**The Body** - Richard Ben Sapir 2015-10-13

A skeleton found in Jerusalem, believed to be the body of Jesus, may plunge the world into chaos: "Totally riveting—right up to the last page" (The San Diego Union). In a hidden tomb in the ancient city of Jerusalem, the skeleton of a man who died two millennia ago is uncovered by Israeli archaeologist Sharon Golban and her team. The body bears the unmistakable marks of crucifixion; an inscription written in Aramaic identifies the remains as belonging to the "King of the Jews." It is a discovery that could rock the civilized world—inciting riots, toppling governments, and destroying the very foundations of the Christian Church—if it is truly the unrisen body of Jesus Christ. Dispatched by the Vatican to investigate in secret, Jesuit priest and former US Marine Jim Folan joins Dr. Golban in a frantic race to uncover the truth. The shocking revelations that await them will test his beliefs, his will, and his sanity as never before—leading Father Folan and his beautiful, brilliant partner into forbidden temptations while casting them both into a roaring maelstrom of fanatical faith and deadly politics. The Body is an ingenious "what if" tale that combines action, science, discovery, romance, and spirituality. Acclaimed author Richard Ben Sapir envelops the reader in the rich atmosphere of the mysterious and volatile Middle East while providing an enthralling adventure certain to provoke deep thought and inspire debate.

*Iron House* - John Hart 2011-07-12

An old man is dying. When the old man is dead they will come for him. And they will come for her, to make him hurt. John Hart has written three New York Times bestsellers and won an unprecedented two back-to-back Edgar Awards. His books have been called "masterful" (Jeffery Deaver) and "gripping" (People) with "Grisham-style intrigue and Turow-style brooding" (The New York Times). Now he delivers his fourth novel—a gut-wrenching, heart-stopping thriller no reader will soon forget. HE WOULD GO TO HELL At the Iron Mountain Home for Boys,

there was nothing but time. Time to burn and time to kill, time for two young orphans to learn that life isn't won without a fight. Julian survives only because his older brother, Michael, is fearless and fiercely protective. When tensions boil over and a boy is brutally killed, there is only one sacrifice left for Michael to make: He flees the orphanage and takes the blame with him. TO KEEP HER SAFE For two decades, Michael has been an enforcer in New York's world of organized crime, a prince of the streets so widely feared he rarely has to kill anymore. But the life he's fought to build unravels when he meets Elena, a beautiful innocent who teaches him the meaning and power of love. He wants a fresh start with her, the chance to start a family like the one he and Julian never had. But someone else is holding the strings. And escape is not that easy. . . . GO TO HELL, AND COME BACK BURNING The mob boss who gave Michael his blessing to begin anew is dying, and his son is intent on making Michael pay for his betrayal. Determined to protect the ones he loves, Michael spirits Elena—who knows nothing of his past crimes, or the peril he's laid at her door— back to North Carolina, to the place he was born and the brother he lost so long ago. There, he will encounter a whole new level of danger, a thicket of deceit and violence that leads inexorably to the one place he's been running from his whole life: Iron House. Now with an excerpt of John Hart's next book *The Hush*, available in February 2018.

*Quest* - Richard Ben Sapir 2015-10-13

The coauthor of the *Destroyer* series brings an age-old quest to modern-day New York in this “brilliant [and] imaginative” thriller (*The New York Times Book Review*). When a jewel-encrusted, gold saltcellar appears for sale in New York, speculation around the piece soars. The gems alone make the vessel incredibly valuable, but some are convinced something even more priceless hides within: nothing less than the legendary Holy Grail. After the owner of the piece is brutally murdered and the cellar taken, speculation turns to conviction—and a deadly hunt for the missing artifact is on. Claire Andrews knows nothing of riches, glory, or mythical relics; she only wishes to avenge the death of her father, who was killed after putting his gold saltcellar on the market. She enlists the help of NYPD detective Artie Modelstein to hunt down the men responsible. But their search for truth lands them unwittingly in the middle of a mystery that has spanned centuries—a lethal quest for power from which no one escapes unscathed . . . Filled with sharp allusions, breathtaking suspense, and clever twists, this is a “surprisingly gripping” fast-paced

thriller perfect for fans of The DaVinci Code and The Rule of Four (Kirkus Reviews).

*Bressio* - Richard Ben Sapir 2015-10-13

A New York investigator risks his life to look into shady activity at a downtown loft. If only he'd listened to his mother and become a mob enforcer instead . . . Tipping the scales at 240 pounds, Alphonse Joseph Bressio is a big man in New York's legal investigation biz, though he'd rather be doing almost anything else. If he had heeded his ample gut's feeling and refused a powerful lawyer's request to help out the paranoid ex-girlfriend of middle-age, drug-dealing loser L. Marvin Fleish, Bressio could have spared himself a headache bigger than his appetite and gambling problem combined. But his soft heart got the best of him. Now the portly PI is running afoul of local mobsters, overzealous federal narcs, and blue-blooded ex-government functionaries by looking too closely into strange doings at a downtown loft that the cops aren't talking about, despite the unusual number of corpses that seem to be connected to it. Bressio is starting to think it would have been less hazardous to his health and sanity if he had followed in his father's footsteps and become a Mafia enforcer. At least it would have made his mother happy. From Richard Ben Sapir, cocreator of The Destroyer series, comes a wild and woolly, tongue-in-cheek take on the hardboiled detective novel. Sapir's Bressio is a nonstop delight, frenetic and funny with a truly outrageous cast of anti-heroes, detestable villains, hard-luck bystanders, and arguably the most endearingly unforgettable protagonist ever to grace the pages of noir crime fiction.

**Spies** - Richard Ben Sapir 2015-10-13

An FBI investigation of a German spy ring on American soil threatens to devastate lives, loves, and families forty years after the end of World War II A watertight packet is discovered by a diver in the waters surrounding Block Island. Unrecovered detritus from the last German U-boat sunk off the coast of Rhode Island, it contains secret codes suggesting that a Nazi spy ring operated in the United States during the darkest days of World War II. If confirmed, it could prove a major embarrassment to the FBI—whose late director, J. Edgar Hoover, once assured the government there were no spies in the country—so the Bureau sends one of its best, Unit Chief Todd Oliver, to Newport to investigate. A war that ended four decades earlier is not yet over for some in this New England naval town,

as Oliver's mission threatens to destroy the lives and relationships of the guilty and the innocent alike. Suddenly, dark, lingering shadows are everywhere, enveloping respected pillars of the community, the wealthy and powerful in their mansions on "the Avenue," and respectable, law-abiding citizens who merely wish to forget. Even Oliver himself is not safe, as the agent's inquiries into secret wartime espionage begin unraveling strong, sacred bonds of love, friendship, and family, tempting the dedicated operative to compromise everything he stands for in the face of a shocking murder that rocks Newport society to its core.

Released from the Arctic ice after two millennia, a Roman gladiator contends with his haunted memories and the modern world in this "marvelous" novel (Los Angeles Times). While exploring the polar expanse for an oil company, geologist Lew McCardle discovers something remarkable: a body encased in the ice. Even more remarkable, the skills of a Russian researcher bring the man miraculously back to life. This strange visitor from the distant past has an amazing story to tell. With the help of a Nordic nun who translates from his native Latin, Lucius Aurelius Eugenianus reveals that in the era of Domitian he was a champion in the ancient Roman Coliseum, a gladiator known far and wide as the greatest of all time. But now the warrior Eugeni must readjust to this new world, with its bizarre customs, hidden traps, and geopolitical and moral complexities, as he struggles to come to terms with painful memories of loves and glories lost, and the

bloodthirsty imperial politics and heartbreaking betrayals that ultimately led him to this time and place. An ingenious amalgam of science fiction, fantasy, and history, Richard Ben Sapir's *The Far Arena* is a breathtaking work of literary invention, at once thrilling, poignant, and thought-provoking.
