into unrecognisable hybrids. Fanged Noumena gives a dizzying perspective on the entire trajectory of this provocative and influential thinker's work, and has introduced his unique voice to a new generation of readers.

Evolution's Rainbow - Joan Roughgarden
2013-09-14

In this innovative celebration of diversity and affirmation of individuality in animals and humans, Joan Roughgarden challenges accepted

wisdom about gender identity and sexual orientation. A distinguished evolutionary biologist, Roughgarden takes on the medical establishment, the Bible, social science—and even Darwin himself. She leads the reader through a fascinating discussion of diversity in gender and sexuality among fish, reptiles, amphibians, birds, and mammals, including primates. *Evolution's Rainbow* explains how this diversity develops from the action of genes and hormones and how people come to differ from each other in all aspects of body and behavior. Roughgarden reconstructs primary science in light of feminist, gay, and transgender criticism and redefines our understanding of sex, gender, and sexuality. Witty, playful, and daring, this book will revolutionize our understanding of sexuality. Roughgarden argues that principal elements of Darwinian sexual selection theory are false and suggests a new theory that emphasizes social inclusion and control of access to resources and mating opportunity. She

disputes a range of scientific and medical concepts, including Wilson's genetic determinism of behavior, evolutionary psychology, the existence of a gay gene, the role of parenting in determining gender identity, and Dawkins's "selfish gene" as the driver of natural selection. She dares social science to respect the agency and rationality of diverse people; shows that many cultures across the world and throughout history accommodate people we label today as lesbian, gay, and transgendered; and calls on the Christian religion to acknowledge the Bible's many passages endorsing diversity in gender and sexuality. *Evolution's Rainbow* concludes with bold recommendations for improving education in biology, psychology, and medicine; for democratizing genetic engineering and medical practice; and for building a public monument to affirm diversity as one of our nation's defining principles.

The Idea of Nature in Disney Animation - David

Whitley 2016-03-03

In the second edition of *The Idea of Nature in Disney Animation*, David Whitley updates his 2008 book to reflect recent developments in Disney and Disney-Pixar animation such as the apocalyptic tale of earth's failed ecosystem, *WALL-E*. As Whitley has shown, and Disney's newest films continue to demonstrate, the messages animated films convey about the natural world are of crucial importance to their child viewers. Beginning with *Snow White*, Whitley examines a wide range of Disney's feature animations, in which images of wild nature are central to the narrative. He challenges the notion that the sentimentality of the Disney aesthetic, an oft-criticized aspect of such films as *Bambi*, *The Jungle Book*, *Pocahontas*, *Beauty and the Beast*, and *Finding Nemo*, necessarily prevents audiences from developing a critical awareness of contested environmental issues. On the contrary, even as the films communicate the central ideologies of

the times in which they were produced, they also express the ambiguities and tensions that underlie these dominant values. In distinguishing among the effects produced by each film and revealing the diverse ways in which images of nature are mediated, Whitley urges us towards a more complex interpretation of the classic Disney canon and makes an important contribution to our understanding of the role popular art plays in shaping the emotions and ideas that are central to contemporary experience.

The Birth of Energy - Cara New Daggett

2019-09-13

In *The Birth of Energy* Cara New Daggett traces the genealogy of contemporary notions of energy back to the nineteenth-century science of thermodynamics to challenge the underlying logic that informs today's uses of energy. These early resource-based concepts of power first emerged during the Industrial Revolution and were tightly bound to Western capitalist

domination and the politics of industrialized work. As Daggett shows, thermodynamics was deployed as an imperial science to govern fossil fuel use, labor, and colonial expansion, in part through a hierarchical ordering of humans and nonhumans. By systematically excavating the historical connection between energy and work, Daggett argues that only by transforming the politics of work—most notably, the veneration of waged work—will we be able to confront the Anthropocene's energy problem. Substituting one source of energy for another will not ensure a habitable planet; rather, the concepts of energy and work themselves must be decoupled.

Cheap - Ellen Ruppel Shell 2009-07-02

A myth-shattering investigation of the true cost of America's passion for finding a better bargain. From the shuttered factories of the Rust Belt to the strip malls of the Sun Belt—and almost everywhere in between—America has been transformed by its relentless fixation on low price. This pervasive yet little-examined

obsession with bargains is arguably the most powerful and devastating market force of our time, having fueled an excess of consumerism that blights our landscapes, escalates personal debt, lowers our standard of living, and even skews of our concept of time. Spotting the peculiar forces that drove Americans away from quality, durability, and craftsmanship and towards quantity, quantity, and more quantity, Ellen Ruppel Shell traces the rise of the bargain through our current big-box profusion to expose the astronomically high cost of cheap.

The Media Book - Chris Newbold 2002

The Media Book provides today's students with a comprehensive foundation for the study of the modern media. It has been systematically compiled to map the field in a way which corresponds to the curricular organization of the field around the globe, providing a complete resource for students in their third year to graduate level courses in the U.S.

Sexual Reproduction in Animals and Plants -

Hitoshi Sawada 2014-02-07

This book contains the proceedings of the International Symposium on the Mechanisms of Sexual Reproduction in Animals and Plants, where many plant and animal reproductive biologists gathered to discuss their recent progress in investigating the shared mechanisms and factors involved in sexual reproduction. This now is the first book that reviews recent progress in almost all fields of plant and animal fertilization. It was recently reported that the self-sterile mechanism of a hermaphroditic marine invertebrate (ascidian) is very similar to the self-incompatibility system in flowering plants. It was also found that a male factor expressed in the sperm cells of flowering plants is involved in gamete fusion not only of plants but also of animals and parasites. These discoveries have led to the consideration that the core mechanisms or factors involved in sexual reproduction may be shared by animals, plants and unicellular organisms. This valuable

book is highly useful for reproductive biologists as well as for biological scientists outside this field in understanding the current progress of reproductive biology.

The Book of Pook - Pook 2018-03-19

The complete collection of writings by the legend himself! A few years ago there was a man who posted on a PUA forum called So Suave and had his own blog called Pook's Mill. His basic message was that the PUA techniques were too simple, and focused on external manipulations, and focusing on others rather than focusing on yourself and your own masculinity. Sadly Pook disappeared from the scene, but his teachings live on in this ebook.

Clueless in Academe - Gerald Graff 2008-10-01

Gerald Graff argues that our schools and colleges make the intellectual life seem more opaque, narrowly specialized, and beyond normal learning capacities than it is or needs to be. Left clueless in the academic world, many students view the life of the mind as a secret

society for which only an elite few qualify. In a refreshing departure from standard diatribes against academia, Graff shows how academic unintelligibility is unwittingly reinforced not only by academic jargon and obscure writing, but by the disconnection of the curriculum and the failure to exploit the many connections between academia and popular culture. Finally, Graff offers a wealth of practical suggestions for making the culture of ideas and arguments more accessible to students, showing how students can enter the public debates that permeate their lives.

Infinite Jest - David Foster Wallace 2009-04-13
A gargantuan, mind-altering comedy about the Pursuit of Happiness in America Set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, Infinite Jest explores essential questions about what entertainment is and why it has come to so dominate our lives; about how our desire for

entertainment affects our need to connect with other people; and about what the pleasures we choose say about who we are. Equal parts philosophical quest and screwball comedy, Infinite Jest bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do. "The next step in fiction...Edgy, accurate, and darkly witty...Think Beckett, think Pynchon, think Gaddis. Think." -- Sven Birkerts, The Atlantic

Best Transgender Erotica - Raven Kaldera 2001-09

A ground-breaking 'best of' collection that celebrates gender variations with erotic fiction. Featuring 20 stories by writers of every gender, this is the first book to deal exclusively with gender-bending, gender-crossing and gender-breaking sexuality through erotic fiction. Includes contributions from Thomas Roche,

Simon Sheppard, M Christian, Dominic Santi, Gary Bowen and many other well-known names.

Untidy Gender - Gul Ozyegin 2010-04-20

"A sophisticated and sensitive text on domestic service in Turkey that singles itself out by a

powerful account of the micro-sociology of power. It engages the reader in much broader debates about the mutual relations of class and gender, the role of patriarchal controls in shaping informal female labor markets and the management of status differentials by women in their daily lives. An important scholarly contribution written in a lucid and accessible style." --Deniz Kandiyoti, School of Oriental and African Studies, University of London Untidy Gender takes readers into the interconnected worlds of Turkish maids and the women who employ them, tracing the incorporation of rural migrant women into the interiors of the domestic spheres of the urban middle-classes. Firmly grounded in data collected through a representative survey of 160 domestic workers, in-depth interviews, and participant observation in the kinship-based communities of domestic workers, this book forges a new understanding of the complex interaction between gender and class subordination. Ozyegin traces the lives of

two kinds of workers; those from the squatter settlements who work in a number of locations, and those who live with husbands employed as "doorkeepers" or building superintendents in the basements of middle-class apartment buildings. In a literal "upstairs, downstairs" arrangement, the latter women sometimes take on apartment cleaning for clients in the building. At the center of the book are a number of ironies about patriarchy. On the surface, husbands have absolute control over whether or not their wives work, but some women work in secret, and those "doorkeeper" husbands who allow their wives to work often provide child care themselves. Ironically, the very constraints on the spatial and social mobility of the women creates a labor market in which domestic workers' labor is expensive and not readily forthcoming, which, in turn, gives them a degree of power in negotiating their relationship with their middle-class employers. *Untidy Gender* offers insights not only into the gender and class dynamics of

Turkish society, but contributes to the refinement of central terms of feminist scholarship and research on work in the informal sector, cross-class relations between women, gender and class inequality, and women's experiences of modernity and urbanization. The author ends with a personal account of her own difficulties with the class tensions of the maid-employer relationship. "*Untidy Gender* makes contributions to a large number of debates in several social science fields and sub-fields. And it does so on an extraordinarily sound methodological base: Ozyegin was able to construct a random sample for her 'women in the basement.' This is the gold standard of research, and may be unique in the research annals of studies of domestic workers." --Rae Lesser Blumberg, William R. Kenan, Jr. Professor of Sociology, University of Virginia "This original book sheds new light on the dynamics of modernity and newly constituted urban identities. Through a careful ethnographic study

of paid domestic work, Ozyegin illuminates the varied ways in which relations of class and gender inequalities are shaped and maintained. American audiences interested in rural-urban migrants, in intersectionalities of race, class, and gender, and in identities, power, and resistance in the workplace will find some of the most compelling ethnography and many valuable theoretical nuggets in this book." --Pierrette Hondagneu-Sotelo, Associate Professor, Department of Sociology, University of Southern California "Ozyegin presents a cutting-edge analysis of the complexities of modernization by focusing on gender relations. While avoiding numerous rhetorical traps around questions of 'difference' Ozyegin seamlessly weaves together a thoughtfully articulated theory with a meticulous empirical analysis of patriarchal and class relations among modern urban women and more traditional migrant women living at the margins of modernity. Given its significant substantive and theoretical contributions, I will

look forward to teaching Untidy Gender in my courses." --Judith M. Gerson, Associate Professor, Departments of Sociology and Women's Studies, Rutgers University, New Brunswick

The Church Impotent - Leon J. Podles 1999
The current preoccupation with the role of women in the church obscures the more serious problem of the perennial absence of men. This provocative book argues that Western churches have become women's clubs, that the emasculation of Christianity is dangerous for the church and society, and that a masculine presence can and must be restored. After documenting the highly feminized state of Western Christianity, Dr. Podles identifies the masculine traits that once characterized the Christian life but are now commonly considered incompatible with it. He contends that though masculinity has been marginalized within Christianity, it cannot be expunged from human society. If detached from Christianity, it

reappears as a substitute religion, with unwholesome and even horrific consequences. The church, too, is diminished by its emasculation. Dr. Podles concludes by considering how Christianity's virility might be restored. In the otherwise stale and overworked field of gender studies, *The Church Impotent* is the only book to confront the lopsidedly feminine cast of modern Christianity with a profound analysis of its historical and sociological roots. [Summer Tranny](#) - Roberto Alcazar 2018-02-08 "It is only an exciting game, a role-play for adults. And it is only for tonight", his stepmother whispers seductively in his ear while she tenderly caresses his young body. And indeed, it is a glorious experience when she turns him into her tranny lover that night, so exciting that he is eager to prolong it. After make-up and deportment lessons, his stepmom takes him out, all made up and glamorous, to shop for underwear and shoes and clothes. Totally unaware that he is getting more and more

entangled in a slowly closing web, he enjoys his new shemale identity during those early summer months. Then, one day, the web closes with a snap and he suddenly discovers the dark side of the 'game'. He has been turned into a full time shemale escort and there is no going back ...

Recommended Methods for the Identification and Analysis of Cannabis and Cannabis Products - United Nations Office on Drugs and Crime 2009

Cannabis products are the most widely trafficked drugs worldwide, and it also remains

the most widely used drug worldwide. At the same time, production methods have become increasingly sophisticated, resulting in the availability in illicit markets of a wide range of cannabis products. This updated and significantly revised manual has been prepared taking into account both developments in analytical technology and advances in the science of cannabis. It is aimed at the harmonization and establishment of recommended methods of analysis for national drug analysis laboratories. The manual suggests approaches that may assist drug analysts in the selection of methods appropriate to the sample under examination and provide data suitable for the purpose at hand, leaving room also for adaptation to the level of sophistication of different laboratories and the various legal needs.

Critical Pedagogy and the Everyday

Classroom - Tony Monchinski 2008-06-28

Critical Pedagogy addresses the shortcomings of mainstream educational theory and practice and promotes the humanization of teacher and student. Where Critical Pedagogy is often treated as a discourse of academics in universities, this book explores the applications of Critical Pedagogy to actual classroom situations. Written in a straight-forward, concise, and lucid form by an American high school teacher, drawing examples from literature, film, and, above all, the everyday classroom, this book is meant to provoke thought in teachers, students and education

activists as we transform our classrooms into democratic sites. From grading to testing, from content area disciplines to curriculum planning and instruction, from the social construction of knowledge to embodied cognition, this book takes the theories behind Critical Pedagogy and illustrates them at work in common classroom environments.

Operation Cinderella - Hope Tarr 2012-10-07
Magazine editor Macie Graham always gets her story—and she needs dirt on smokin' hot media personality Ross Mannon. After he trashes one

of her articles, jeopardizing her job, she goes undercover to get revenge on the infuriating Texan. At the end of his rope when his teenage daughter starts acting out, Ross decides to hire a housekeeper and role model to help. Luckily the perfect woman shows up. A bit too perfect, as the more he gets to know his gorgeous, red-stiletto-wearing employee, the more attracted he becomes. "Operation Cinderella" was a foolproof plan, but Ross proves he's as perfect behind-the-scenes as he is in public—until Macie uncovers a secret that could destroy his reputation. Everything she's worked for is within reach, except the fairy tale ending she didn't even know she wanted.

Right-Wing Collectivism - Jeffrey Tucker
2017-10-16

The rise of the so-called alt-right is the most unexpected ideological development of our time. Most people of the current generation lack a sense of the historical sweep of the intellectual side of the right-wing collectivist position.

Jeffrey Tucker, in this collection written between 2015 and 2017, argues that this movement represents the revival of a tradition of interwar collectivist thought that might at first seem like a hybrid but was distinctly mainstream between the two world wars. It is anti-communist but not for the reasons that were conventional during the Cold War, that is, because communism opposed freedom in the liberal tradition. Right-collectivism also opposes traditional liberalism. It opposes free trade, freedom of association, free migration, and capitalism understood as a laissez-faire free market. It rallies around nation and state as the organizing principles of the social order-and trends in the direction of favoring one-man rule-but positions itself as opposed to leftism traditionally understood. We know about certain fascist leaders from the mid-20th century, but not the ideological orientation that led to them or the ideas they left on the table to be picked up generations later. For the most part, and until recently, it seemed

to have dropped from history. Meanwhile, the prospects for social democratic ideology are fading, and something else is coming to fill that vacuum. What is it? Where does it come from? Where is it leading? This book seeks to fill the knowledge gap, to explain what this movement is about and why anyone who genuinely loves and longs for liberty classically understood needs to develop a nose and instinct for spotting the opposite when it comes in an unfamiliar form. We need to learn to recognize the

language, the thinkers, the themes, the goals of a political ethos that is properly identified as fascist. "Jeffrey Tucker in his brilliant book calls right-wing populism what it actually is, namely, fascism, or, in its German form national socialism, nazism. You need Tucker's book. You need to worry. If you are a real liberal, you need to know where the new national socialism comes from, the better to call it out and shame it back into the shadows. Now." - Deirdre McCloskey
