Semiotics of Animals in Culture - Gianfranco Marrone 2018-02-28

To place animals within the realm of nature, means inserting them among the articulations of culture and the social. Semiotics has never avoided this chiasmus, choosing to deal from the outset with the problem of the languages of animals following the old admonition of Montaigne: it is not that animals do not talk, it is us who do not understand them. Recent research in the field of the anthropology of nature and sociology of sciences and techniques allow to think about the Zoosemiotic issue in a different way. Instead of transplanting the language structures - gestures, LIS, etc. - for a semiotic study of the forms of the human

and social meaning, it seems more apt to look at their discourse, and as such, the actual interactions, communicative and scientific as well as practical and functional, between humans and non-humans. This book aims to investigate precisely this hypothesis, known here as Zoosemiotics 2.0, working on several fronts and levels: · Anthropology · Languages of the image and visual representations, from art history to cinema · Old and new media. From literature to comics, from cartoons to TV documentaries but also advertising, music, Web and social networks. All those cultural products that talk about the role of human and non-human in society implicitly proposing (and in some way imposing) a form of articulation of such a relationship. · Food and feeding rites · Animalist, vegetarian and vegan movements · Philosophy: metaphysics, ethics, aesthetics

How to Understand Art - Janetta Rebold Benton 2021-10-26

A clear and concise overview of the fundamentals shared by visual arts across the globe, enabling the reader to think carefully, inquisitively, and critically about art. The visual arts enrich our lives in so many ways, presenting beauty, emotion, and ideas—but sometimes looking at art is confusing and challenging. This new volume in the Art Essentials series, How to Understand Art, sets out to enhance the viewer's experience by breaking down the elements of art to provide a firm basis for simple enjoyment as well as further understanding. With one hundred visual examples drawn from across the globe, the emphasis is on how to assess art objectively—a key skill for any art student, museum visitor, or cultural enthusiast. Art historian and museum lecturer Janetta Rebold Benton teaches the reader to reevaluate their experiences of looking at art by learning to move beyond “I don't know much about art, but I know what I like,” toward an understanding of “why I like it.” By looking at artists' materials and techniques, such as drawing, painting, printing, photography, sculpture, and decorative art, Benton makes it possible to assess what can (and cannot) be done in certain media. With these tools at hand, it's possible to break down any work of art. Further framing the lesson, there is a section devoted to six key artists that have had a particularly notable and innovative influence on the history of art. Perfectly aimed at students and the general reader, this indispensable guide encourages everyone to develop confidence in experiencing, analyzing, and appreciating art.

Nightmare Japan - Jay McRoy 2008-01-01

Over the last two decades, Japanese filmmakers have produced some of the most important and innovative works of cinematic horror. At once visually arresting, philosophically complex, and politically charged, films

by directors like Tsukamoto Shinya (Tetsuo: The Iron Man [1988] and Tetsuo II: Body Hammer [1992]), Sato Hisayasu (Muscle [1988] and Naked Blood [1995]) Kurosawa Kiyoshi (Cure [1997], Séance [2000], and Kaïro [2001]), Nakata Hideo (Ringu [1998], Ringu II [1999], and Dark Water [2002]), and Miike Takashi (Audition [1999] and Ichi the Killer [2001]) continually revisit and redefine the horror genre in both its Japanese and global contexts. In the process, these and other directors of contemporary Japanese horror film consistently contribute exciting and important new visions, from postmodern reworkings of traditional avenging spirit narratives to groundbreaking works of cinematic terror that position depictions of radical or 'monstrous' alterity/hybridity as metaphors for larger socio-political concerns, including shifting gender roles, reconsiderations of the importance of the extended family as a social institution, and reconceptualisations of the very notion of cultural and national boundaries.
