As he frantically runs around trying to keep her a secret, Kohoutek's memories -- mostly involuntary and (in true postmodern fashion) of

questionable accuracy -- reveal in hilarious detail the life and crises of a hapless libertine and the forces that created him.

Is there nothing he can do to turn their heads his way? In dazzlingly deadpan text and art, Ole Könnecke hilariously demonstrates how easy it is to stumble when trying too hard to make a splash. After all, as parents know and children will learn, it's not about what you've got but about how much heart.

The pages have been printed in an entirely haphazard order, but it is possible - through logic and intelligent reading - to sort the pages into the only correct order, revealing six murder victims and their respective murderers. Masters was created at the beginning of the space race -- when who would get into space and to the moon first -- was a national obsession. The strip takes place in the not too distant future where the United States sends men into space but hasn't ventured much further yet. The series is clearly anchored in the late 1950s/early 1960s so it serves as a highly stylized period piece that still holds up very nicely. The material used in this archival edition ranges from original art, to press proofs, to tear sheets, and boasts the best reproduction of the strip ever.
