THE ADVENTURE OF THE CARDBOARD BOX

"The Adventure of the Cardboard Box" is one of the 56 short Sherlock Holmes stories written by British author Sir Arthur Conan Doyle. It is the second of the twelve Memoirs of Sherlock Holmes in most British editions of the canon, and the second of the eight stories from His Last Bow in most American versions. The story was first published in The Strand Magazine in 1892. Craving a classic mystery tale? You can't go wrong with Arthur Conan Doyle, a towering figure in the origination of the detective fiction

genre. This short story features master detective Sherlock Holmes attempting to pinpoint the origins of a mysterious and gory parcel. **THE ADVENTURE OF THE RED CIRCLE** "Well, Mrs. Warren, I cannot see that you have any particular cause for uneasiness, nor do I understand why I, whose time is of some value, should interfere in the matter. I really have other things to engage me." So spoke Sherlock Holmes and turned back to the great scrapbook in which he was arranging and indexing some of his recent material. But the landlady had the pertinacity and also the cunning of her sex. She held her ground firmly. "You arranged an affair for a lodger of mine last year," she said--"Mr. Fairdale Hobbs." "Ah, yes--a simple matter. When you're in the mood for a classic Sherlock Holmes story, nothing else will do. In this tightly plotted tale, the services of the famed super-sleuth are solicited by a distraught landlady. At her behest, Holmes and Watson investigate the case of a mysterious lodger who may not be what he appears to be. **THE HOUND OF THE BASKERVILLES** The Hound of the Baskervilles is the third of the four crime novels written by Sir Arthur Conan Doyle featuring the detective Sherlock Holmes. Originally serialised in The Strand Magazine from August 1901 to April 1902, it is set largely on Dartmoor in Devon in England's West Country and tells the story of an attempted murder inspired by the legend of a fearsome, diabolical hound of supernatural origin. Sherlock Holmes and his companion Dr. Watson investigate the case. This was the first appearance of Holmes since his apparent death in "The Final Problem", and the success of The Hound of the Baskervilles led to the character's eventual revival. One of the most famous stories ever written, in 2003, the book was listed as number 128 of 200 on the BBC's The Big Read poll of the UK's "best-loved novel". In 1999, it was listed as the top Holmes novel, with a perfect rating from Sherlockian scholars of 100. **THE SIGN OF THE FOUR** The Sign of the Four (1890), also called The Sign of Four, is the second novel featuring Sherlock Holmes written by Sir Arthur Conan Doyle. Doyle wrote four novels and 56 short stories featuring the fictional detective. Set in 1888, The Sign of the Four has a complex plot involving service in India, the Indian Mutiny of 1857, a stolen

treasure, and a secret pact among four convicts ("the Four" of the title) and two corrupt prison guards. It presents Holmes's drug habit and humanizes him in a way that had not been done in the preceding novel, A Study in Scarlet (1887). It also introduces Dr. Watson's future wife, Mary Morstan. According to Mary, in December 1878, her father had telegraphed her upon his safe return from India and requested her to meet him at the Langham Hotel in London. When Mary arrived at the hotel, she was told her father had gone out the previous night and not returned. Despite all efforts, no trace was ever found of him. Mary contacted her father's only friend who was in the same regiment and had since retired to England, one Major John Sholto, but he denied knowing her father had returned. The second puzzle is that she has received six pearls in the mail from an anonymous benefactor, one per year since 1882, after answering an anonymous newspaper query inquiring for her. With the last pearl she received a letter remarking that she has been wronged and asking for a meeting. Holmes takes the case and soon discovers that Major Sholto had died in 1882 and that within a short span of time Mary began to receive the pearls, implying a connection. The only clue Mary can give Holmes is a map of a fortress found in her father's desk with the names of Jonathan Small, Mahomet Singh, Abdullah Khan and Dost Akbar. **THE VALLEY OF FEAR** The Valley of Fear is the fourth and final Sherlock Holmes novel by Sir Arthur Conan Doyle. It is loosely based on the Molly Maguires and Pinkerton agent James McParland. The story was first published in the Strand Magazine between September 1914 and May 1915. The first book edition was copyrighted in 1914, and it was first published by George H. Doran Company in New York on 27 February 1915, and illustrated by Arthur I. Keller. 'The greatest schemer of all time, the organizer of every deviltry, the controlling brain of the underworld, a brain which might have made or marred the destiny of nations - that's the man!' Summoned to a mysterious manor house by one of the henchmen of his arch nemesis, Professor Moriarty, Holmes and Watson find themselves confronted by the scene of a brutal murder. But the brilliant Holmes soon reveals that there is much more to this case than

first meets the eye... First published as a serialisation in *The Strand Magazine* between 1914 and 1915, this fourth and final Sherlock Holmes novel will delight fans of Conan Doyle's legendary detective and his faithful sidekick Watson. HIS LAST BOW "His Last Bow. The War Service of Sherlock Holmes", later titled "His Last Bow: An Epilogue of Sherlock Holmes", is one of 56 short stories about Sherlock Holmes written by Sir Arthur Conan Doyle. It was first published in September 1917 in *The Strand Magazine* and collected as the last of an anthology of eight stories titled *His Last Bow: Some Reminiscences of Sherlock Holmes* the following month. The narration is in the third person, instead of the first-person narration usually provided by the character of Dr. Watson, and it is a spy story, rather than a detective mystery. Due to its portrayal of British and German spies on the eve of war, its publication during the First World War, and its patriotic themes, the story has been interpreted as a propaganda tool intended to boost morale for British readers On the eve of World War I. A German agent awaits one last package containing valuable naval signals before he prepares to leave for Berlin. A London landlady has a mysterious tenant who is never seen to emerge from his room. A rich elderly woman disappears from her home. The highly confidential plans to build a submarine are missing though ten pages are found near the body of a naval clerk. These mysteries and many more are brought to the house on Baker Street where Sherlock Holmes resides. But no case is too tricky for the world's most famous sleuth and his incredible powers of deduction. 'His Last Bow', the title story of this collection, tells how Sherlock Holmes is brought out of retirement to help the Government fight the German threat at the approach of the First World War. The Prime Minister himself requests Holmes's services to hunt down the remarkable German agent, Von Bork. Several of the detective's earlier cases complete the volume, including 'Wisteria Lodge', 'The Bruce-Partington Plans', and 'The Disappearance of Lady Frances Carfax'. In 'The Dying Detective', Dr Watson is horrified to discover Holmes at death's door from a mysterious tropical disease as his friend lays a trap for a murderer Short Stories for High

School Why must we confine the reading of our children to the older literary classics? This is the question asked by an ever-increasing number of thoughtful teachers. They have no wish to displace or to discredit the classics. On the contrary, they love and revere them. But they do wish to give their pupils something additional, something that pulses with the present life, that is characteristic of today. The children, too, wonder that, with the great literary outpouring going on about them, they must always fill their cups from the cisterns of the past. The short story is specially adapted to supplement our high-school reading. It is of a piece with our varied, hurried, efficient American life, wherein figure the business man's lunch, the dictagraph, the telegraph, the telephone, the automobile, and the railway "limited." It has achieved high art, yet conforms to the modern demand that our literature—since it must be read with despatch if read at all—be compact and compelling. Moreover, the short story is with us in almost overwhelming numbers and is probably here to stay. Indeed, our boys and girls are somewhat appalled at the quantity of material from which they must select their reading, and welcome any instruction that enables them to know the good from the bad. It is certain, therefore, that, whatever else they may throw into the educational discard when they leave the high school, they will keep and use anything they may have learned about this form of literature which has become so powerful a factor in our daily life. This book does not attempt to select the greatest stories of the time. What tribunal would dare make such a choice? Nor does it attempt to trace the evolution of the short story or to point out natural types and differences. These topics are better suited to college classes. Its object is threefold: to supply interesting reading belonging to the student's own time, to help him to see that there is no divorce between classic and modern literature, and, by offering him material structurally good and typical of the qualities represented, to assist him in discriminating between the artistic and the inartistic. The stories have been carefully selected, because in the period of adolescence "nothing read fails to leave its mark"; they have also been carefully arranged with a view to the needs of the adolescent boy and girl. Stories of

the type loved by primitive man, and therefore easily approached and understood, have been placed first. Those which appeared in periods of higher development follow, roughly in the order of their increasing difficulty. It is hoped, moreover, that this arrangement will help the student to understand and appreciate the development of the story. He begins with the simple tale of adventure and the simple story of character. As he advances he sees the story develop in the plot, in character analysis, and in setting, until he ends with the psychological study of Markheim, remarkable for its complexity of motives and its great spiritual problem. Both the selection and the arrangement have been made with this further purpose in view—"to keep the heart warm, reinforcing all its good motives, performing choices, universalizing sympathies." It is a pleasure to acknowledge, in this connection, the suggestions and the criticism of Mr. William N. Otto, Head of the Department of English in Shortridge High School, Indianapolis; and the courtesies of the publishers who have permitted the use of their material. The White Company

One of Arthur Conan Doyle's lesser known works, *The White Company* is a historical novel that is set during the Hundred Years War - a series of conflicts in the 14th and 15th centuries between the House of Plantaganet and the House of Valois. The novel in particular tells of Edward, the Black Prince and his attempts to restore Peter of Castille to his throne. The name of the book comes from a group of archers (The White Company) and is taken from an actual group of mercenaries from the 14th century. The book is supposed to be read alongside Doyle's *Sir Nigel*, about a knight (based on Sir Neil Loring) - and this character also features in this book. As well as many fictional characters, *The White Company* includes some real life historical figures, such as John of Gaunt, Edward III, Thomas Percy, and Henry II of Castille. Doyle regarded this novel, as well as his other historical ones, higher than he did his books about Sherlock Holmes, and it was popular up until the time of WWII. He wrote the book after attending a lecture about the Middle Ages, and after much research, it was first serialised in *Cornhill Magazine*. *The Coming of the Fairies* Best remembered for his creation of Sherlock

Holmes, the world's first consulting detective and a dedicated adherent to logic, Sir Arthur Conan Doyle in later life became fascinated by the occult. *The Adventure of the Bruce-Partington Plans* A thick smog has fallen over London. Mycroft comes to visit his brother Sherlock Holmes, asking for his help. A ten-page secret document has gone missing and three pages have just been found... in the pocket of Arthur Cadogan West's lifeless body. He was discovered near Aldgate tube station with his head smashed in and with only a little money, the confidential pages, and theatre tickets on him. Strangely, he had no Underground ticket. The document is a construction plan for the Bruce-Partington submarine and it is feared that the document may fall into enemy hands. "The Adventure of the Bruce-Partington Plans" is part of "His Last Bow".

A Study in Scarlet A Study in Scarlet is an 1887 detective novel written by Arthur Conan Doyle. The story marks the first appearance of Sherlock Holmes and Dr. Watson, who would become the most famous detective duo in literature. The book's title derives from a speech given by Holmes, a consulting detective, to his friend and chronicler Watson on the nature of his work, in which he describes the story's murder investigation as his "study in scarlet": "There's the scarlet thread of murder running through the colourless skein of life, and our duty is to unravel it, and isolate it, and expose every inch of it." The story, and its main characters, attracted little public interest when it first appeared. Only 11 complete copies of the magazine in which the story first appeared, *Beeton's Christmas Annual* for 1887, are known to exist now and they have considerable value. Although Conan Doyle wrote 56 short stories featuring Holmes, *A Study in Scarlet* is one of only four full-length novels in the original canon. The novel was followed by *The Sign of the Four*, published in 1890. *A Study in Scarlet* was the first work of detective fiction to incorporate the magnifying glass as an investigative tool. *Tales of Terror and Mystery* A collection of short stories that don't feature Doyle's most famous creation, Sherlock Holmes. Stories include: *The Horror Of The Heights*; *The Leather Funnel*; *The New Catacomb*; *The Case Of Lady Sannox*; *The Terror Of Blue John Gap*; *The Brazilian Cat*; *The Lost Special*; *The Beetle-Hunter*; *The Man With*

The Watches; The Japanned Box; The Black Doctor; and, The Jew's Breastplate. This volume presents some of Conan Doyle's unduly neglected masterworks. Each begins in a quietly factual way, making all the more dramatic the crescendo of fear and puzzlement that ensues as each new circumstance is revealed. Even without his supremely logical brain child, Sherlock Holmes, Conan Doyle shows that his tales are unbeatable for thrills and excitement. The Parasite The Parasite is about a young man known as Austin Gilroy, who studies physiology and knows a professor who is studying the occult. The young man is introduced to a middle-aged woman known as Miss Penclosa, who has a crippled leg and psychic powers. And some other stuff happens. The Disintegration Machine The Disintegration Machine is the last story in the Professor Challenger series. It was first published in Strand Magazine in January 1929. The story centers around the discovery of a machine capable of disintegrating objects and reforming them as they were. The Memoirs of Sherlock Holmes The memoirs of Sherlock Holmes see Sherlock Holmes and his friend, Dr. Watson, pursuing the strangest of cases across Britain once again. This edition boasts of stories where Holmes deals with challenges that defy the understanding of most people. Conan Doyle's genius shines through as he spins tales and shapes them around the extraordinary ability of Holmes. The bizarre cases that Holmes takes up are fascinating, for they fall beyond the mundane. Indulge children in this volume of stories that have enthralled readers over generations. Sherlock Holmes and Dr. Watson have once again taken up some of the most intriguing cases. Join them as they investigate disappearances, violent murders, and burglary and solve the mystery of a strange yellow-faced figure and an unusual business agreement. A collection of eleven short stories, The Memoirs of Sherlock Holmes introduces Mycroft, Holmes' elder brother, in 'The Adventure of the Greek Interpreter,' and Professor James Moriarty, the criminal mastermind and Holmes' archenemy, in 'The Adventure of the Final Problem.' The stories continue to thrill their readers. THE ADVENTURES OF SHERLOCK HOLMES The Adventures of Sherlock Holmes is a collection of twelve short stories by Arthur Conan Doyle, first

published on 14 October 1892. It contains the earliest short stories featuring the consulting detective Sherlock Holmes, which had been published in twelve monthly issues of The Strand Magazine from July 1891 to June 1892. The stories are collected in the same sequence, which is not supported by any fictional chronology. The only characters common to all twelve are Holmes and Dr. Watson and all are related in the first-person narrative from Watson's point of view. In general, the stories in The Adventures of Sherlock Holmes identify and try to correct social injustices. Holmes is portrayed as offering a new, fairer sense of justice. The stories were well received, and boosted the subscriptions figures of The Strand Magazine, prompting Doyle to be able to demand more money for his next set of stories. The first story, "A Scandal in Bohemia", includes the character of Irene Adler, who, despite being featured only within this one story by Doyle, is a prominent character in modern Sherlock Holmes adaptations, generally as a love interest for Holmes. Doyle included four of the twelve stories from this collection in his twelve favourite Sherlock Holmes stories, picking "The Adventure of the Speckled Band" as his overall favourite. The Casebook of Sherlock Holmes The Case-Book of Sherlock Holmes is the final set of twelve Sherlock Holmes short stories (56 total) by Arthur Conan Doyle first published in the Strand Magazine between October 1921 and April 1927. It includes 12 stories: The Adventure Of The Mazarin Stone; The Problem Of Thor Bridge; The Adventure Of The Creeping Man; The Adventure Of The Sussex Vampire; The Adventure Of The Three Garridebs; The Adventure Of The Illustrious Client; The Adventure Of The Blanched Soldier; The Adventure Of The Retired Colourman; The Adventure Of The Three Gables; The Adventure Of The Lion's Mane; The Adventure Of The Veiled Lodger; and, The Adventure Of Shoscombe Old Place (the last Sherlock Holmes story written by Arthur Conan Doyle to be published). The Return of Sherlock Holmes Thirteen classic Sherlock Holmes mysteries, complete and unabridged, in a newly packaged electronic edition - featuring full-page illustrations by Frederic Dorr Steele (the premiere American illustrator of the Sherlock

Holmes stories) and a ten page introduction by Andrew Malec. Steele's illustrations - modelled upon the features of William Gillette - add colour and spice to Doyle's tales. Witness Holmes' dramatic return; observe the downfall of Milverton, 'king of blackmailers'; and crack the cryptic message of the Dancing Men - all the while, allowing Steele's beautiful and thoughtful illustrations to bring your imagination to life. The Return of Sherlock Holmes is a collection of 13 stories. This was the first collection since 1893, when Holmes had died in The Final Problem. Having published The Hound of the Baskervilles, Doyle came under intense pressure to revive his famous character. The first story is set in 1894 and has Holmes returning in London and explaining the period from 1891-94, a period called 'The Great Hiatus' by Sherlockian enthusiasts. Also of note is Watson's statement in the last story of the cycle that Holmes has retired, and forbids him to publish any more stories.

Arthur Conan Doyle had a longstanding interest in mystical subjects and remained fascinated by the paranormal. At the height of the Great War a change came over his beliefs. The deaths he saw around him made him rationalize that spiritualism was a "New Revelation" sent by God to bring solace to the bereaved. Doyle found solace supporting spiritualism and its attempts to find proof of existence beyond the grave. He wrote many books and papers on the subject: The New Revelation The Vital Message The Wanderings of a Spiritualist The Coming of the Fairies The History of Spiritualism Pheneas Speaks The Spiritualist's Reader The Edge of the Unknown Stranger Than Fiction Fairies Photographed The Mediumship of Florence Cook The Houdini Enigma The Uncharted Coast The Law of the Ghost A New Light on Old Crimes The Shadows on the Screen An Old Story

The late 1890s saw Arthur Conan Doyle return to England after several years abroad. His new house, named Undershaw, represented a fresh start but it was also the beginning of a dramatic decade that saw him fall in love, stand for parliament, fight injustice and be awarded a knighthood. However, for his many admirers, the most important event of that decade was the resurrection of Sherlock Holmes - the character that he felt had cast a shadow over his life.

Teller of Tales - Daniel Stashower 2014-02-11
 Winner of the 1999 Edgar Award for Best Biographical Work, this is "an excellent biography of the man who created Sherlock Holmes" (David Walton, The New York Times Book Review) This fresh, compelling biography examines the extraordinary life and strange contrasts of Sir Arthur Conan Doyle, the struggling provincial doctor who became the most popular storyteller of his age. From his youthful exploits aboard a whaling ship to his often stormy friendships with such figures as Harry Houdini and George Bernard Shaw, Conan Doyle lived a life as gripping as one of his adventures. Exhaustively researched and elegantly written, Daniel Stashower's *Teller of Tales* sets aside many myths and misconceptions to present a vivid portrait of the man behind the legend of Baker Street, with a particular emphasis on the Psychic Crusade that dominated his final years--the work that Conan Doyle himself felt to be "the most important thing in the world."

The Exploits and Adventures of Brigadier Gerard - Arthur Conan Doyle 2008-05-29
 There is no braver officer in Napoleon's cavalry

than Étienne Gerard - especially in his own opinion. Whether kidnapped by gangs of brigands or outnumbered by enemy troops, the plucky little soldier is constantly gallant, chivalrous and ready to face any danger, even if he doesn't always think before he acts. With great gusto Gerard recounts the swashbuckling exploits and adventures of his glittering military career - carrying out secret missions for Napoleon, eluding capture by the Duke of Wellington, making a daring break from an English prison, rescuing ladies in distress, duelling to the death against the dastardly Baron Straubenthal and even saving the day at the Battle of Waterloo.

Dangerous Work - Arthur Conan Doyle
 2012-10-18

This e-book features the complete text found in the print edition of *Dangerous Work*, without the illustrations or the facsimile reproductions of Conan Doyle's notebook pages. In 1880 a young medical student named Arthur Conan Doyle embarked upon the "first real outstanding adventure" of his life, taking a berth as ship's surgeon on an Arctic whaler, the *Hope*. The voyage took him to unknown regions, showered him with dramatic and unexpected experiences, and plunged him into dangerous work on the ice floes of the Arctic seas. He tested himself, overcame the hardships, and, as he wrote later, "came of age at 80 degrees north latitude." Conan Doyle's time in the Arctic provided powerful fuel for his growing ambitions as a writer. With a ghost story set in the Arctic wastes that he wrote shortly after his return, he established himself as a promising young writer. A subsequent magazine article laying out possible routes to the North Pole won him the respect of Arctic explorers. And he would call upon his shipboard experiences many times in the adventures of Sherlock Holmes, who was introduced in 1887's *A Study in Scarlet*. Out of sight for more than a century was a diary that Conan Doyle kept while aboard the whaler. *Dangerous Work: Diary of an Arctic Adventure* makes this account available for the first time. With humor and grace, Conan Doyle provides a vivid account of a long-vanished way of life at sea. His careful detailing of the experience of

arctic whaling is equal parts fascinating and alarming, revealing the dark workings of the later days of the British whaling industry. In addition to the transcript of the diary, the e-book contains two nonfiction pieces by Doyle about his experiences; and two of his tales inspired by the journey. To the end of his life, Conan Doyle would look back on this experience with awe: "You stand on the very brink of the unknown," he declared, "and every duck that you shoot bears pebbles in its gizzard which come from a land which the maps know not. It was a strange and fascinating chapter of my life." Only now can the legion of Conan Doyle fans read and enjoy that chapter.

Britain's Television Queen - Bob Crew
2016-12-19

Focusing purely on Queen Elizabeth II's relationship with television, this book shows how she was ahead of the game in helping to change the face of British television from the outset of her reign in 1953 when she let the cameras into Westminster Abbey. The Queen embraced television at a time when Winston Churchill and her government advisors recommended that she should keep them out - on the grounds that the cameras would destroy her royal mystique - right through the 1950s which was Britain's television decade (for reasons that are not generally understood today), when Britain became the first nation in the world to have public service television. In 1969 the Queen opened the doors to the cameras once again for the invention of Britain's first family-reality-TV, fly-on-the-wall programme, showing how she and her husband the Duke of Edinburgh and their children, Charles and Anne, went about their daily lives, thereby giving the seal of royal

approval to reality-TV, ahead of the first programmes in the United States and the UK that followed in her wake. Queen Elizabeth II can accurately be described as a television queen, the first monarch to understand and embrace television and, in particular reality-TV, which is why she was light years ahead of other royals and her government ministers. Television was for her a right of passage and, not until she ran into bad and stormy weather with Princess Diana in the 1980s and 1990s, did she have any image problems with television. These problems no longer remain today, evidently, as once again the television arrangements are in full swing for her Diamond Jubilee celebrations this June. Queen Elizabeth II remains the most televised and visualised person in the world.

Conan Doyle - Andrew Lycett 2007

Sherlock Holmes might have been the epitome of cool reason - 'a calculating machine' in the words of his friend Dr John H. Watson - but the real life of his creator was very different. A man of deep emotion, complex motivation and prodigious energy, Arthur Conan Doyle ended his life an ardent spiritualist, happy to promote the famous 'Cottingley Fairies' photographs, which are now known to have been faked. Having rejected his Irish family's Catholicism, he could not, for all his scientific training as a doctor, dismiss his gut feeling that there was another dimension to existence. Well before he adopted spiritualism as a religion during the First World War, he dabbled in all aspects of the paranormal, holding seances while a GP in Portsmouth. With his sure understanding of the historical background, Andrew Lycett sets this unfolding story against the intellectual currents of the age, as well as unravelling his subject's internal life. Plagued by an alcoholic father and stirred on by a domineering mother, Conan Doyle fell into a placid marriage which was rudely interrupted when he fell passionately in love with another woman, just as his first wife contracted the tuberculosis that would kill her. Conan Doyle dealt with these traumatic events by throwing himself even more into his work, taking up various causes (such as the injustice meted out on the solicitor George Edalji - the subject of Julian Barnes's best-selling novel *ARTHUR & GEORGE*) and immersing himself in a wide range of other activities, including politics, clubland, and sports. His literary output was not confined to the creation of fiction's most famous detective; Lycett sheds new light on Conan Doyle's horror and occult stories, historical romances, factual histories, and spiritualist tracts. With access to fascinating new material, Lycett gives the most comprehensive, psychologically satisfying and delightfully readable portrait yet of the man who created Sherlock Holmes.

A Scandal In Bohemia - Sir Arthur Conan Doyle 2016-08-31

Sherlock Holmes, the world's "only unofficial consulting detective", was first introduced to readers in *A Study in Scarlet* published by Sir Arthur Conan Doyle in 1887. It was with the

publication of *The Adventures of Sherlock Holmes*, however, that the master sleuth grew tremendously in popularity, later to become one of the most beloved literary characters of all time. In this book series, the short stories comprising *The Adventures of Sherlock Holmes* have been amusingly illustrated using only Lego® brand minifigures and bricks. The illustrations recreate, through custom designed Lego models, the composition of the black and white drawings by Sidney Paget that accompanied the original publication of these adventures appearing in *The Strand Magazine* from July 1891 to June 1892. Paget's iconic illustrations are largely responsible for the popular image of Sherlock Holmes, including his deerstalker cap and Inverness cape, details never mentioned in the writings of Conan Doyle. This uniquely illustrated collection, which features some of the most famous and enjoyable cases investigated by Sherlock Holmes and his devoted friend and biographer Dr. John H. Watson, including "A scandal in Bohemia" and "The Red-Headed League", is sure to delight Lego enthusiasts, as well as fans of the Great Detective, both old and new.
