Father Tim's Church Survival Guide - Tim Schenck 2015

"If you have little tolerance for ecclesiastical blowhards; if you've ever fantasized about implementing a clergy rating system (CRS); if you've ever sought tips on surviving diocesan convention; if you've ever tried to weasel your way out of pledging; then this book is for you," says author Tim Schenck. "My take on church life isn't for everyone—clergy

who take themselves too seriously will hate it. But know that it all comes out of a place of deep love for God and the Church. There are inevitably things that drive us nuts about such an imperfect (i.e., human) institution. Yet if we can't observe and comment on our own foibles we're left without much hope. And anyway if God doesn't have a sense of humor, I'm hosed."

Character Education -

Edward F. DeRoche 2001

Contemporary schools require far more than just 'the three R's'. Beyond the books and tests, educational facilities are expected to produce members of society with integrity, as well. Character education is an abstract idea that many educators, both teachers and administrators, have a difficult time implementing, and too often it gets left out of the

curriculum. How do school personnel, then, instill values of good character in students, and as an administrator, how do you spread these values to the entire school? DeRoche and Williams provide school leaders with an effective road map, touring schools that have achieved success. The authors divide the reader's journey through reform efforts into several 'tour stops,' beginning with a review of the character education framework, passing through subjects such as school climate, core values, training personnel, forming relationships, and concluding with guidelines for evaluation. Each 'stop' contains a list of helpful articles or books, as well as valuable Internet resources. The conclusion of the journey is ultimately the responsibility of school leaders, but this book will give you a head start

To Make and Keep Peace Among Ourselves and with All Nations - Angelo Codevilla 2014-05-01

Author Angelo Codevilla asks, What is to be America's peace? How is it to be won and preserved in our time? He notes that our government's

increasingly unlimited powers flow in part from our statesmen's inability to stay out of wars or to win them and that our statesmen and academics have ceased to think about such things. The purpose of this book is to rekindle such thoughts. The author reestablishes early American statecraft's understanding of peace—what it takes to make it and what it takes to keep it. He reminds Americans why our founding generation placed the pursuit of peace ahead of all other objectives; he shows how they tried to keep the peace by drawing sharp lines between America's business and that of others, as well as between peace and war. He shows how our 20th-century statesmen confused peace and war as well as America's affairs with that of mankind's. The result, he shows, has been endless war abroad and spiraling strife among Americans. Codevilla provides intellectual guidelines for recovering the pursuit of peace as the guiding principle by which the American people and statesmen may navigate

domestic as well as international affairs.

Unlocking Creativity: A Producer's Guide to Making Music & Art - Michael

Beinhorn 2015-05-01

(Music Pro Guide Books & DVDs). Here, record producer Beinhorn reveals how to deal with interpersonal issues record producers face when they work with artists one on one or in small groups. The situations and solutions are based upon the author's personal and professional experience working with a variety of different artists, such as Herbie Hancock, the Red Hot Chili Peppers, Soul Asylum, Hole, Soundgarden, Ozzy Osbourne, Courtney Love, Marilyn Manson, Social Distortion, Korn, and Mew. Beinhorn's unique methods and perspective, applied to record producing and music making in the studio, opens the door to successful collaborative efforts. The author shows you how to find what he calls your sensory connection to the creativity process, which ultimately helps you find the intent behind your

creative choices. You can read dozens of articles and books that feature a hundred different people talking about what microphones they used when they recorded Record X or how they set their stereo buss compressor, but you will never find out what prompted them to make these choices. Beinhorn's focus on collaborative effort enables record producers and artists to find solutions while working as a creative team. This perspective is especially valuable as it is transdisciplinary and can be applied to many occupations and modes of creativity outside of record production.

Searching for and Maintaining Peace - Jacques Philippe 2002-01-01

We live in a day and age characterized by an extraordinary amount of agitation and lack of peace. This tendency manifests itself in our spiritual as well as our secular life. In our search for God and holiness, in our service to our neighbor, a kind of restlessness and anxiety take the place of the confidence and peace which ought to be ours. What must we do to overcome the moments of fear and distress which assail us all too often in our lives? How can we

learn to place all our confidence in God and abandon ourselves into his loving care? This is what is taught in this simple, yet profound little treatise on peace of heart. Taking concrete examples from our everyday life, the author invites us to respond in a Gospel fashion to the upsetting situations we must all confront. Since peace of heart is a pure gift of God, it is something we should seek, pursue and ask him for without cease. This book is here to help us in that pursuit.
